Player accessibility

Last Modified on 05/23/2024 5:26 pm IDT

Kaltura Player V7 is designed for accessibility. It fully supports keyboard navigation, designed to work with common screen readers and was tested to work on modern web browsers and assistive technology, including the JAWS ® from Freedom Scientific, NVDA screen reader from NV Access (on Windows), and VoiceOver from Apple (on Mac).

The Kaltura player VPAT report covers the degree of conformance with Web Content Accessibility Guidelines 2.0 and Web Content Accessibility Guidelines 2.1 and can be downloaded from here.

To navigate and operate kaltura player using your keyboard use the following keys:
