 This article is designated for all users.

## About

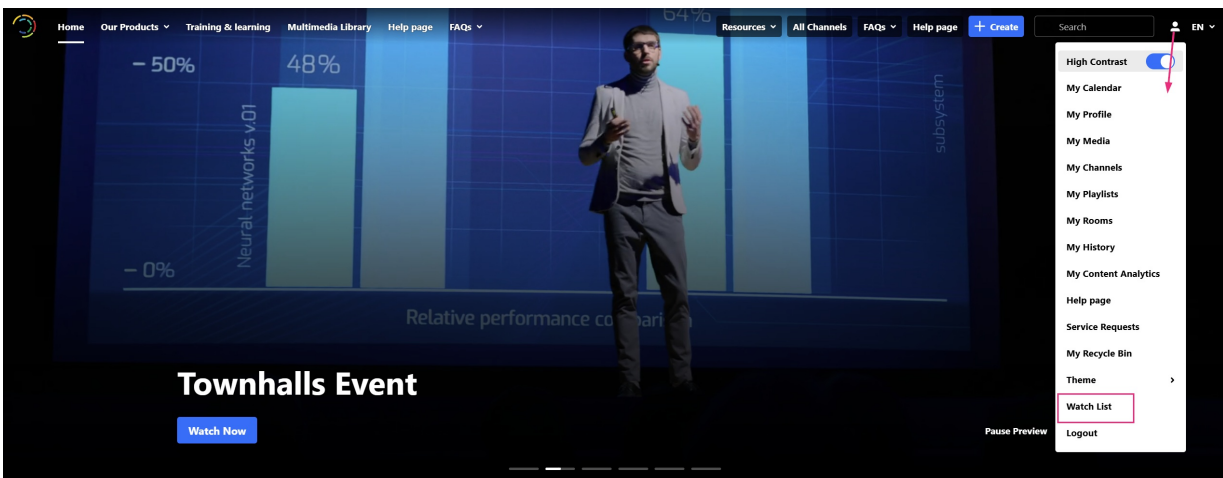

Kaltura's Watch List is a nice quick way to store videos for later consumption. When you have time to watch your saved videos, simply access your Watch List.

 This feature requires the [WatchLater module](#) to be enabled.

## Access the Watch List page

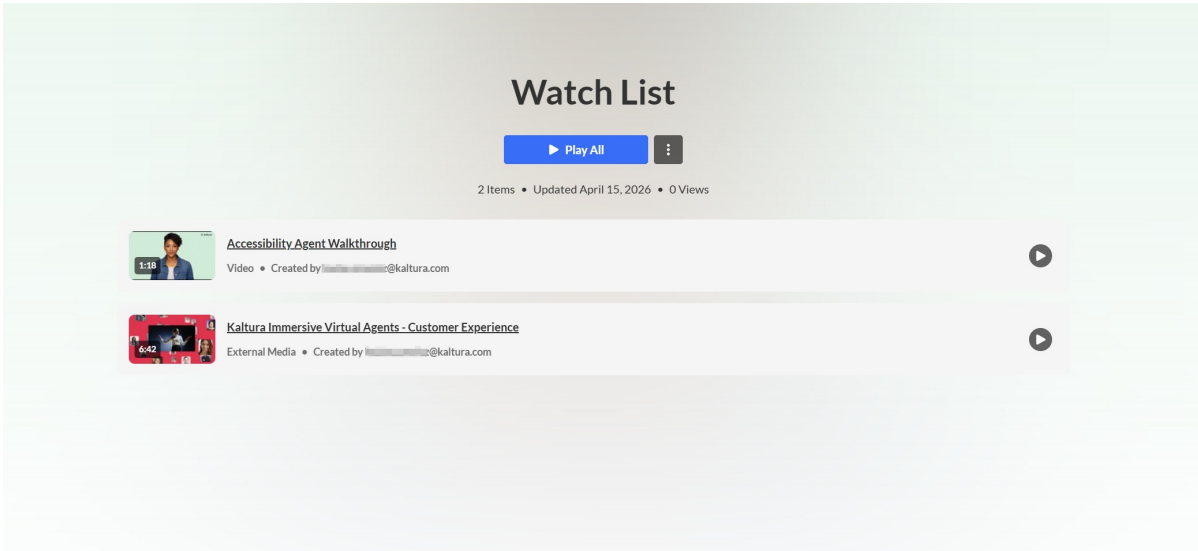

From the user menu

Select **Watch List** from the user menu.

 If you don't see the Watch List option, contact your administrator to enable it in the [WatchLater module](#).

The 'Watch List' page displays.

## From My Playlists

Select **My Playlists** from the user menu.

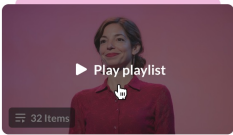

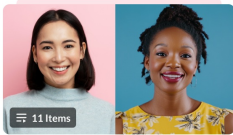

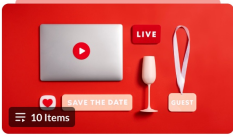

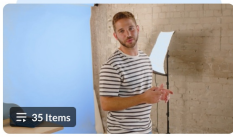

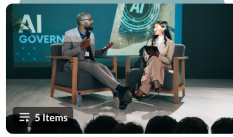

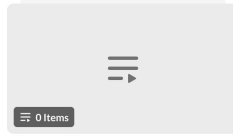

### Most popular videos

The **My Playlists** page displays.

## Watch videos

- Click the **play icon** next to a video to watch a specific item.
- Click **Play All** to start playing the list.

The player opens in playlist view, where you can see the current video and the upcoming items. In playlist view, you can see:

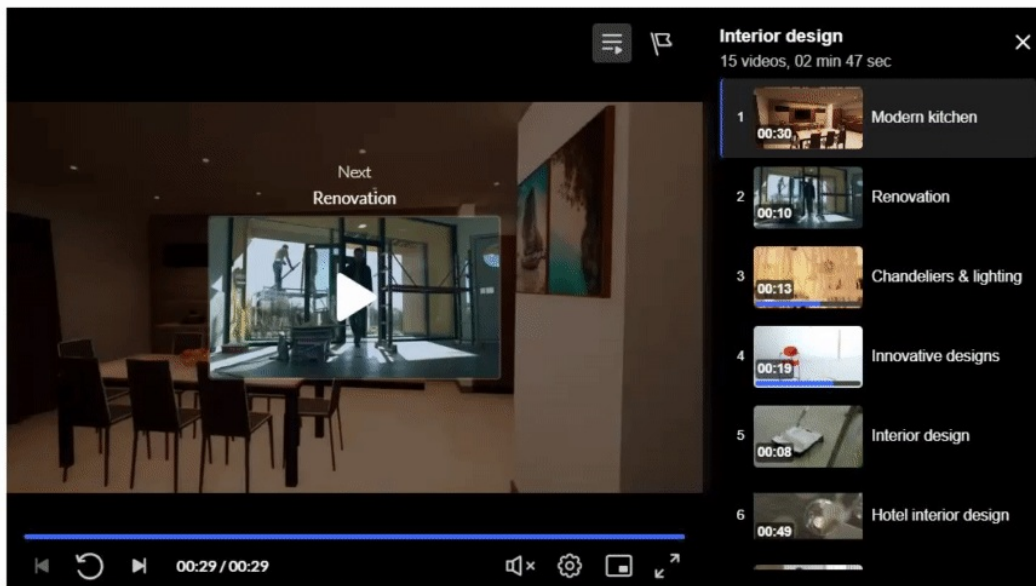

- The name of the currently playing video
- The number of videos in the list
- The total duration
- The upcoming media queue on the right

For more information about media entries, visit our article [Media page](#).

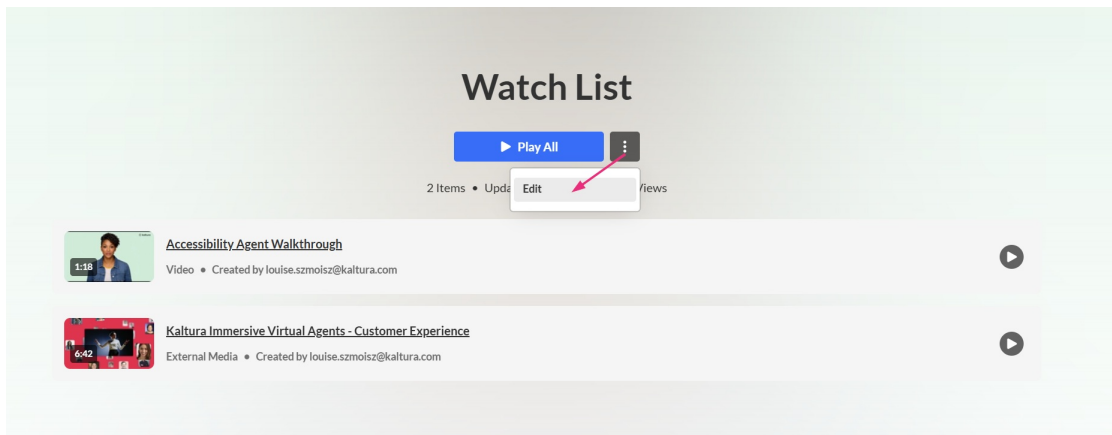

## Hide or show the playlist

- Click the icon at the top of the player to hide the upcoming media list.
- Click it again to show the list.

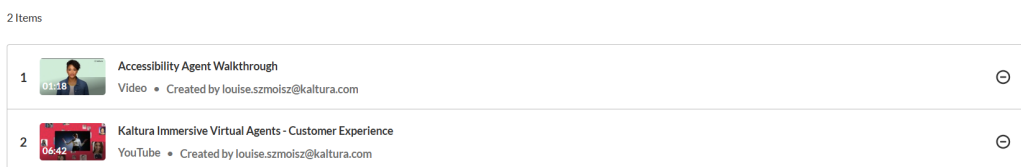

## Remove entries from the Watch List

1. Click the three dots at the top and select **Edit**.

The edit page opens.

2. Click the **remove icon** next to the item you want to delete.
