This article is designated for all users.

About

Accessing channel playlists unlocks a world of content curated to specific themes or topics. Whether you're into educational material, campaign highlights, or leaderboard updates, playlists are your go-to for easy navigation and engagement. Dive in to efficiently discover and enjoy videos that match your interests perfectly!

Access the channel

1. Select **My Channels** from the user menu.

The **My Channels** page displays.

2. Click on a channel's thumbnail to open the channel.

The channel displays.

Access the playlists

The channel displays a Playlists tab. Click on it to display the playlists.

The Playlists tab is visible only if playlists are available in the channel.

Playlists are displayed with a name, description (if configured), and accompanying media thumbnails to identify the content.

Click **See All** to see the entire playlist or click on the thumbnail or the playlist name to watch.

Here's an example of what you see after clicking "See All".
