About

Administrators can create the main (parent) galleries in the Video Portal via the Management Console (KMC), and the sub-galleries from either the KMC or Video Portal. Once the galleries and sub-galleries are created, they can be edited and managed directly via the Video Portal. As an administrator, you can assign gallery managers to assist with creating sub-galleries and managing the gallery settings. To learn more about galleries, visit our article [Understanding galleries](#).

 Galleries are also known as 'categories'.

Create a gallery via KMC

1. Log into your KMC account and select **Content** from the header.

2. Select the **Categories** tab.

3. Click **Add Category**.

4. The **New Category** window displays.

Reorder sub-galleries

By default, galleries appear in the order they were created, with the most recent ones appearing last. Administrators can change this order via the KMC.

1. Log into your KMC and select the **Categories** tab.

The categories page displays.

2. Find the category in the list and click on the three dots to the right of it to open the drop-down menu.
3. Click **Edit**.
