Global			
Application	quizPlayerId	<input type="text" value="52243762"/>	The Player ID for the player used for quiz media (* Prevent Seek feature - Enabled)
Auth			
AddNew			
Categories	playerBarHeightPixels	<input type="text"/>	The height (in pixels) of the player ui which is not part of the actual video (for example - the bottom bar). Leave blank to use the default player value.
Channels			
Client	playerVideoRatioPercent	<input type="text"/>	The ratio (in percent) of the video inside the player. Standard values: 16:9 = 56.25 , 4:3 = 75 , 16:10 = 62.5. Leave blank to use the default player value.
Debug			
EmailService			
EmailTemplates	BSEPlayerId	<input type="text" value="52243762"/>	The Player ID for the player used in BSE for quiz media (* Prevent Seek feature - Enabled)
Gallery			
Header	enableQuestionsV2	<input type="button" value="Yes"/>	Set to Yes to allow quiz creators the use of the new questions types. To use this feature the quiz player should be set to Kaltura version 2.68.3 player or higher.
Languages			
Login	enableQuestionsV3	<input type="button" value="Yes"/>	Set to Yes to allow quiz creators the use of the new Open Question type and Retake capabilities. To use this feature, the quiz player version should be 2.75 or higher
Metadata			
Moderation			
My-media	allowedRolesQuiz	<input type="button" value="admin Role"/>	Who can create a quiz? if a role is selected, any role above it will also be able to create a quiz.
Navigation			
Player	preventForwardSeeks	<input type="button" value="Enabled"/>	The 'Do not allow seek' feature in the Kaltura Video Editing Tools Editor is enabled. Quiz creators may create a quiz restricting viewers to seek forward in the video. NOTE: Quiz players will be enhanced with the player plugin upon saving of the module.
Recaptcha			
Security			

3. In the **enabled** pull-down, select **Yes**.

4. Enter values for the relevant fields:

- **quizPlayerId** - What is the player ID (uiConf ID) of the player that plays quizzes? The default **playerId** is used if left empty.
- **playerBarHeightPixels** - The height (in pixels) of the player ui which is not part of the actual video (for example - the bottom bar). Leave blank to use the default player value.
- **playerVideoRatioPercent** - The ratio (in percent) of the video inside the player. Standard values: 16:9 = 56.25 , 4:3 = 75 , 16:10 = 62.5. Leave blank to use the default player value.
- **BSEPlayerId** - What is the player ID (uiConf ID) of the player that used to play quizzes in embedded content (BSE Browse Search and Embed)? The Uiconf should have the infoScreen plugin enabled.
- **enableQuestionsV2** - Set to Yes to allow quiz creators the use the new question types. To use this feature the quiz player should be set to Kaltura version 2.68.3 player or higher.
- **enableQuestionsV3** - Set to Yes to allow quiz creators to use Open Question type and Multiple Attempts. To use this feature, the quiz player version should be 2.75 or higher.

 Open questions have a limit of 400 characters for the question and 250 for the answer.

- **allowedRolesQuiz** - Who can create a quiz? if a role is selected, any role above it will also be able to create a quiz.

- **preventForwardSeeks** - This feature is disabled by default.

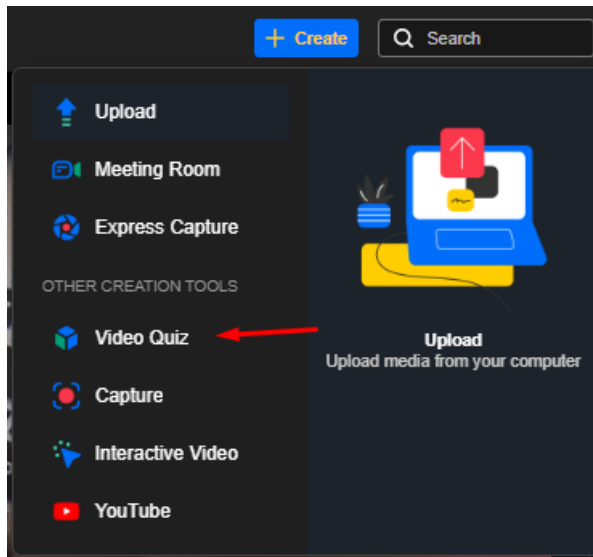

NOTE: The **preventForwardSeeks** can't be restored once enabled.

Once enabled, you will not be able to turn off this feature. The 'No seeking forward' setting will be added to the Video Editor, giving the quiz creators the option of whether to restrict viewers from seeking forward in the quiz or not.

Verify VQ is enabled

1. Login to your KMS or KAF instance.
2. Click **+ Create** to see the list of options for adding media.
Video Quiz is displayed as an option.

Tips

✓ **Video quiz analytics** - Quiz creators can view the quiz analytics and the users that have submitted them. Make sure to enable [Userreports module](#) to view Video Quiz analytics!

✓ **The video quiz session time** is set in the sessionLifetime parameter configured globally in the [Auth](#) module on the KMS/KAF admin page. (This is the same session time for any action in Kaltura applications).

sessionLifetime	<input type="text" value="43200"/>
How long (in seconds) can a MediaSpace user session last? If set value is lower than the minimum of 3600 seconds (1h), the minimum will be utilized.
