About

Ready to engage your audience with interactive video quizzes? In this article, we'll walk you through the process of setting up a video quiz in Kaltura. Whether you're using Kaltura's Video Portal or Kaltura Application Framework (KAF), setting up your quiz is straightforward and packed with customizable options to fit your needs.

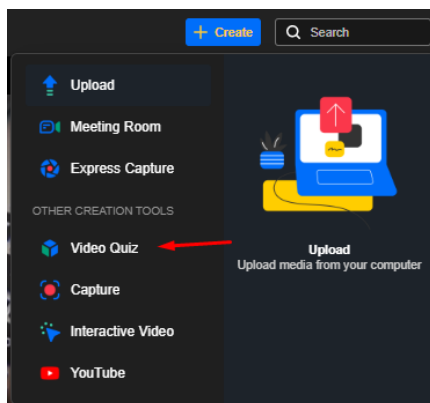

Watch the video tutorial below or read the instructions that follow.

Prerequisites

The [Editor module](#) and the [Quiz module](#) must be enabled.

Launch quiz editor

1. Login to your KMS or KAF applications. (In KAF, navigate to My Media.)
2. Click **+Create*** and select **Video Quiz** from the drop-down menu.

*If you don't have the [Theming module](#) enabled on your instance, click **+Add New** and select **Video Quiz**.

The video quiz **Editor / Media Selection** page displays.

Editor / Media Selection

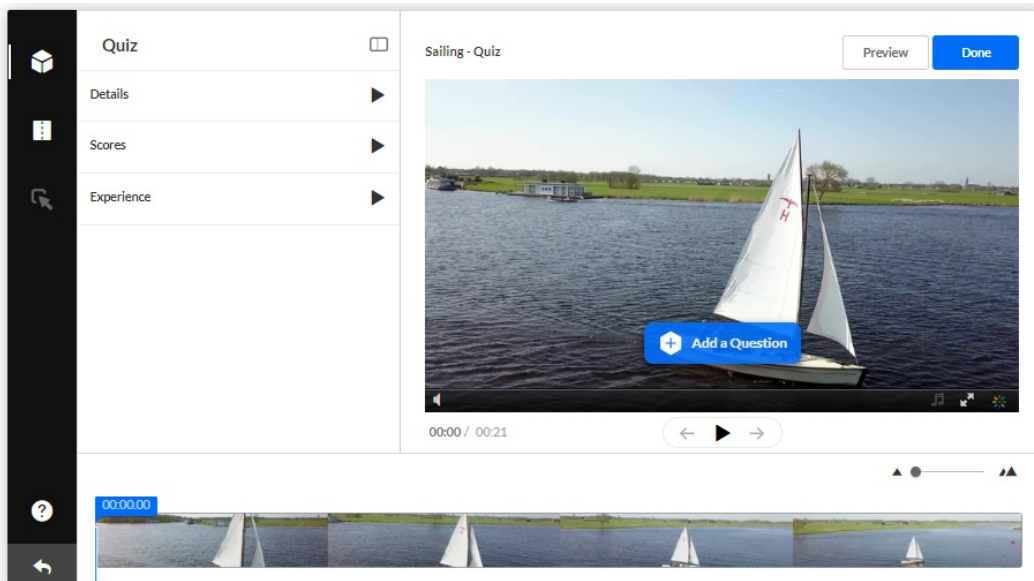

Please select the media you would like the quiz to relate to. You can either select an existing media or upload a new one.

3. Click **Select** next to the media item you want to use for your quiz. If you want to upload a new media item for the quiz, click **+Upload Media** (see [Upload Media](#) for instructions if needed).

 You can create or modify a quiz from VOD, Audio, and YouTube entries, but not from Live and Image entries.

The **Video Quiz Editor** is launched.

Configure Quiz settings

Details

Click the **Details** tab to edit the quiz details.

You'll see the following default values which you can change to suit your style or purpose (don't forget to scroll down while you're in the tab!).

Quiz Name - This is the name you originally gave to the media item. You can change it to any name you want.

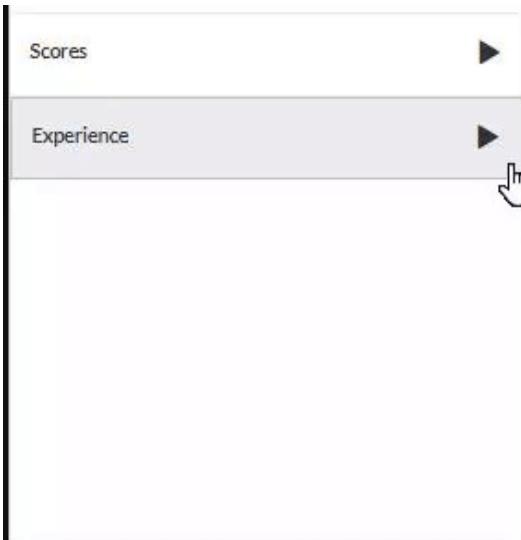

Welcome Message - A default message is ready for you to use but you can change it to anything you like. The message is shown on the first screen of the quiz. If you don't want a Welcome message, just untick **Show Welcome Page**.

Allow Download of Questions List - This allows quiz participants to download the list of questions before starting the quiz. See our article on [Pre-test questions](#) to learn more.

Instructions - The following default instructions will be displayed: "All questions must be answered. The quiz will be submitted at the end."

Scores

Next, click the **Scores** tab to set or modify the scoring options.

The following default values are displayed, and you have the option to change them:

Allow Multiple Attempts - You can select how many attempts a participant has to take the quiz (the minimum is 2 per quiz). You then choose which score to keep (Highest Attempt, Lowest Attempt, Latest Attempt, First Attempt, or Average of all Attempts).

 Note that **QuestionsV3** in the [Quiz Module](#) must be enabled by your administrator to have the **Allow Multiple Attempts** feature available.

[Revert to defaults](#)

Upon Submission:

Allow Multiple Attempts

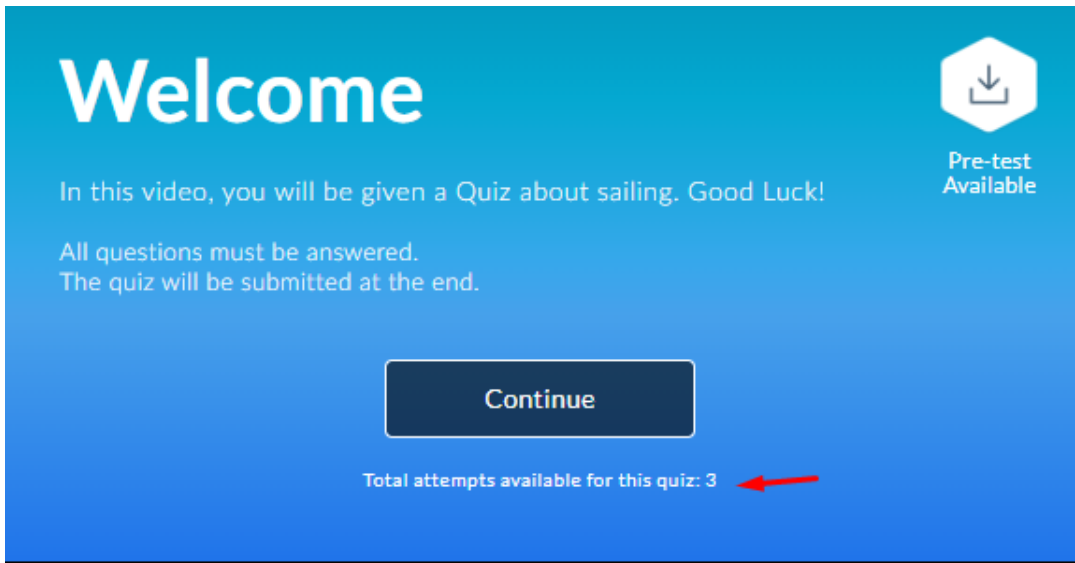

Allow viewers to take the quiz more than once.

Number of attempts (2-100)

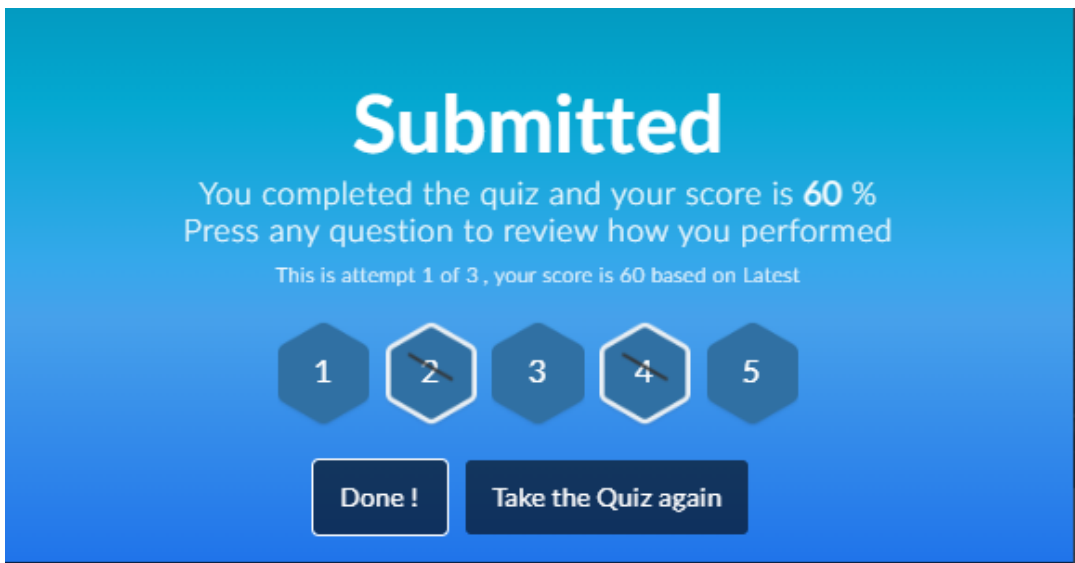

Quiz Score to Keep

- Latest Attempt
- Highest Attempt
- Lowest Attempt
- Latest Attempt
- First Attempt
- Average of all Attempts

The number of attempts will be shown on the Welcome page as long as the **Show Welcome Page** has been enabled in the Details tab.

After a participant submits the quiz, the **Submitted** page shows the number of attempts and the final score. The participant will also be able to see the scoring selection you chose.

(Participants won't be able to see their previous answers after they click **Take the Quiz again.**)

Do Not Show Scores - A 'Thank You' message will display after submitting the quiz, and no scores will be presented to the viewer.

Show Scores - Participants will see the quiz score page after the quiz has been submitted.

Include Answers - Participants will be able to see correct/incorrect answers, as well as the correct answer's rationale if you chose to add it during the quiz creation. Please see [Adding hints and why](#) to read more about this option.

If you change your mind, you can click **Revert to defaults** at any time.

Experience

Click the **Experience** tab to set or modify the experience options.

The following default values are displayed, and you have the option to change them:

Allow Answers Change - Allows your participants to change an answer before submitting the entire quiz during review mode.

Allow Skip - This enables a "Skip for Now" button which allows your participants to skip a question and go back to it later.

Do not Allow Skip - Participants must submit an answer before proceeding forward.

No seeking forward - Participants won't be able to use the seek bar to navigate the video past the point they viewed.

You can choose **Revert to defaults** at any time.

Next up, see our article [Add questions to your video quiz](#).
