About

Event organizers who have been planning and managing a variety of events may wish to "showcase" a collection of sites to prospects and allow those prospects to register for upcoming events and/or watch past events on demand. Kaltura generates a "Showcase page" that event organizers can customize, share directly with prospects, and/or embed on the event organizer's own website. Event organizers can choose the specific events they want listed on their Showcase page, as well as those events they want highlighted/promoted at the top of the page. Prospects can browse the Showcase page to view a list of events coming up, register for them, and watch past events on demand.

 Events showcase capabilities are available only to account owners/admin.

Watch the video tutorial below to learn more about the Showcase page!

Add events and highlight events on your Showcase page

1. On the All Events page of your account, click the three-dot button to the right of the event you would like to showcase, then choose **Publish to Showcase**.

The **Publish on Showcase** screen displays.

Publish on Showcase

Published The published event will appear on showcase

Highlight this event on the Showcase page

Cancel

Save changes

- Click to slide the enable button to the right, confirming you would like to publish this event on your Showcase page—additional options display.

- Here you can customize your Events showcase, including **Page title**, **Page description**, and **Logo**; you may copy your URL by clicking the **Copy URL** button; and you may publish any changes you've made by clicking the **Publish changes** button. You may also click the **Visit Showcase** link to be redirected to the actual

Showcase page.

- If you would like to embed your Showcase page on your website, click the Embed tab, then copy the code by clicking **Copy code**. On this tab you may also choose a Light or Dark theme for the embeddable version.

The screenshot shows the Kaltura Events Showcase page interface. On the left, a navigation menu includes 'Page' and 'Embed', with the 'Embed' tab highlighted in a red circle. Below the menu, there is a section for embedding the showcase, including an iframe code block and a 'Copy code' button. Further down, there are 'Customization' options for 'Theme', with 'Light' and 'Dark' theme preview buttons. The main content area displays the 'Kaltura events' header, a search bar, and a featured event titled 'Virtual or in-person? A data-backed answer for your 2023 event strategy'. Below this, there are navigation buttons for 'Register', 'Add to calendar', 'Share', and 'More info'. At the bottom, there is a section for 'Upcoming events' and 'Watch on-demand' with a search bar and category/date filters.
