If your Kaltura Events is configured with Custom templates (as in our example above), the Get started with a template page displays two tabs - one for Preset templates (Presets) and one for Custom templates (Custom). If Custom templates are not configured, the Get started with a template page does not display the two tabs, and only displays Preset templates from which to choose.

3. Choose the Pre-recorded live Session preset template. The Let's get started page displays.
