

Media localization

Last Modified on 02/26/2025 11:01 am IST

 This article is designated for all users.

About

Media owners can add metadata (such as name, description, and tags) in different languages for their media via the **Languages tab** of the edit media page.

Prerequisites

Enable the Multi-Language Instance setting under the [Application module](#) to use this feature. For more information see [Localization - How to Change Your Kaltura Application Language](#).

The accounts shown herein have the [Theming module](#) enabled.

Add a language

1. Access the [edit media page](#).
2. Click on the **Languages** tab.

Add language to your media details

Enrich your content title, description and tags with more languages.

[Enable languages](#)

3. Click the **Enable languages** button.
The **Set your default language** screen displays.

Set your default language

Select the language in which you wrote the media details.

Language *

Name *

Description

B *i* U   **A**  

While there are many benefits of using HR software, one of the biggest is its ability to reduce the time spent on repetitive, low-impact administrative tasks, which allows HR professionals to focus on more productive responsibilities and longer-term strategic outcomes.

Save

4. Select a language from the language drop-down menu.

Language *

- ES Spanish
- EN English ✓
- IN Indonesian
- DE Deutsch
- NL Nederlands

In our example below, the media owner has chosen English.

Set your default language

Select the language in which you wrote the media details.

Set default language

Cancel

Save

Notice the **Set default language** check box is deactivated for the first language you enter because the first language entered is always used as the default. When adding subsequent languages, this check box is active, allowing you to adjust the default used.

5. Click **Save**.

The language is now set for the metadata.

Media details in additional languages

[+ Add Language](#)

Here you can find your media details. To add details in other languages, click Add language, and fill in the details in the chosen language. The details presented to the viewer will be according to their language preference, or the default language if they didn't choose one.

Languages	Title	Description	Tags	Actions
EN English <small>(Default)</small>	HR Information Systems Overview	While there are many benefits of using HR software, one of the biggest is its ability to reduce the time spent on repetitive, low impact administrative tasks, which allows HR professionals...	+3	 

To add details in other languages

- Click **+ Add Language** and repeat the steps above for the additional language.

To edit a language already added

- Click the edit (pencil) icon to the right of the language, edit the details in the chosen language, then click **Save**.

To delete a language already added

- Click the delete (X) icon to the right of the language. You will be asked to confirm the action.

You may not delete a language marked as Default.

Links to the Languages tab are also provided in the Details tab to assist the media owner in preparing their media.
