

Media tab - Manage media for your event

Last Modified on 07/21/2025 4:51 pm IDT

 This article is designated for all users.

About

The Media page allows you to:

- Upload media to the event site
- View media on the event site
- Create with AI
- Publish media to your video portal
- Download, delete, or edit media
- Copy the media link to share with others

Navigate to the Media page

From the Event page, click the Media tab.

Upload media to the event site

- On the Media page, click on the **Upload Media** button to upload media to your event site. If no media exists, you may also click the **+ Upload Media** button in the main body of the page.

[Upload media](#)

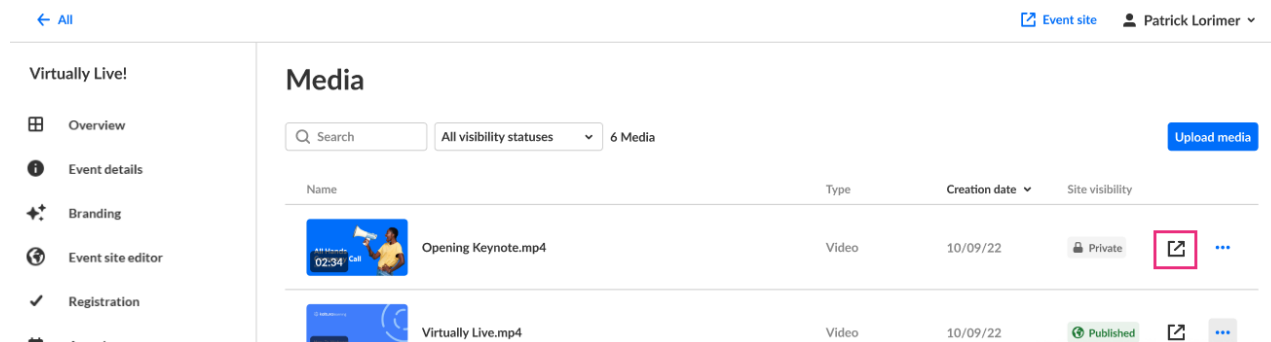

- Locate and choose a media to upload.

All media is uploaded as "Private", meaning it is not discoverable/accessible by attendees and available only for team members. See the following section titled Edit Media for instructions on changing a media's visibility.

View media on the event site

You may click the redirect icon to the right of a media to navigate directly to your event site to view the media.

Media Publishing Capabilities

You may publish media to your Kaltura video portal(s) per channel and unpublish media from your Kaltura video portal(s) per channel.

Prerequisites and notes:

- Video portal(s) must be preconfigured by Kaltura.
- Video portal publishing entitlements apply.
- It may take up to 10 minutes for media to appear in a channel on the Kaltura video portal(s) after publishing.

There are two ways to reach media publishing capabilities - on the Media page, click the three dots and select the appropriate action, or on the Edit Media page, click the three dots and select the appropriate action.

Menu items that display depend on the published state of the media. If the media is not published, the menu item is "Publish on Video portal". If the media is published, the menu item is "Change Video portal settings".

Media page example:

Edit Media page example:

Regardless of if you chose Publish on Video portal or Change Video portal settings, the Publish on your Kaltura video portal screen displays. This screen lists all the Kaltura video portals to which you have access.

In our example above, the user has access to multiple Kaltura video portals.

Click on the appropriate video portal. The Publish on [video portal name] screen displays. This screen lists all the channels to which you have access in this Kaltura video portal.

If you have access to only one Kaltura video portal, you are taken directly to the Publish on [video portal name] screen.

If you do not have access to any Kaltura video portals, you are taken to a screen which allows you to check out Kaltura's video portal and explore its main features and functions.

In our example above, the user has access to multiple channels in this Kaltura video portal.

To publish media, click the **Publish** button next to the appropriate channels. You may search for a channel's name or description on this screen as well.

If no channels exist in this Kaltura video portal, you receive a message instructing you to create a channel in this Kaltura video portal before proceeding.

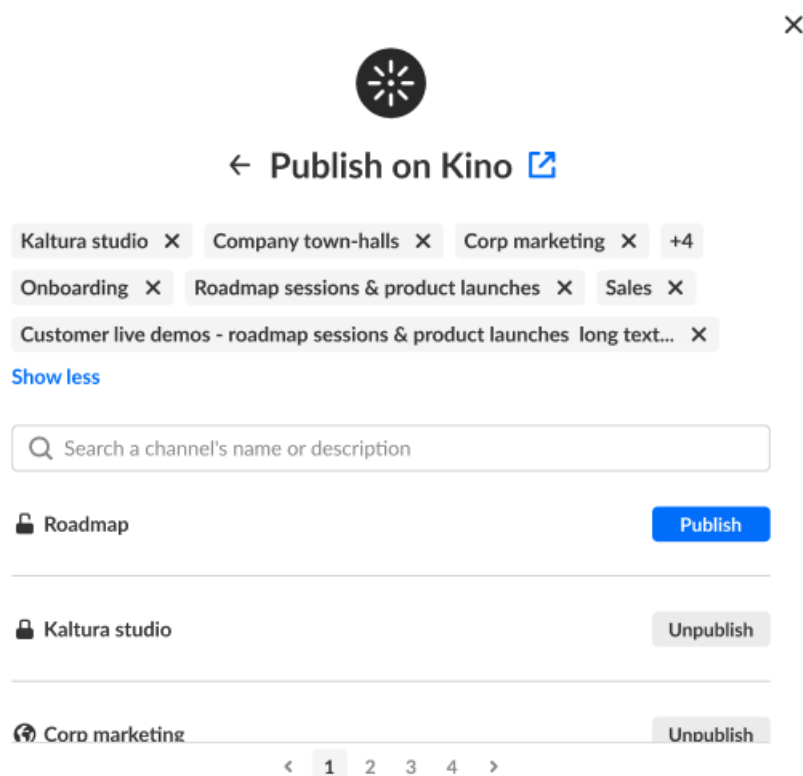

A note on publishing entitlements:

- **Restricted** - all logged in users can view content and only channel members can contribute content.
- **Public, restricted** - anyone can view content (including anonymous, not logged-in users), only channel members can contribute content according to their publishing entitlements.
- **Shared Repository** - only channel members can view and contribute content; content may be published to other channels, according to publishing entitlements.
- **Private** - only channel members can view and contribute content.
- **Open** - all logged in users can view and contribute content (contribution is not allowed for viewer-role users).

- **Public, open** - anyone can view content (including anonymous, not logged-in users) and all logged in users can contribute content.

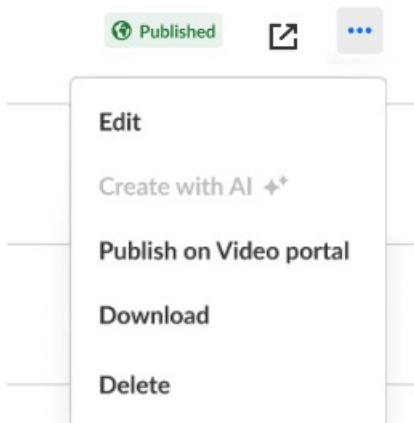

As you click **Publish**, the channel(s) which this media is published display in a list directly below the name of the Kaltura video portal.

To unpublish media from a channel, click the "X" next to the channel name in the list directly below the name of the Kaltura video portal, or click the **Unpublish** button to the right of the channel name.

Download or delete media

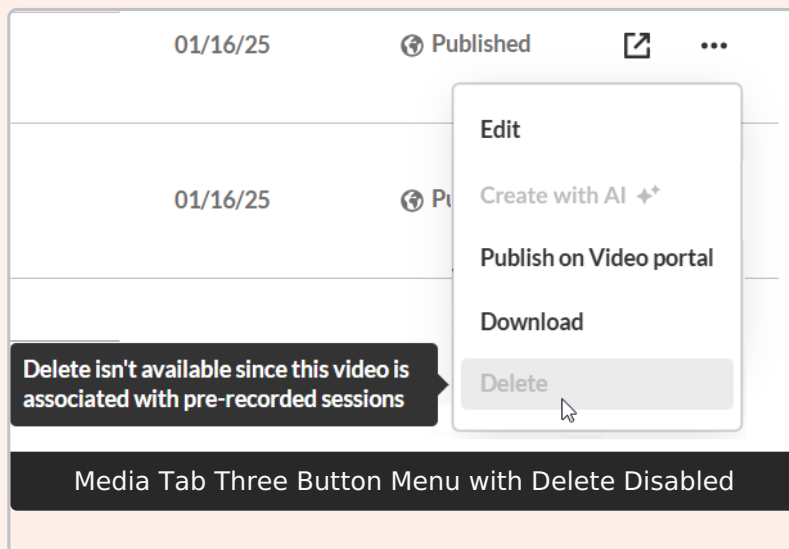

You may download media to your computer or delete media that has been uploaded to the site. Click the three blue dots and select the appropriate action.

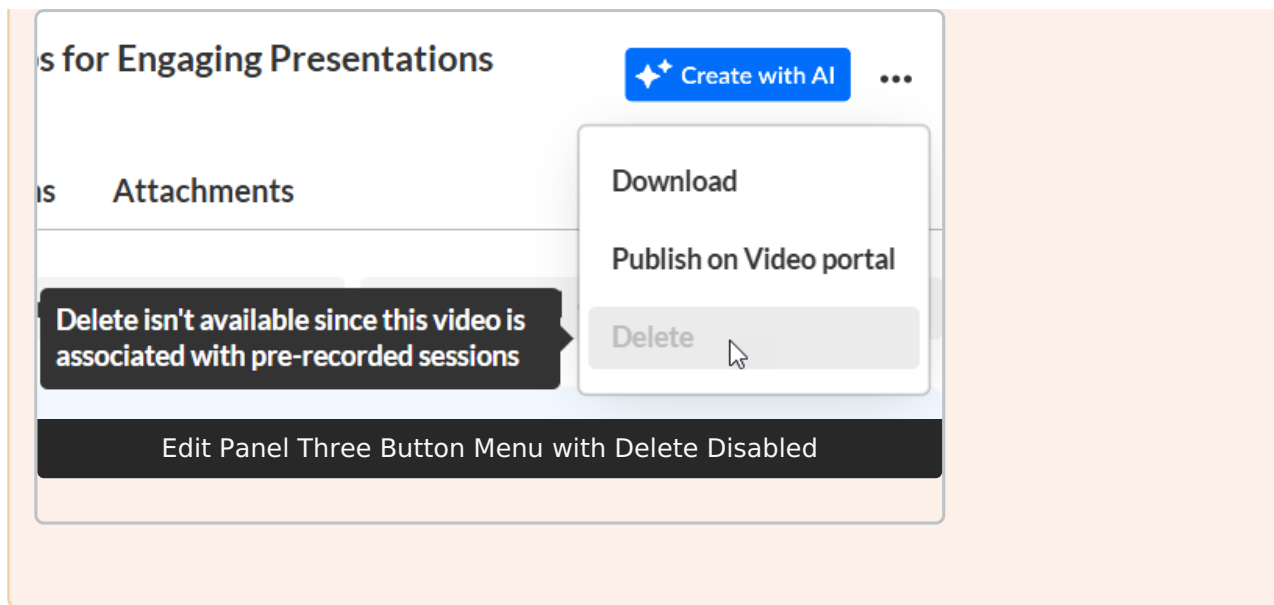

When deleting media, you will be asked to confirm your action.

A media that is associated with a pre-recorded session cannot be deleted (i.e., the delete menu option is disabled); you must replace the source before deleting the media.

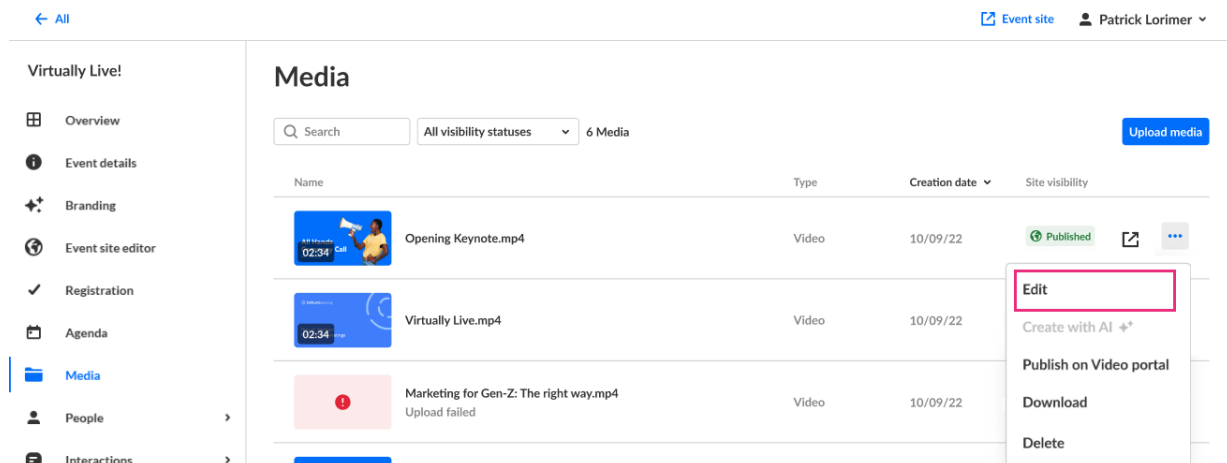

Edit media

There are two ways to reach media editing capabilities:

- On the Media page, click on the media you would like to edit
- On the Media page click the three blue dots to the right of the media you would like to edit and choose **Edit**.

The Edit panel displays with the Basics tab open by default.

Basics tab

Create with AI button - Enrich and repurpose your content into engaging, snackable experiences with Kaltura's AI-powered post-production assistant. Click to access [Content Lab](#) functionality. This button will be active and enabled only on applicable media. See [Create highlight clips with AI](#), [Create a summary and chapters with AI](#), and [Enrich metadata with AI](#) for more information.

Visit media page - View media on the event site.

Copy media link - Copy the media link to share with others.

The editable fields in the Basics tab are as follows:

Thumbnail - If you wish to insert a different thumbnail, click **Replace Thumbnail** and choose the desired file. We recommend 1920x1080 px.

Title - A title for your media (char limit is 120).

Description - A description of your media.

Visibility - Choose visibility of the media.

Private - This video will be available only for team members, not for attendees.

Unlisted - This video will be reachable via direct link only.

Published - This video will be available on the event site as part of the VOD gallery.

If you attempt to publish a media that is associated with a pre-recorded session, a pop-up message similar to the following displays.

Publish to event site

This video is associated with the following pre-recorded sessions: **Opening Keynote, Demystifying Marketing.**

In addition to being available in the pre-recorded sessions, this video will also be available in the event site's Media Gallery

Cancel

Publish

Video sources should remain "Private", otherwise, your attendees will see the video on the event site VOD gallery. Following is an example of an event site. In the example below, two media have been set to "Published" and display on the VOD gallery at the bottom of the page.

Captions tab

To order captions

1. Click on the **Captions** tab.
2. Under Order captions, click **Order**. The Order captions screen displays.

✕

Order captions

We support SRT, DFXP, CAP, SCC and WEBVTT file types

Language

Select
▼

Add caption

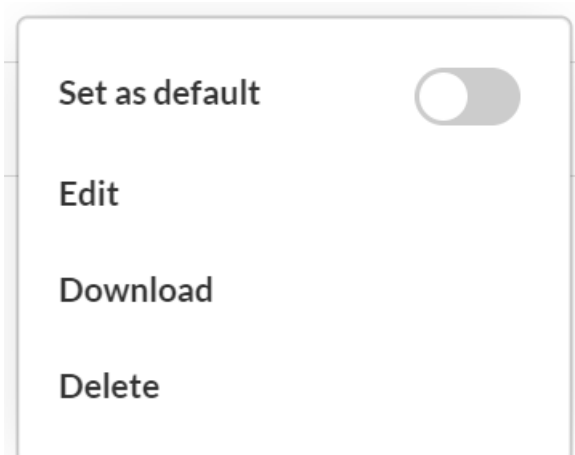

3. Click **Upload** to choose the desired captions file from your computer, select the language, then click **Add captions**. As you add captions, they display on the Captions tab under Upload captions.

Please note - You may upload only one file per language.

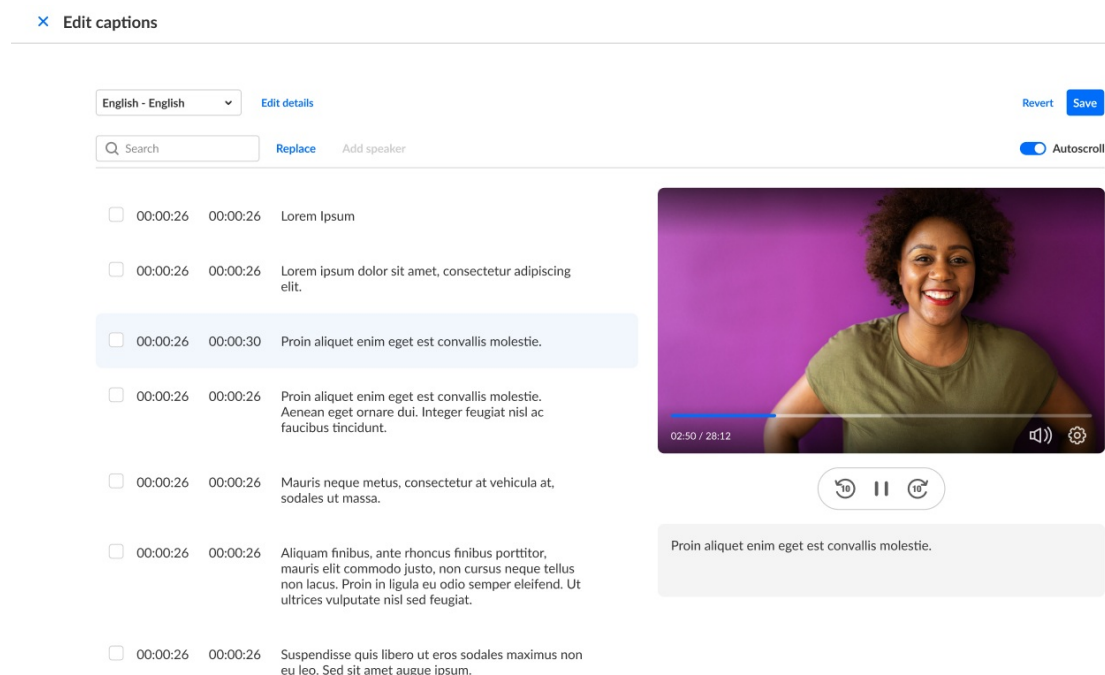

To set as default, edit, download, and delete captions

1. Click on the **Captions** tab.
2. Click the three blue dots to the right of each caption file for additional functionality.

- Choose **Set as default** to set the caption file as the default.
- Choose **Edit** to edit the caption file.

The Edit Captions page displays. See [Editing Captions](#) for more information.

- Choose **Download** to download the captions file to your machine.
- Choose **Delete** to delete the caption file.

Adding/removing captions from a video source will affect *all* sessions with which it is associated. Following is an example of a pop-up message that displays when attempting to delete a caption file from a video source.

Delete caption file

This video is associated with the following pre-recorded sessions: Opening Keynote, Demystifying Marketing.

You are about to delete the caption file "English.SRT".
It will affect all attached sessions, rooms and published media. Are you sure?

Save changes

- Type the title and description (optional). The title should be a more descriptive name for this file. The description should provide context on the file's content. Both will be visible to your attendees.
- Click **Save changes**.

Download attachments from your media

1. Click on the **Attachments** tab.

The screenshot shows the Kaltura interface for a video titled "SampleVideo_1280x720_1mb.mp4". Below the video title, there are tabs for "Basics", "Captions", and "Attachments", with "Attachments" being the active tab. Below the tabs, there is a section titled "Attach downloadable content to the session." with an "Upload" button. Below this, there is a table with two columns: "File name" and "Creation date". The table contains two rows of attachments: "Name.mov" and "Roadmap.doc", both with a creation date of "10/10/24". Each row has a three-dot menu icon to its right.
