2. In the **enabled** pull-down, select **Yes**.

3. Enter values for the relevant fields:

- **quizPlayerId** - What is the player ID (uiConf ID) of the player that plays quizzes? The default **playerId** is used if left empty.
- **playerBarHeightPixels** - The height (in pixels) of the player ui which is not part of the actual video (for example - the bottom bar). Leave blank to use the default player value.
- **playerVideoRatioPercent** - The ratio (in percent) of the video inside the player. Standard values: 16:9 = 56.25 , 4:3 = 75 , 16:10 = 62.5. Leave blank to use the default player value.
- **BSEPlayerId** - What is the player ID (uiConf ID) of the player that used to play quizzes in embedded content (BSE Browse Search and Embed? The Uiconf should have the infoScreen plugin enabled.
- **enableQuestionsV2** - Set to Yes to allow quiz creators the use the new question types. To use this feature the quiz player should be set to Kaltura version 2.68.3 player or higher.
- **enableQuestionsV3** - Set to Yes to allow quiz creators to use Open Question type and Multiple Attempts. To use this feature, the quiz player version should be 2.75 or higher.

Open questions have a limit of 400 characters for the question and 250 for the answer.

- **allowedRolesQuiz** - Who can create a quiz? if a role is selected, any role above it will also be able to create a quiz.
- **preventForwardSeeks** - This feature is disabled by default.

The **preventForwardSeeks** can't be restored once enabled.

Once enabled, you will not be able to turn off this feature. The 'No seeking forward' setting will be added to the Video Editor, giving the quiz creators the option of whether to restrict viewers from seeking forward in the quiz or not.

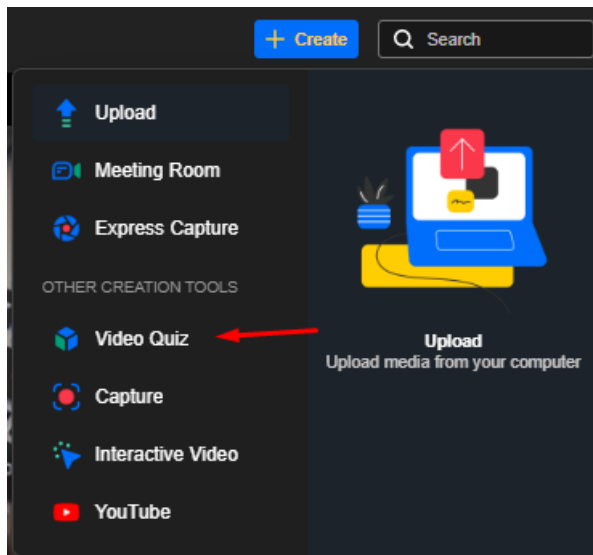

The screenshot shows the 'Quiz' settings panel in the Kaltura Video Editor. The 'Experience' dropdown menu is open, displaying three options: 'Users will be presented with the 'skip for now' button.', 'Do not Allow Skip', and 'No seeking forward'. The 'No seeking forward' option is highlighted in yellow. Below this option, a description states: 'Users will not be able to use the seek bar to navigate the video past the point they viewed.'

Click **Save**.

Verify Video Quiz is enabled

1. Login to your video portal or LMS.
2. Click **+ Create** to see the list of options for adding media.
Video Quiz is displayed as an option.

Video quiz analytics - Quiz creators can view the quiz analytics and the users that have submitted them. Make sure to enable [Userreports module](#) to view Video Quiz analytics!

The video quiz session time is set in the sessionLifetime parameter configured globally in the [Auth](#) module on the KMS/KAF admin page. (This is the same session time for any action in Kaltura applications).

sessionLifetime

How long (in seconds) can a MediaSpace user session last? If set value is lower than the minimum of 3600 seconds (1h), the minimum will be utilized.
