 This article is designated for all users.

About

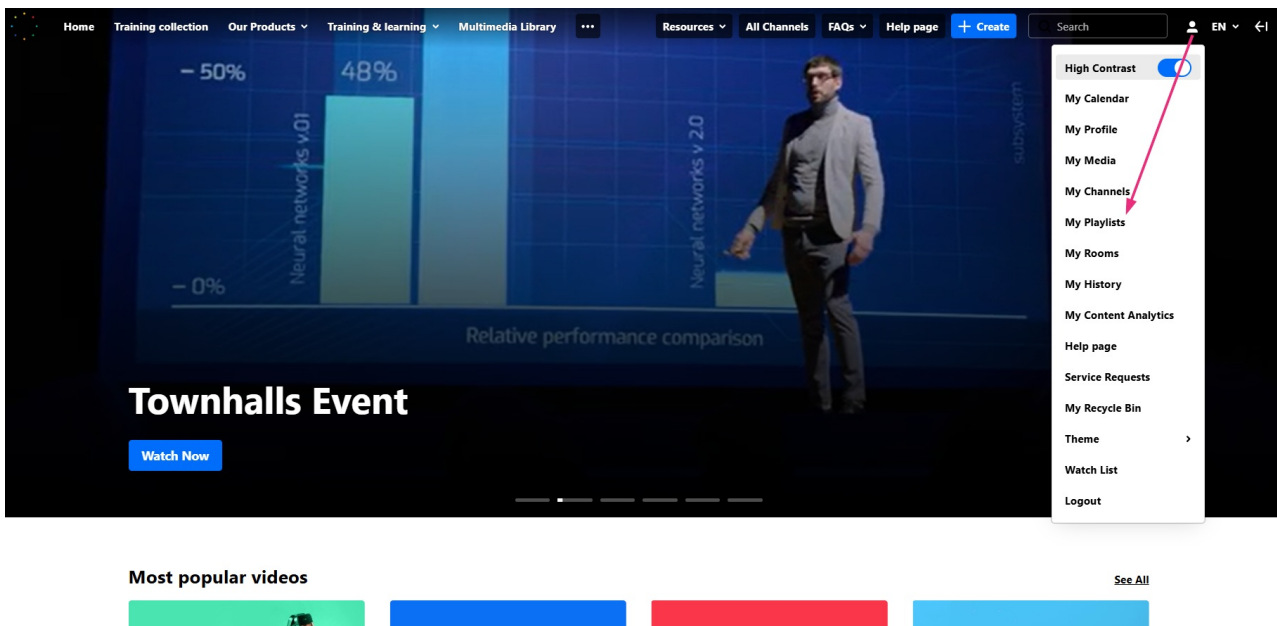

The **playlist playback page** allows users to watch media in the playlist one by one.

This feature requires the [Theming module](#) to be enabled, with the 'mediapage' and 'playlist' features set to 'Yes'.

Access the playlist playback page

There are several ways to [access a playlist](#). The quickest is by selecting **My Playlists** in the user menu.

The 'My Playlists' page displays.

My Playlists

Search for playlist 14 items Filters + Create playlist

- Watch List** (5 items) Updated August 13, 2025
- Organizational Outlook** (7 items) Updated August 13, 2025

Find the playlist you want and click on the thumbnail to play.

My Playlists

Search for playlist 14 items

- Watch List** (5 items) Updated August 13, 2025
- Organizational Outlook** (7 items) Updated August 13, 2025
- My Playlist 440403** (3 items) Updated March 04, 2025

The playback page opens.

Playback page features

- The first item in the playlist is displayed in the large player on left. (If the playlist was set to auto-play, the first item in the playlist starts playing automatically as soon as you visit the Playlist page.)
- The playlist name, status, and complete list of items in the playlist are display on right.
- The bottom half of the screen shows the name, creator, when the item was last updated, along with the number of views, likes, plays, and comments, and a field to enter a new comment. Tabs are displayed based on the media's settings.
- Media related to the media being played is shown as well.
