

# Create a gallery in Video Portal

Last Modified on 08/05/2025 11:04 am IDT

A This article is designated for administrators.

## About

Administrators create <u>galleries</u> in their video portal via the Kaltura Management Console (KMC), and sub-galleries from either the KMC or Video Portal. Once the galleries and sub-galleries are created, they can be edited and managed directly via the Video Portal.

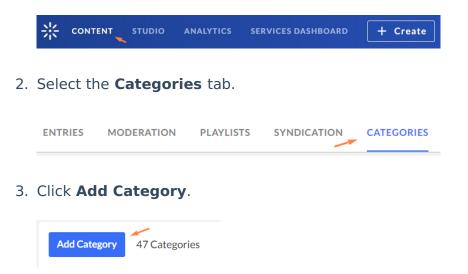

As an administrator, you can assign <u>gallery managers</u> to assist with creating subgalleries and managing the gallery settings. To learn more about galleries, visit our article Introduction to galleries.

Once you've created a gallery, learn how to add videos and other media to it in our article Add media to a gallery.

## Create a gallery via KMC

1. Log into your KMC account and select **Content** from the header.

4. The **New Category** window displays.

	New Category
