

Create a DIY live broadcast

Last Modified on 12/01/2025 3:04 pm IST

 This article is designated for all users.

About

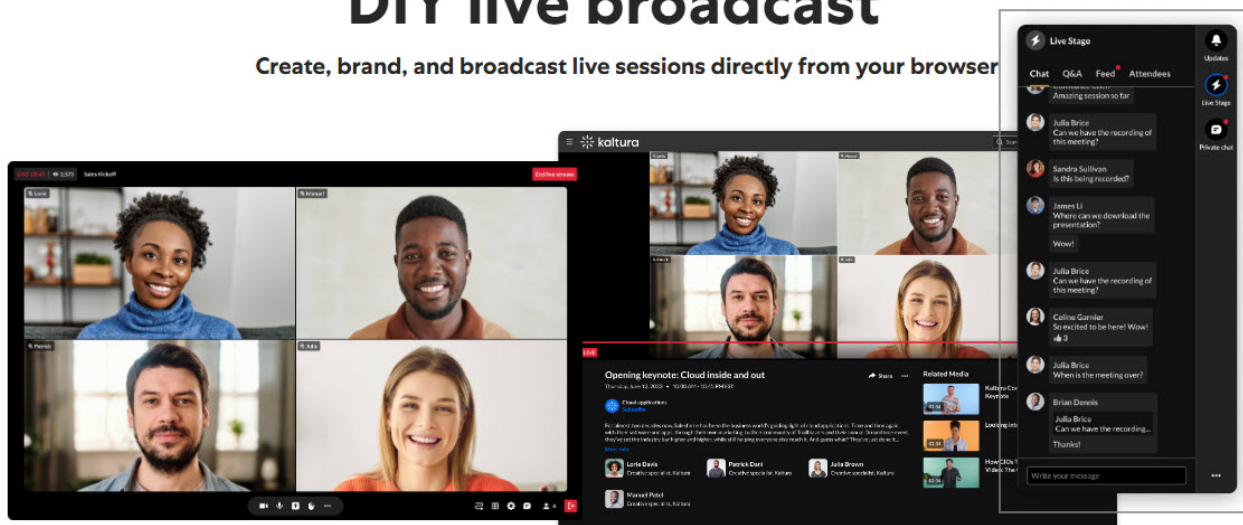

DIY live broadcasts give you the ability to broadcast/webcast a Kaltura live session directly from a Kaltura studio room. Simply create a DIY live broadcast session, then navigate to the Studio room and begin broadcasting.

DIY live sessions include automated transition from live to VOD (meaning, once the live session is finished, the recording is automatically published).

DIY live broadcast

Create, brand, and broadcast live sessions directly from your browser

Quick & easy cloud
broadcast studio

Ready to go in minutes, zero
production resources
are needed.

Customize to your brand with
virtual backgrounds, lower thirds,
stage layouts, and more

To create a DIY live broadcast

1. Log into your Kaltura Events account. The Kaltura Events Home page displays with the Home tab open by default.

No worries, we have tailor-made solutions just for you.

Let's talk

If your Kaltura Events is configured with Custom templates (as in our example

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

2

above), the Get started with a template page displays two tabs - one for Preset templates (Presets) and one for Custom templates (Custom). If Custom templates are not configured, the Get started with a template page does not display the two tabs, and only displays Preset templates from which to choose.

3. Choose the DIY live broadcast preset template. The Let's get started page displays.

Let's get started

Start with a few details about your event

Title 0/120

mm/dd/yyyy

Time

hh:mm aa

Duration (Minutes)

60

Time zone

America/New_York (GMT-05:00) ▼

Attendees will log into the event with:

☒ Login link via email
 ☐ Email and password

Create

Cancel

4. Enter the following:

- Title - A title for your event (char limit is 120).
- Short description - A description for your event.

5. Choose your event format - either a single session or multi session event.

- The **Single session event experience** simplifies virtual event creation and management by streamlining event setup into a single, unified flow. With one cohesive banner, title, description, and scheduled time/duration, organizers only need to input event details once - eliminating the need to manage separate event and session configurations. Speakers and moderators are automatically assigned to the session upon invitation, and all essential event information is prominently displayed on the Overview page. This frictionless approach significantly reduces setup complexity, enabling teams to focus more on delivering engaging content and less on administrative overhead.
- The **Multi session event experience** is an event structure that contains

multiple individual sessions, all managed within a single event site. Each session can include its own media, agenda, and interactive features (such as chat, Q&A, or polls), while remaining part of the overall event framework. This setup allows organizers to manage complex programs with multiple tracks or time slots and provides attendees with a central hub to access and navigate all sessions.

Looking for more information about the Single session event experience? Feel free to contact your Kaltura representative.

- If you chose **Single session**, enter a date and time your webcast will start, a duration for your webcast, and a time zone. The list of time zones is organized in alphabetical order by time zone name, then city name. This list is searchable and as you start typing characters, a list of matching time zones will populate for you.

Let's get started

Start with a few details about your event

Attendees will log into the event with:

☒ Login link via email
 ☐ Email and password

7. Choose whether attendees will log into the event with a login link via email (AKA Magic Link), or with an email and password. **This option is only available for Preset event templates and, after creation of event, can only be changed by Kaltura. On Custom event templates, this will be preconfigured by the template.**
8. Click **Create**. The building process begins. This may take a few minutes.

Creating your event

Once complete, the Event page displays with the Overview tab open by default.

If you chose **Single session**, the overview page looks like this:
