 This article is designated for all users.

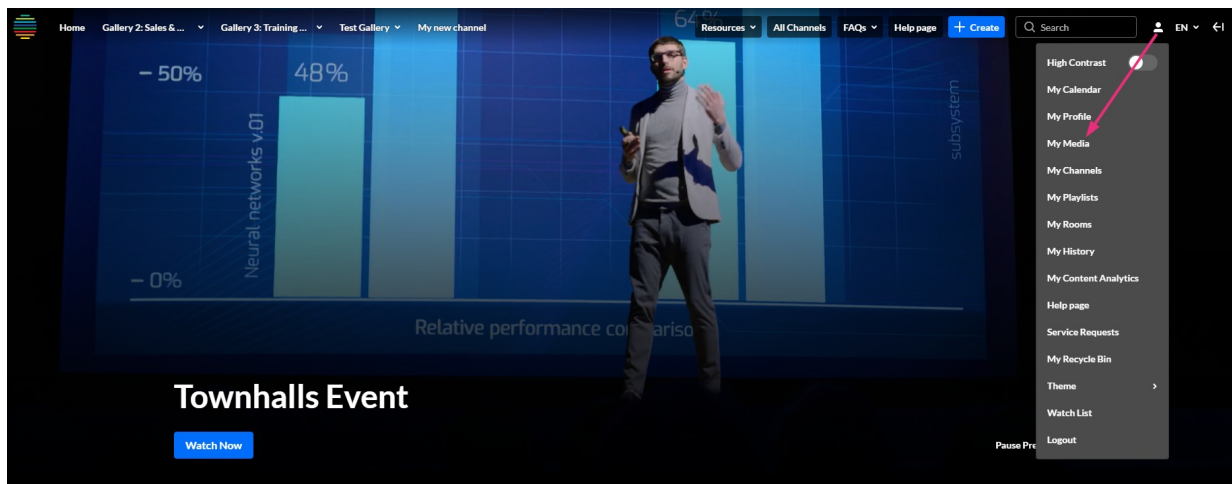

About

News images are an interactive component you can add to a homepage or any template page in Content Hubs.

This component displays a playlist of images with accompanying text. Users can select a news item to open the full article.

Prepare your news images

1. Select **My Media** from the user menu.

The 'My Media' page opens.

From Vision to Impact: A Conversation with Maya Cohen

Description

B *i* U    

Maya Cohen has spent the past decade helping organizations rethink how people connect, learn, and collaborate in digital environments. As a technology leader focused on innovation and user experience, she has led initiatives that improve communication, streamline workflows, and support more engaging online experiences.

In a recent conversation, Cohen shared her perspective on the evolving role of technology in the workplace. She emphasized the importance of designing solutions that are not only powerful, but intuitive and accessible for the people who use them every day. "Technology should remove friction, not create it," Cohen said. "The most effective solutions are the ones that help people do their best work more easily."

Cohen also discussed emerging trends, including the growing role of AI, the increasing demand for flexible collaboration tools, and the need for organizations to continue investing in digital skills. She noted that innovation often comes from listening closely to users and solving practical challenges in meaningful ways.

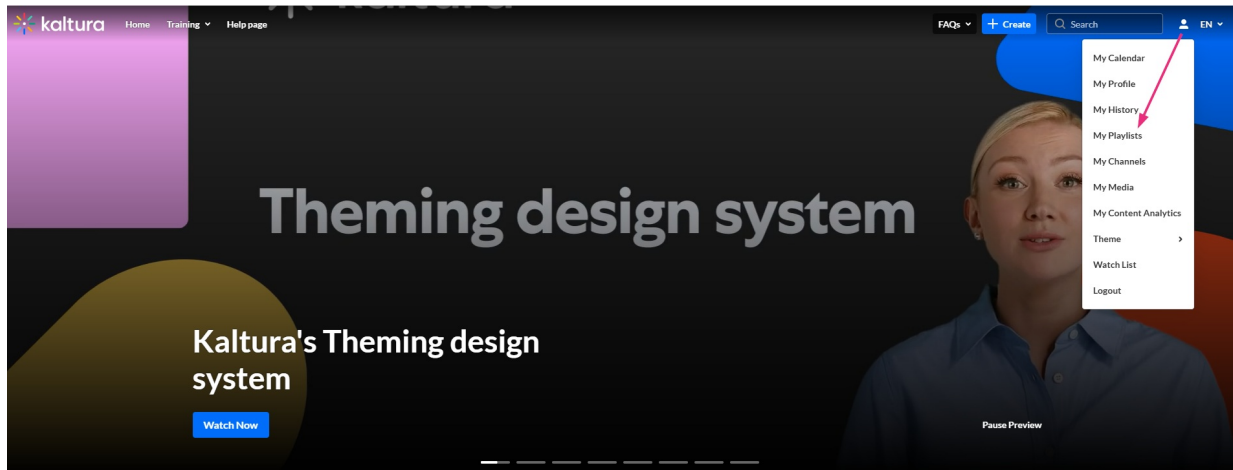

Looking ahead, Cohen remains focused on creating tools and experiences that support connection, productivity, and long-term impact. Her work continues to influence how teams collaborate and how organizations approach digital transformation.

Click through to read the full interview and learn more about Cohen's vision for the future.

Repeat for each News Item you want to create.

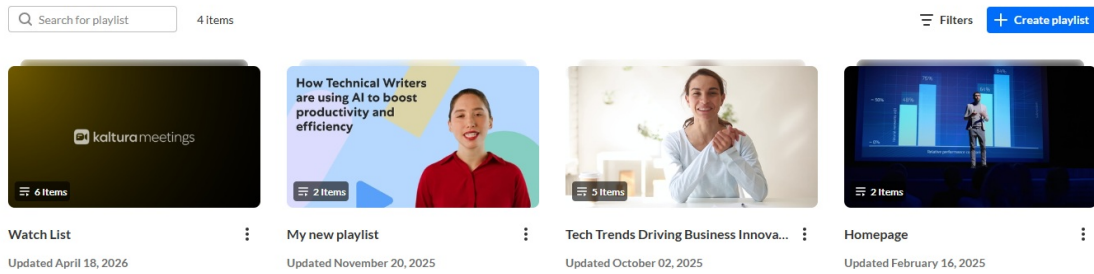

Create the playlist

1. Select **My Playlists** from the user menu.

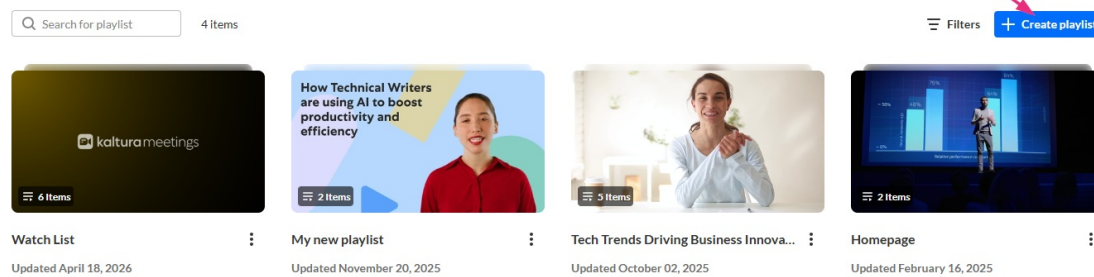

The **My Playlists** page displays.

My Playlists

2. Click **+ Create Playlist** at the far right.

My Playlists

The 'Create Playlist' window opens.

Create playlist
