About

Live webcasts are orchestrated, highly produced live streaming events for large audiences. Kaltura Webcasting supports you from the initial planning stage to live broadcast production and management and finally to post-production and after-event management. This session type includes automated transition from live to VOD.

Live broadcast

Seamlessly transition attendees to the next session on the agenda, just like watching TV (coming soon)

To create a Live webcast

1. Log into your Kaltura Events account. The Kaltura Events Home page displays with the Home tab open by default.

The screenshot shows the Kaltura user interface. At the top left is the Kaltura logo. In the top right corner, there is a blue '+ Create' button and a user profile for Patrick Lorimer. A left-hand navigation menu includes 'Home', 'Team', 'Analytics', and 'Integrations'. The main content area starts with a greeting 'Good morning, Patrick' and a 'Recently viewed' section with five event thumbnails. Below this is the 'Events & Webinars' section, which includes a search bar, filters for 'All events & webinars' and 'All Labels', and a 'Showcase' button. A table lists four events with columns for Date, Name, Labels, Showcase, Type, and Registration.

Date	Name	Labels	Showcase	Type	Registration

If your Kaltura Events is configured with Custom templates (as in our example above), the Get started with a template page displays two tabs - one for Preset templates (Presets) and one for Custom templates (Custom). If Custom templates are not configured, the Get started with a template page does not display the two tabs, and only displays Preset templates from which to choose.

3. Choose the Live Webcast preset template. The Let's get started page displays.

4. Enter the following:
 - Title - A title for your event (char limit is 120).
 - Short description - A description for your event.
 - Start time - The day and time your event will start.
 - End time - The day and time your event will end.
 - Time zone - The time zone for your event.
5. Choose whether attendees will log into the event with a login link via email (AKA Magic Link), or with an email and password. **This option is only available for Preset event templates and, after creation of event, can only be changed by Kaltura. On Custom event templates, this will be preconfigured by the template.**
6. Click **Create**. The building process begins. This may take a few minutes.

Creating your event

Once complete, the Event page displays with the Overview tab open by default.

The event site and registration are not yet published at this point.

The Overview page acts as the home page for this particular event. This page displays the vital details of the event. Information displayed includes:

- Event status (a countdown to when the event will start, "Happening now", or "Ended [time period] ago")
- Event name, scheduled date and time, time zone, and description (if provided).
- Agenda at a glance (displays the individual sessions within your event)
- Speakers (displays the speakers scheduled for the event)

The Overview page also includes a link to the event site; simply click the blue **Event site** button on the top right corner of the screen. To learn more about your event site, see [Getting to know your event site, session page, and lobby page](#).

You may also edit vital details directly from this page:

- Edit the event by clicking on the **Edit details** button in the lower right corner of the event banner. See [Edit the Event Details](#).
 - Edit the agenda by clicking on the **Edit** button that displays when hovering over a particular session. See the following articles:
 - [Agenda tab - Add and edit Interactive Room session](#)
 - [Agenda tab - Add and edit Live Webcast session](#)
 - [Agenda tab - Add and edit Pre-recorded session](#)
 - [Agenda tab - Add and edit DIY live webcast session](#)
 - Invite speakers by clicking on the **Invite** button or navigate to the Speakers page by clicking **See all**.
