

Add presenters / speakers to media

Last Modified on 11/03/2024 2:55 pm IST

 This article is designated for all users.

About

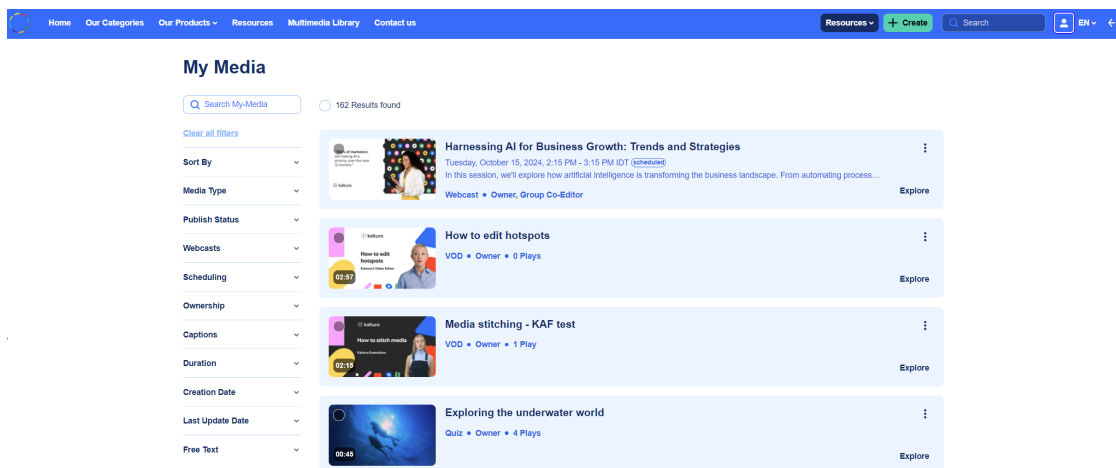

Adding presenters / speakers to your media lets you highlight speakers and make their names clickable links for viewers. By clicking a presenter's name, users can access their profile and see all the media they're involved in. It's an easy way to showcase presenters and organize content featuring them.

Access the Presenters tab

1. From the user menu, select **My Media**.

The My Media page displays.

Locate the desired media and click the three dots to the far right, then select **Edit**.
