About

Account owners/admin who have been planning and managing a variety of events may wish to "showcase" a collection of sites to prospects and allow those prospects to register for upcoming events and/or watch past events on demand. Kaltura generates a "Showcase page" that account owners/admin can customize, share directly with prospects, and/or embed on the event organizer's own website. Account owners/admin can choose the specific events they want listed on their Showcase page, as well as those events they want highlighted/promoted at the top of the page. Prospects can browse the Showcase page to view a list of events coming up, register for them, and watch past events on demand.

Events showcase capabilities are available only to account owners/admin.

Add events and highlight events on your Showcase page

1. On the All Events page of your account, click the three-dot button to the right of the event you would like to showcase, then choose **Publish to Showcase**.
