

Video portal gap analysis moving to Theming design system

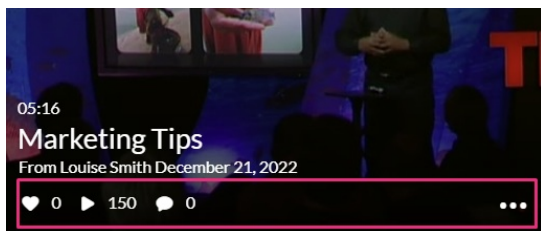

Last Modified on 09/16/2024 10:40 am IDT

The Theming feature set is currently in a limited features release mode. The following features are not available on the Theming-based pages at the moment:

- **Channels:**

- Channel moderation
- Search in channel
- Add media to a channel
- Remove media from a channel
- Channel theme feature tab (note that a different feature set is available)
- Channel tags on the header
- Channel topics
- Action buttons (for example, edit and analytics) and media details (for example, entry owner and number of likes) that appear on the media thumbnail (as shown below).

- **Media page:**

- "Add to" functions (except for the main media upload function under the **+Create** button which is Theming-based)
- Option to add collaborators (co-editors, co-publishers, and co-viewers) in the upload media form
- Comments
- Display function which enables the removal of elements on the page

- **My Media:**

- Some actions in the three dots menu - Publish, Add to Playlist, Captions
- Bulk actions: Publish, Reach captions & enrich, Set metadata, and Add / Remove tags

- **Registration form**
