My Content Analytics in Content Hubs

Last Modified on 04/19/2026 2:58 pm IDT

👥 **This article is designated for all users.**

About

Want to know how your videos are performing? **My Content Analytics** lets you see how viewers engage with the videos you've created.

The My Content Analytics dashboard shows detailed engagement data for each video, helping you understand what's working and where you can improve. You can explore activity over different time periods, compare performance, and apply filters to focus on what matters most.

My Content Analytics includes only content you own, so the insights are always relevant to you.
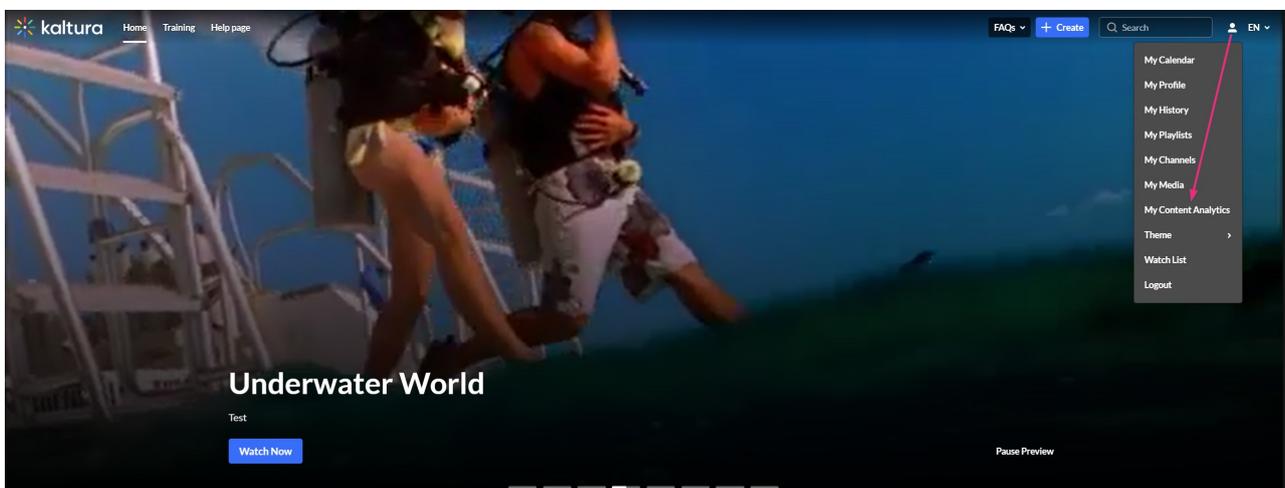

✅ For administrators, visit our article Configure My Content Analytics.
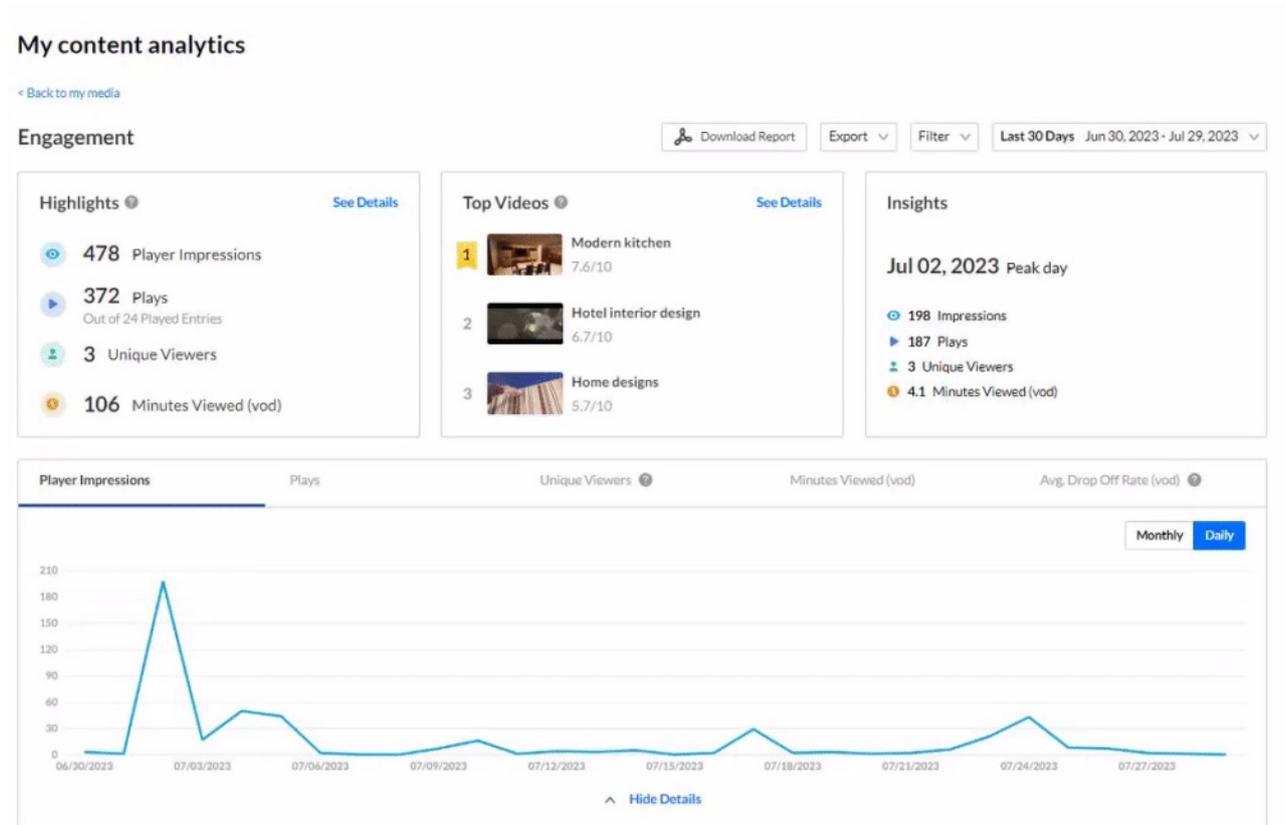

Access My Content Analytics

Select **My Content Analytics** from the user menu.

ℹ️ If you don't see the **My Content Analytics** option, contact your administrator to enable it in the Headermenu module.
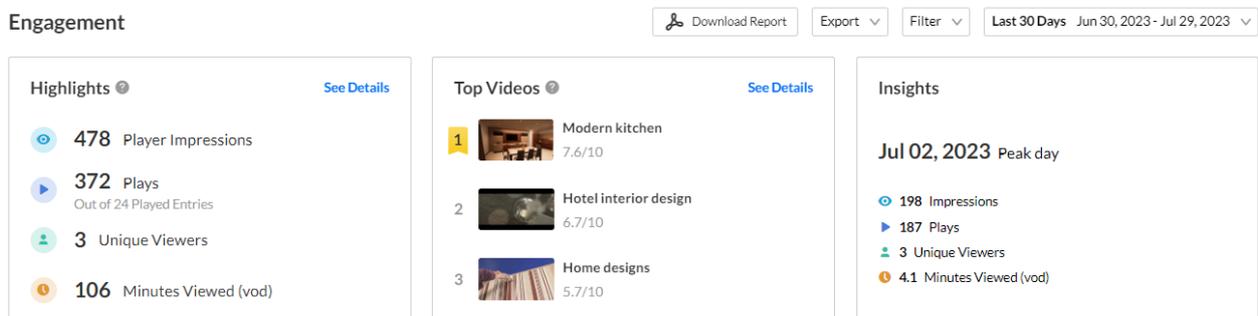

The 'My Analytics' page displays.

Engagement dashboard

The top panel of the Engagement dashboard provides an overview with **Highlights**, **Top Videos** and **Insights**.

✅ As a reference for analytics terms and definitions, please see the Kaltura Analytics Terminology article.

Highlights

Displays a snapshot of the important metrics for the selected timeframe. For each user

![Kaltura logo]

you will see:

- **Player impressions** - How many times the video was loaded on the page, regardless of whether the user clicked Play or not.
- **Plays** - Number of times the Play button was pressed.
- **Unique viewers** - Number of unique users that had an active viewing action during the time period. Note that Player Impressions are not counted as a viewing action.
- **Minutes viewed (VOD)** - Minutes played across all viewers.
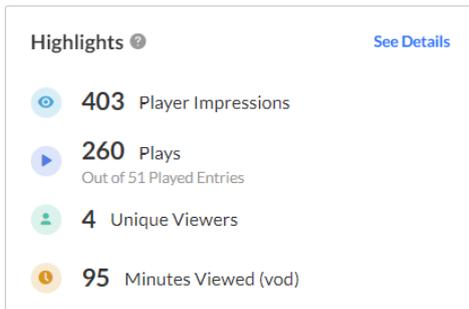

You can also filter by specific metrics, using the **Filter** field on the top right.

> ℹ️
> For more information, see Working with the My Content analytics dashboard.

Top Videos

The top videos are selected based on a unique algorithm that takes into consideration parameters such as the amount of plays, unique viewers, and average view period and scores them in comparison to other videos in the account.
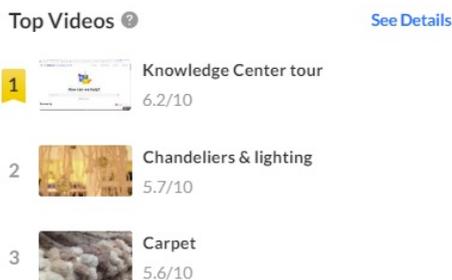

By clicking on **See Details** in the **Top Videos** section you can see an in-depth analysis of all the content that was viewed.

Insights

Displays a snapshot of the important metrics for the day. For each user you will see:

- **Impressions** - How many times the video was loaded on the page, regardless of whether the user clicked play or not.
- **Plays** - A play is counted when a user clicks the Play button to watch a video. If the player is set to auto-play, a play event will be counted when the player begins to play the video.
- **Unique viewers** - Number of unique users that had an active viewing action during the time period. Note that Player Impressions are not counted as a viewing action.
- **Minutes viewed (VOD)** - Total number of playback minutes played by the viewers, based on quartile milestones. Example: If a user watched 4 minutes from a 10-minute video it will be calculated as 2.5 minutes (25% milestone).

Insights

Jun 09, 2023 Peak day

- 👁 101 Impressions
- ▶ 92 Plays
- 👤 3 Unique Viewers
- 🕐 3.4 Minutes Viewed (vod)

Details

Click **See Details** in the Highlights or Top Videos panel to jump to the screen below the dashboard showing engagement activity.

For each entry you will see:

- **Player Impressions** - A player impression event is counted each time the player is loaded on the page.
- **Plays** - A play is counted when a user clicks the Play button to watch a video. If the

player is set to auto-play, a play event will be counted when the player begins to play the video.

- **Minutes viewed (VOD)** - Total number of playback minutes played by the viewers, based on quartile milestones. Example: If a user watched 4 minutes from a 10-minute video it will be calculated as 2.5 minutes (25% milestone).
- **Unique Viewers** - Number of unique users that had an active viewing action during the time period. Note that Player Impressions are not counted as a viewing action.
- **Avg. Drop Off Rate (VOD)** - The average percentage of drop-off quartile (last quartile watched), across all plays. Example: If a user once watched 20% of the video and the second time watched 80% of the video, the calculation will be: (0+75)/2 plays = 37.5% Avg. Drop Off Rate. 20% is calculated as 0 since the user didn't reach the 25% milestone and 80% is calculated as 75% as the user passed the 3rd quartile milestone.

You can view the data for each metric in daily or monthly granularity.

Hover over any point in the graph to see the detailed data (as demonstrated below).
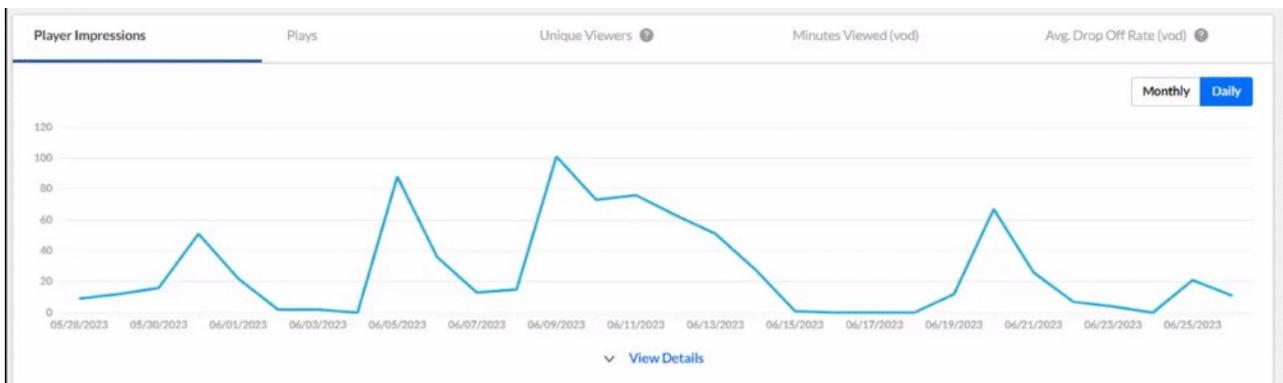

To change the time period or filter the data, use the date picker and filter panel at the top of the dashboard.

You can also compare data from different time periods. For more information, see My Analytics dashboard.

Click **View Details** to expand the screen:

Dates

You can view the data for each metric in daily or monthly granularity. Hover over any point in the graph to see the detailed data. You can also compare to another metric by selecting another metric from the drop down list.
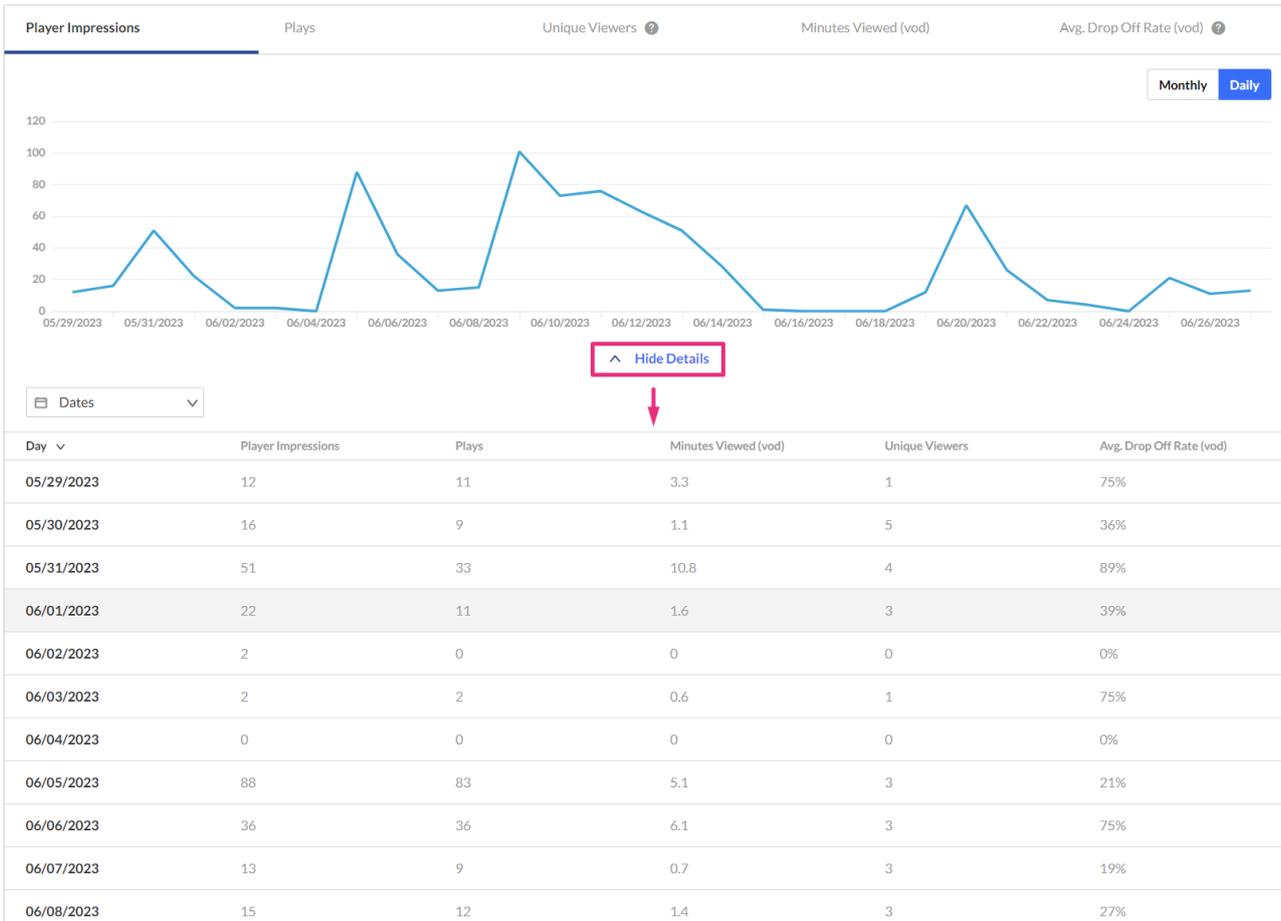

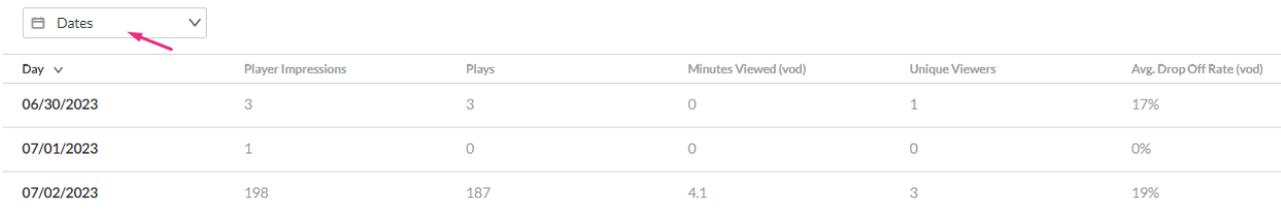

To change the time period or filter the data, use the date picker and filter panel at the top of the dashboard. You can also compare data from different time periods.

🗓 Dates ∨					
Day ∨	Player Impressions	Plays	Minutes Viewed (vod)	Unique Viewers	Avg. Drop Off Rate (vod)
06/30/2023	3	3	0	1	17%
07/01/2023	1	0	0	0	0%
07/02/2023	198	187	4.1	3	19%

Users

Select **Users** from the drop down menu. A list of users and their metrics is displayed.

Name	Plays ⌄	Minutes Viewed	Avg. Drop Off Rate
Louise	291	67.3	33%
Unknown	55	38.6	36%
Tal Binder	26	0.1	6%

Entries

Select **Entries** to view entry analytics. Look for specific entries using the filter option.

Name	Plays ⌄	Minutes Viewed	Unique Viewers	Avg. Drop Off Rate
Modern kitchen	54	0.5	3	2%
Hotel interior design	45	0	3	0%

Clicking an entry will open the entry analytics dashboard where you can see how your users engage with a specific entry, where they watched it from and with what devices, so you can track and optimize your content. See our Entry analytics article for more information.

| Name	Plays ⌄	Minutes Viewed	Unique Viewers	Avg. Drop Off Rate
Modern kitchen	54	0.5	3	2%
Hotel interior design	45	0	3	0%
Innovative designs	43	4.1	1	32%
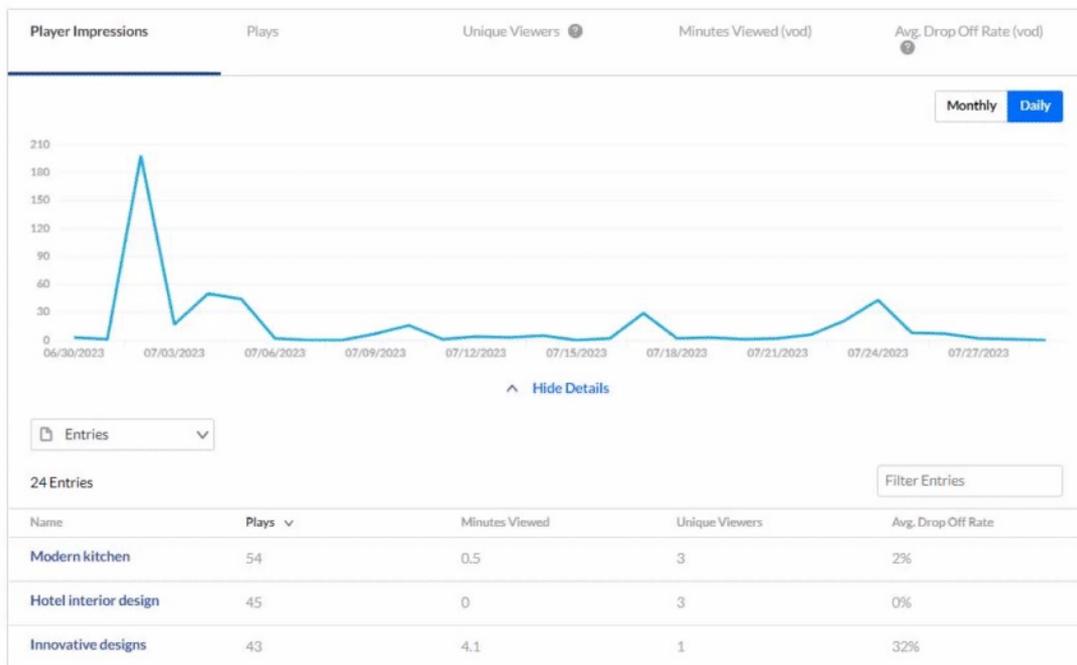

Playback Context

Playback Context refers to the place where an entry was watched, for example, from a specific channel or category. However, media might also be watched from different locations, such as shared links or embed codes. In such cases, since it was not viewed

within the context of the channel or category, the Playback Context will be labeled as 'unknown'.

You can look for specific entries using the filter function. You can hover over the entry name to see details about the category, owner and ID.

| Name	Player Impressions ⌄	Plays	Minutes Viewed	Unique Viewers	Avg. Completion Rate	Avg. Drop Off Rate
Soft furnishing design	3	3	0.3	1	100%	100%

MediaSpace / site / channels / **Soft furnishing design**

Owner louise.szmoisz@kaltura.com
Category ID 303958382

Top Videos

The following information is displayed for each entry:

- **Plays** - Number of times the play button was pressed.
- **Unique Viewers** - Number of unique users that had an active viewing action during the time period. Note that Player Impressions are not counted as a viewing action.
- **Average completion rate (VOD)** - Average percentage of completion, across all plays.
- **Score** - The score is calculated by considering all three parameters - Plays, Unique Viewers and Avg. completion rate.
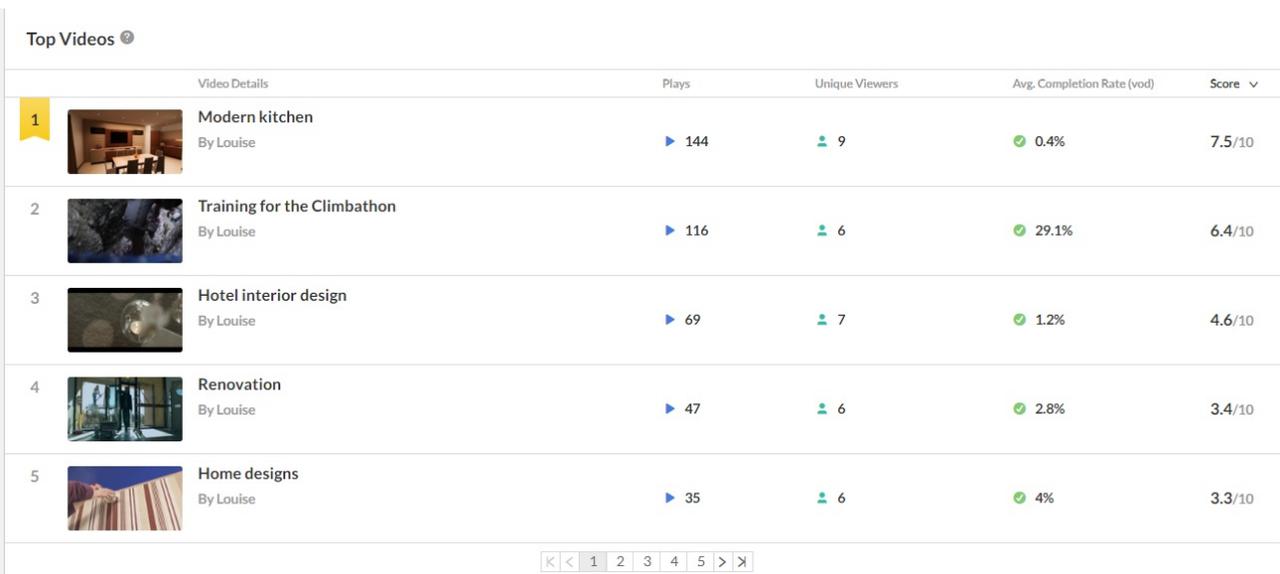

|	Video Details	Plays	Unique Viewers	Avg. Completion Rate (vod)	Score ⌄
1	Modern kitchen — By Louise	▶ 144	👤 9	✓ 0.4%	7.5/10
2	Training for the Climbathon — By Louise	▶ 116	👤 6	✓ 29.1%	6.4/10
3	Hotel interior design — By Louise	▶ 69	👤 7	✓ 1.2%	4.6/10
4	Renovation — By Louise	▶ 47	👤 6	✓ 2.8%	3.4/10
5	Home designs — By Louise	▶ 35	👤 6	✓ 4%	3.3/10

The details are displayed starting with the highest to the lowest. You can reverse the order by clicking on the arrow.

Note that deleted videos will still show up in the Analytics but without thumbnails. Here is an example of the Top Videos dashboard showing only a blank thumbnail:

Clicking on **See Details** will jump to the Top Videos List where you can see that this is a deleted entry.

Engagement Funnel

The engagement funnel shows the viewer journey, from discovery to viewing the entire video. The following metrics are shown in the funnel:

- **Player impressions** - A player impression event is counted each time the player is loaded on the page.
- **Plays** - A play is counted when a user clicks the Play button to watch a video. If the player is set to auto-play, a play event will be counted when the player begins to

play the video.

- **Impressions that resulted in <x%> percent play through (VOD)** - This can be selected by the user.

Top Domains

The top domains are arranged according to the highest number of plays in the selected time frame. For each domain the following metrics are available:

- **Player Impressions** - A player impression event is counted each time the player is loaded on the page.
- **Player Impression Ratio** - Number of plays divided by number of impressions.
- **Plays** - A play is counted when a user clicks the Play button to watch a video. If the player is set to auto-play, a play event will be counted when the player begins to play the video.
- **Plays Distribution** - Number of plays divided by the total number of plays in the selected timeframe.
- **Minutes viewed (VOD)** - Total number of playback minutes played by the viewers, based on quartile milestones. Example: If a user watched 4 minutes from a 10-minute video it will be calculated as 2.5 minutes (25% milestone).
- **Average Completion Rate (VOD)** - Average percentage of completion, across all plays. Example: If a user once watched 20% of the video and the second time watched 80% of the video, the calculation will be: (20+80)/2 plays = 50% Avg. Completion Rate.
