

'Add New' menu in legacy Video Portal

Last Modified on 06/04/2026 9:18 am IDT

 This article is designated for all users.

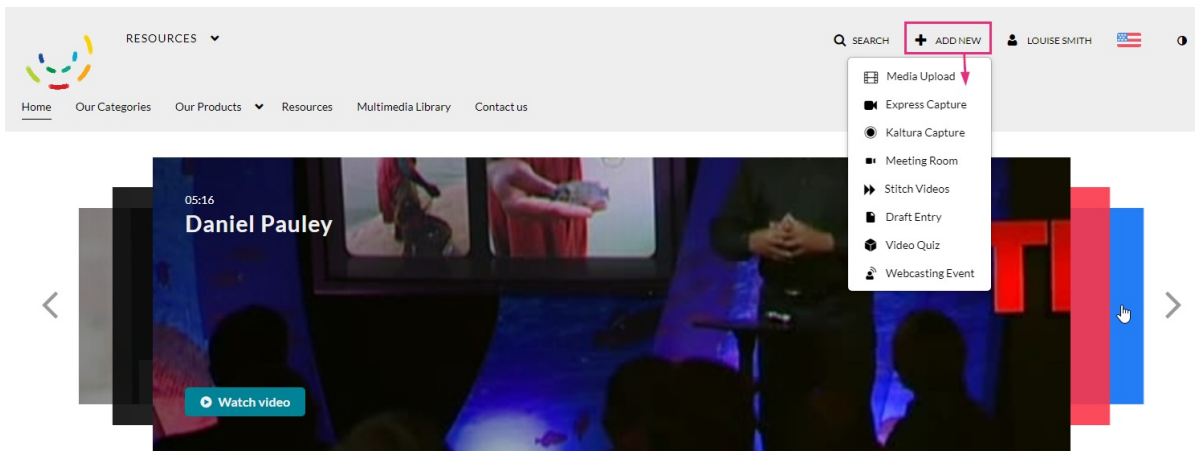

About

Use the **Add New** menu to easily create a variety of new media from scratch. Once created, your new content is automatically added to your [My Media](#) library, ready for immediate use and organization.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Access the menu

Simply click **Add New** at the top right of your Video Portal to see the list of options for adding media.

Depending on what is enabled on your application, your Add New menu may look slightly different to the one shown in this article. If there is an option missing, please contact your Kaltura administrator to discuss how to enable it.
