

Add media to your Watch List in legacy Video Portal

Last Modified on 06/04/2026 9:15 am IDT

 This article is designated for all users.

About

While browsing the legacy Video Portal, you might come across videos or upcoming events you want to save for later. Kaltura's **Watch List** lets you add them to a pre-built playlist, so you can easily find and watch them whenever it's convenient.

 This feature requires the [WatchLater module](#) to be enabled.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Add media

While watching or browsing through videos, click the **ACTIONS** menu under the entry you want to save and choose **Add to Watch List**.
