

Video Portal gap analysis moving to Theming design system

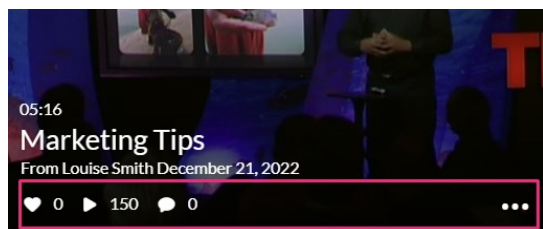

Last Modified on 11/15/2025 7:43 pm IST

The Theming feature set is currently in a limited features release mode. The following features are not available on the Theming-based pages at the moment:

- **Channels:**

- Remove media from a channel
- Channel theme tab features such as carousel, etc
- Channel tags on the header
- Channel topics
- Action buttons (for example, edit and analytics) and media details (for example, entry owner and number of likes) that appear on the media thumbnail (as shown below).

- **Media page:**

- "Add to" functions (except for **Add to Playlist**, and the functions under the **+Create** menu, which is Theming-based)
- Option to add collaborators (co-editors, co-publishers, and co-viewers) in the upload media page
- Comments
- Display tab (configured in the EntryDesign module) that controls hiding/showing elements and customizing the media page layout

- **My Media:**

- Some actions in the three-dot menu - Add to Playlist, Captions

- Bulk actions: Reach captions & enrich, Set metadata, and Add / Remove tags
- The option to switch to 'table' or 'collapsed' view (currently only 'detailed' view is available)
- **Registration form for single entries**
