About

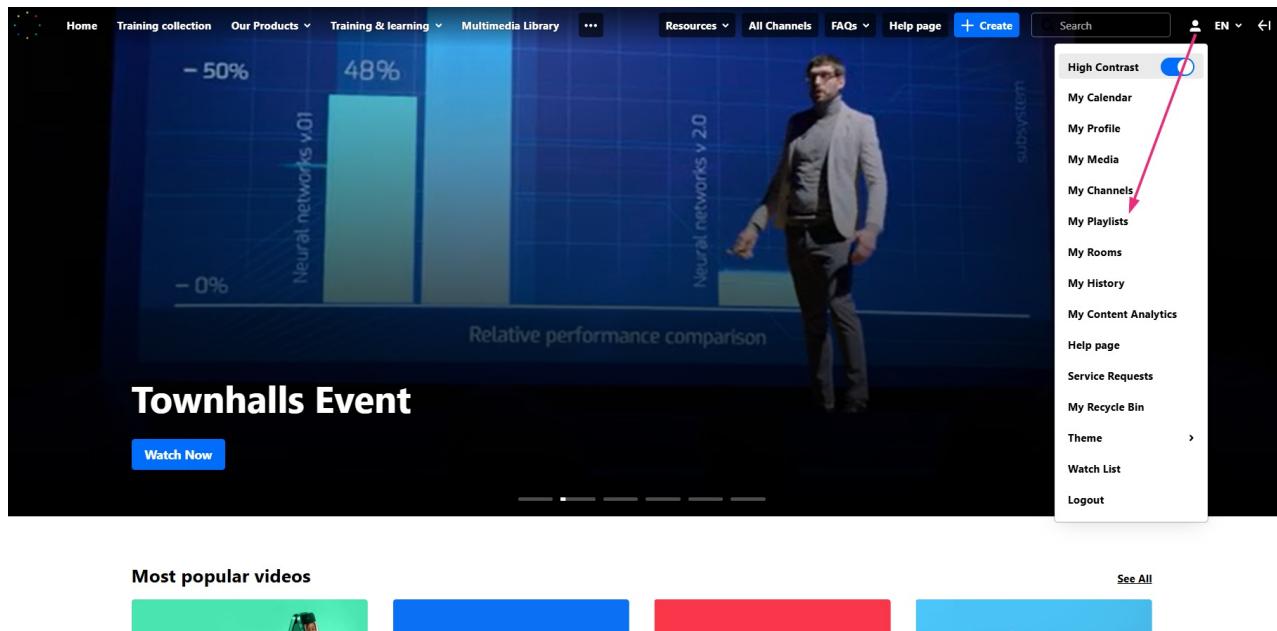

The **playlist playback page** allows users to watch media in the playlist one by one.

This page is available only when both the Theming-based 'mediapage' and 'playlist' features are enabled in the [Theming module](#).

Access the playlist playback page

There are several ways to [access a playlist](#). The quickest is from **My Playlists** in the user menu.

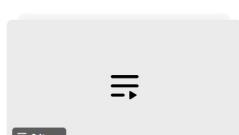

The 'My Playlists' page displays.

Playback page features

- The first item in the playlist is displayed in the large player on left. (If the playlist was set to auto-play, the first item in the playlist starts playing automatically as soon as you visit the Playlist page.)
- The playlist name, status, and complete list of items in the playlist are display on right.
- The bottom half of the screen shows the name, creator, when the item was last updated, along with the number of views, likes, plays, and comments, and a field to enter a new comment. Tabs are displayed based on the media's settings.
- Media related to the media being played is shown as well.
