

# Upload content to draft entry in legacy Video Portal

Last Modified on 06/04/2026 9:15 am IDT

 This article is designated for all users.

## About

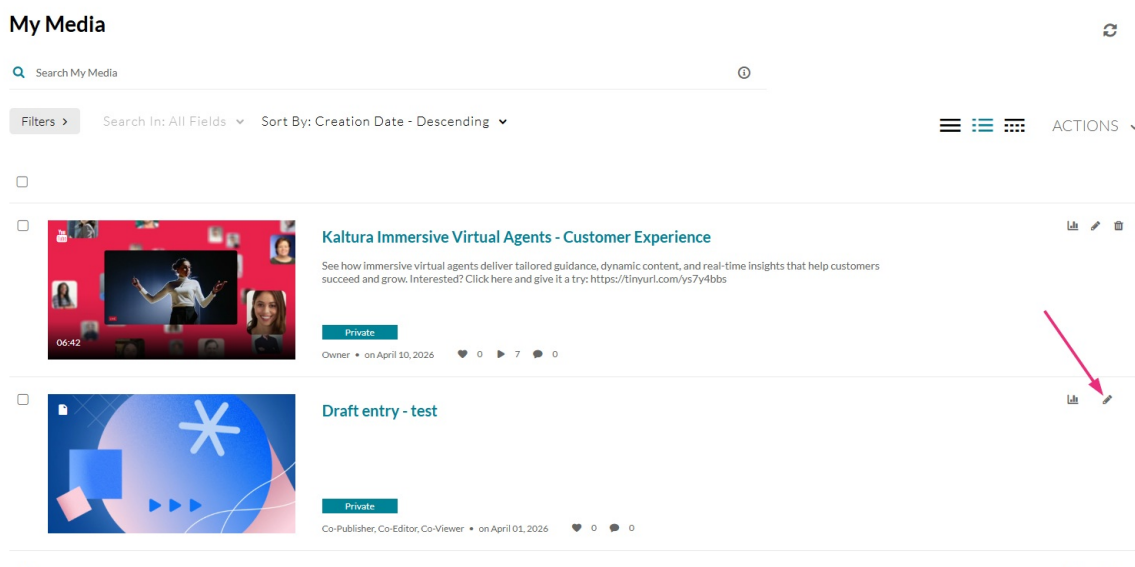

Draft entries in Kaltura's legacy Video Portal allow users to create an entry without uploading content. This is useful for creating entries in advance, or for collaborating with others on an entry.

Once the draft entry is created, the entry owner or co-editor can add content to it at a later time. This article will show you how to upload content to a draft entry in your legacy Video Portal.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

## Access the edit page

1. Go to the location of your draft entry (for example, your [playlist page](#), [channel](#) or My Media).
2. Click the Edit (pencil) icon next to the draft entry.

You can also search for all draft entries using the Draft filter on the My Media page.

## My Media

Search My Media

Filters Search In: All Fields Sort By: Creation Date - Descending ACTIONS

Media Type	Publish Status	Webcasts	Scheduling	Ownership	Captions
<input checked="" type="checkbox"/> All Media	<input checked="" type="checkbox"/> All Statuses	<input checked="" type="checkbox"/> All Webcasts	<input checked="" type="checkbox"/> All Availabilities	<input checked="" type="checkbox"/> Any Owner	<input checked="" type="checkbox"/> All

2. Select a file from your computer.

Depending on the module configuration, you will be allowed to pick either video files only or audio/image files as well. All common video file formats are supported.

After the upload completes, a confirmation message appears.

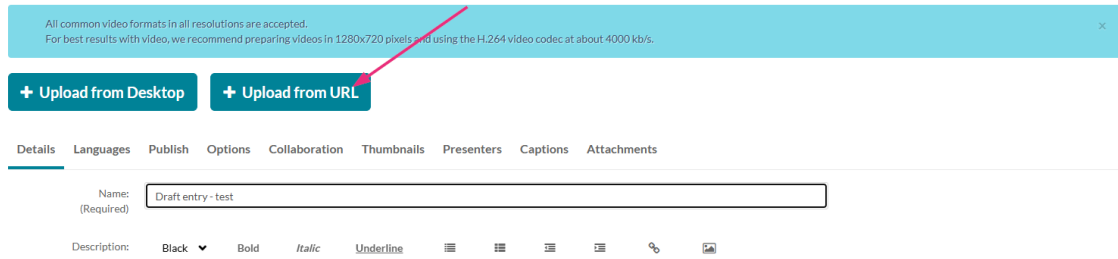

3. Click **Keep Media** to continue.

4. Click **Save**.

## Upload from URL

1. Click Upload from URL.

2. Paste in the link.
3. Click **Validate URL**.
4. Click **Save**.

Once media is uploaded, the draft entry becomes a regular entry in your legacy Video Portal.
