About

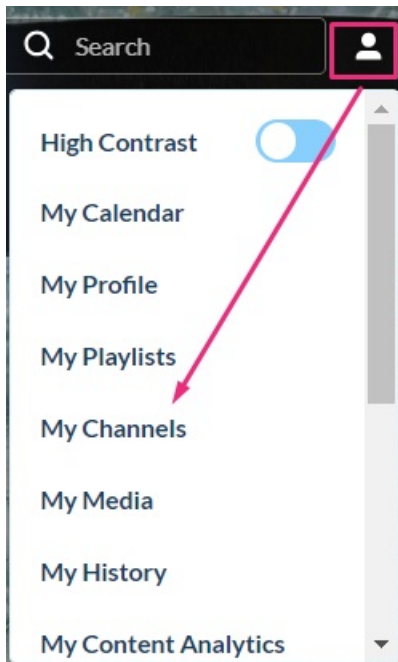

Channel Collections are a great way to group together related content. You can create a collection of anything you want - Marketing videos, product videos, or even just a collection of favorites. The collections are configured by your administrator using the [Channelcollections module](#), and once created, channel owners can associate their channels with those collections.

Watch the video for quick and easy instructions or follow the steps in the guide below.

 The following instructions depend on having the [Theming module](#) enabled.

Access the edit page

1. From the user menu, select **My Channels**.

2. The **My Channels** page displays.

3. On the My Channels page, locate the channel you want to add to a collection and click on its pencil icon.

You can also click on its thumbnail and from the Actions menu, choose **Configure**. The **Edit** page displays.

The Collections page displays. This page shows the channel collections that were created by your administrator.

2. Choose the collection you'd like to associate the channel with.
Next are filtering options. These were also created by your administrator.
3. Choose the relevant options for your channel collection.

The Channels Collection page **Design news** allows to filter by **Style**. Select a value for this channel:

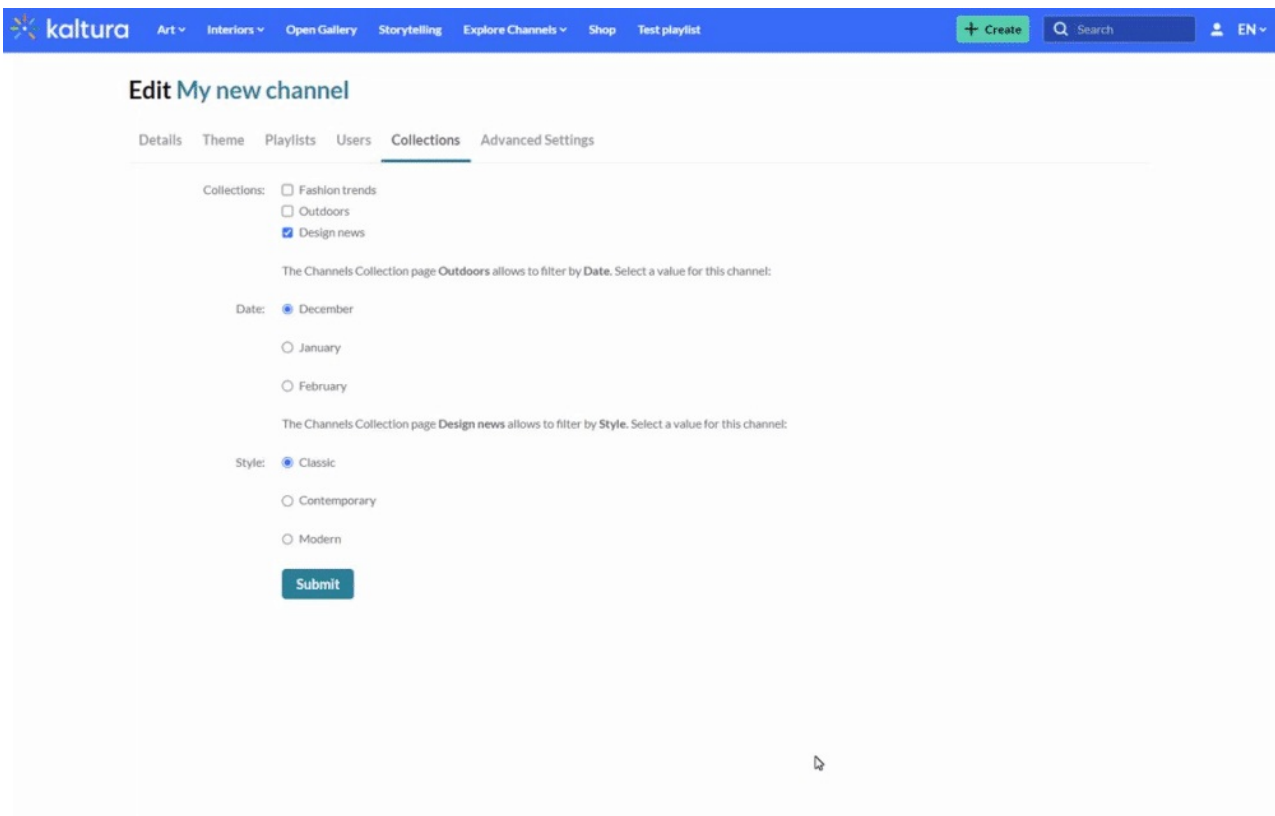

- Style: Classic
- Contemporary
- Modern

4. Click **Submit**.

 In order for the channel collection to display in the navigation menu, you must configure it in the [navigation](#) module.
