About

Playlists help you organize and highlight content on your channel.

You must have permissions to create playlists.

- The [Channelplaylists](#) module must be enabled.
- Existing playlists may not be added to a channel playlist.
- Kaltura Video Quizzes can only be added to a playlist in applications where the main playlist player is set to a **v7 player**.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Watch the video below for quick and easy steps, or following the instructions below.

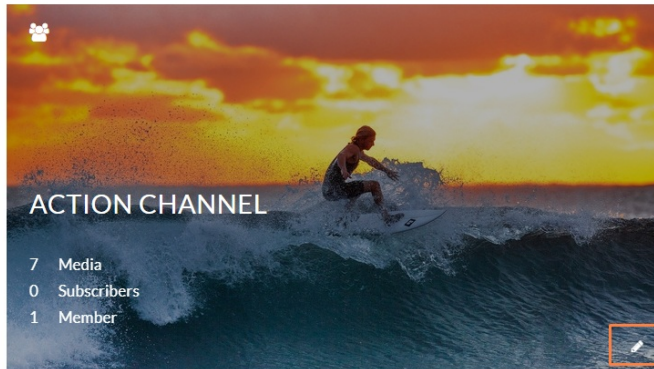

Create from the channel's edit page

1. From the user menu, select **My Channels**.
2. On the **My Channels** page, select the pencil icon of a channel you want to add a playlist to. You can also click the channel thumbnail, and from the Actions menu choose **Configure**.

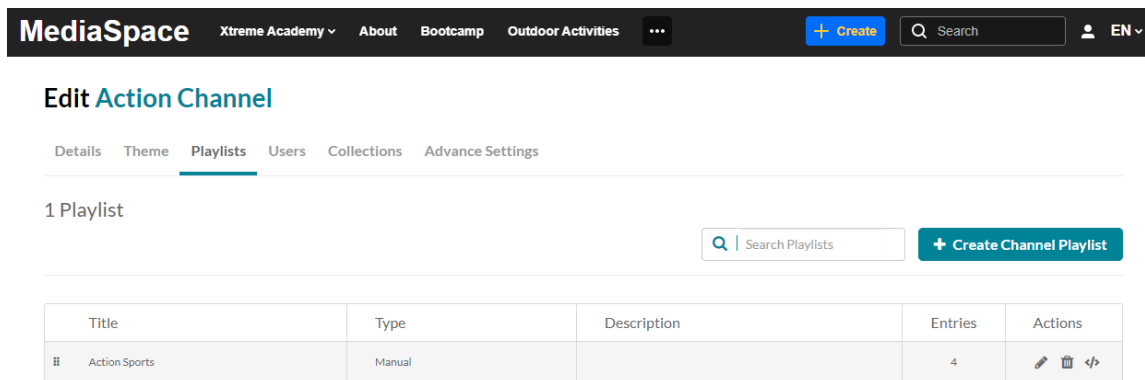

My Channels

Search For Channels

Filters > Sort By: Media Count ▾

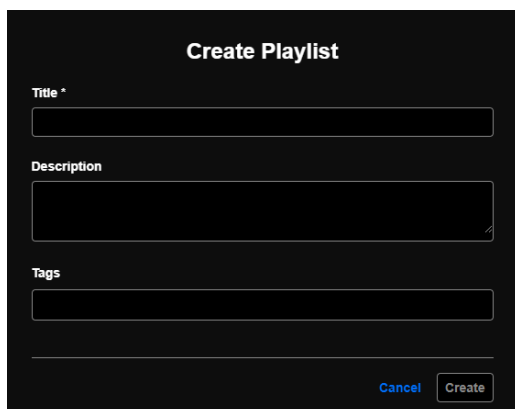

3. The channel's **Edit** page displays.

4. Select the **Playlists** tab.

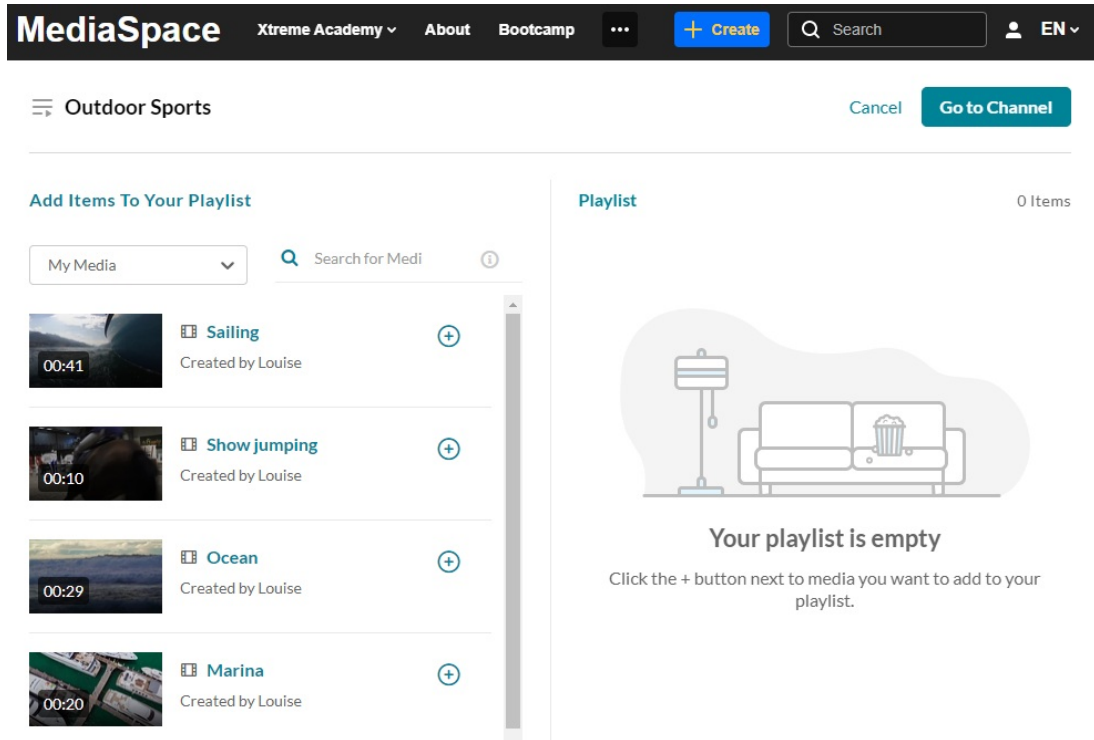

5. Click **+ Create Channel Playlist**.

The **Create Playlist** window opens.

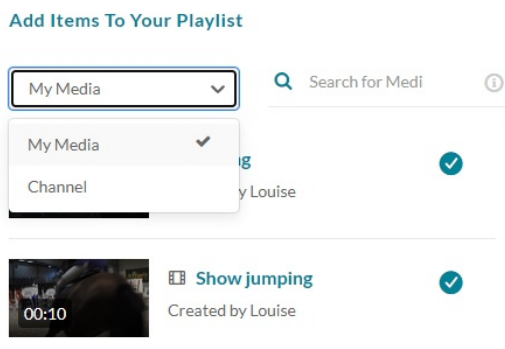

6. Type a title (required), description, and tags for the playlist.
7. Click **Create**.

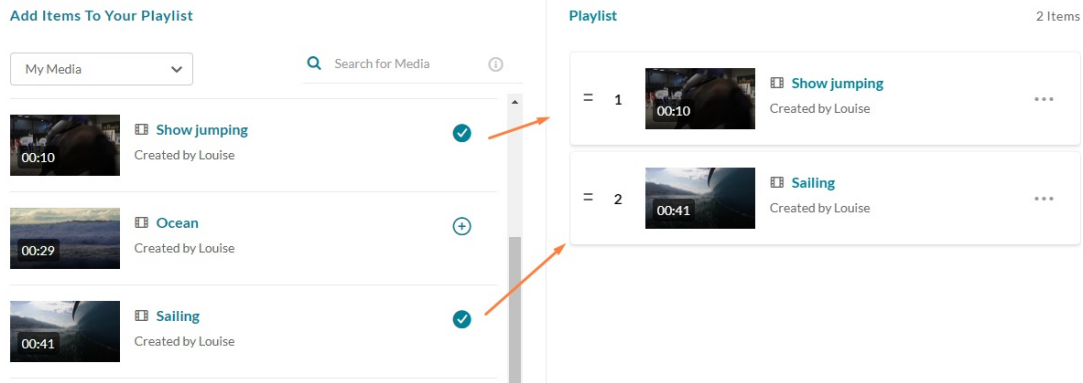

The **Add Items To Your Playlist** window displays.

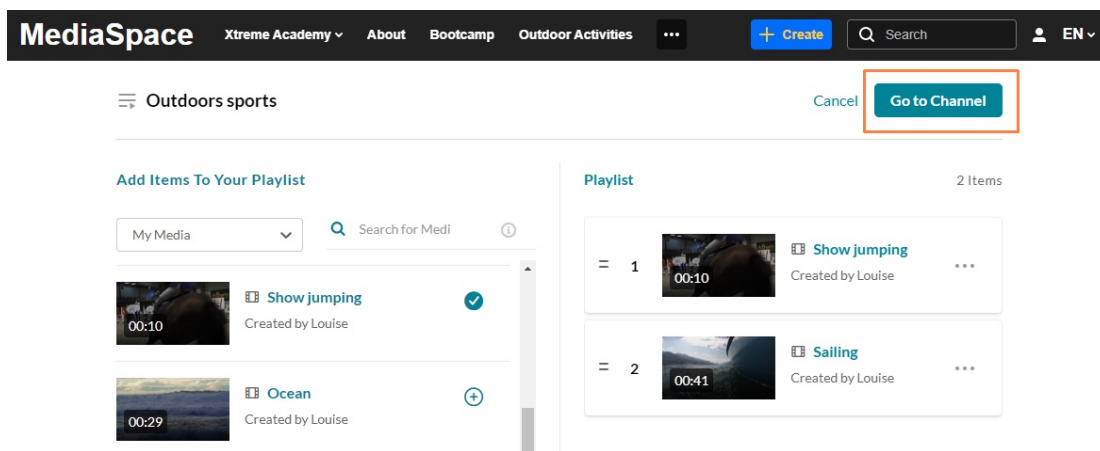

8. From the drop-down, select **My Media** or **Channel** ('Channel' shows media that is already in the channel). Optional: type search criteria in the search field.

9. Click the **+** button(s) next to the items you want to add to your playlist. Items selected display a check mark. If you change your mind, just click the check mark to remove the item.

10. Click **Go to Channel**.

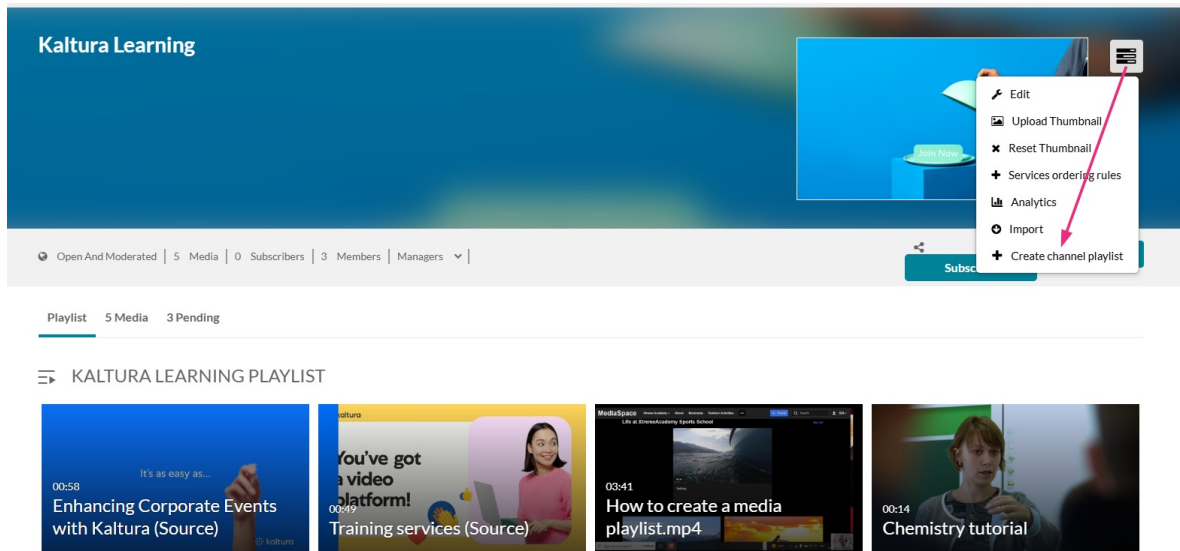

11. The channel playlist was successfully created. Open the **Playlists** tab to see your new playlist.
