

Agenda tab - Add and edit Live webcast session

Last Modified on 11/20/2024 5:41 pm IST

 This article is designated for all users.

About

This article describes how to add and edit a Live webcast session.

Live webcasts are orchestrated, highly produced live-streaming events for large audiences. Kaltura Webcasting supports you from the initial planning stage to live broadcast production and management and finally to post-production and after-event management. This session type includes an automated transition from live to VOD.

Our agenda management system is designed to cater to the diverse needs of virtual, hybrid, and in-person events. It allows organizers to include room or location information for specific sessions, facilitating easy navigation for in-person attendees. Whether it's a virtual webinar, a hybrid conference, or an in-person workshop, our agenda management system ensures that participants can access relevant details about session locations or virtual links, enhancing their overall event experience.

Furthermore, our agenda management system offers the option to seamlessly integrate live broadcasting of in-person sessions, extending accessibility to virtual participants. This feature enhances the inclusivity of events, enabling remote attendees to engage with on-site sessions in real-time.

Add a Live webcast session

There are two ways to add a session to your event:

- On the Event Overview page, in the Agenda at a glance section, click **Add session**.

RTMPS URLs	Show
Stream name:	Copy

[Cancel](#) [Create](#)

1. You may add the following information:

- **Header** - Click **Upload thumbnail** and choose the desired file. We recommend using an image size of 1920x1080 px.
- **Title** (required) - A title for your session (char limit is 120). **Please note:** Characters "<" and ">" are not supported.
- **Description** - A description for your session.
- **Date** (required) - The day your session will start.
- **Time** (required) - The time your session will start.
- **Duration** (required) - The duration of your session (in minutes). Max duration is 1440 minutes (24 hours).

2. To add speakers to this session, click in the Speakers field and start typing the name of a user who has been assigned a Speaker role. The name is auto filled. Click to select the user.

Speakers

<input type="checkbox"/>	CP Connie Peters connie.peters@ABCcompany.com
--------------------------	--

If no results are found, click **Invite speaker**. This re-directs you to the Speakers page where you can invite speakers to your event.

3. To add moderators to this session, click in Moderators field and start typing the name of a user who has been assigned a Moderator role. The name is auto filled. Click to select the user.

Moderators (required)

Add moderators to monitor and support attendees' questions

JB John Baker john.baker@ABCcompany.com

If no results are found, click **Invite moderator**. This re-directs you to the Moderators page where you can invite moderators to your event.

 Team members who created the event (AKA "Organizers") are **automatically** assigned as Moderator to both the event they created (at the "Event Level") and the first session that was created as part of the event (at the "Session Level").

4. Moderation links - Click **Go to app** to access the chat moderation app, which allows you and your moderators to organize, manage, and answer Q&A threads; publish polls and Q&As; and answer private chats during the session. Click **Copy app link** to share a link to the moderation app with your moderators.

5. Choose visibility of the session.

Private - The session will be available only for team members, not for attendees.

Unlisted - The session will be reachable via direct link only.

Published - The session will be available on the event agenda.

 The Session recording area is accessible via the [Edit Session](#) page once the live session is finished.

 Live stream details will be available after creating your session and accessing the [Edit Session](#) page. See [Obtain Live Stream Details](#).

6. Once you are finished completing the fields, click **Create**. (The **Create** button is enabled only after you've begun filling in the fields.) The new session is now added to your event.

Edit a Live webcast session

There are two ways to reach session editing capabilities:

- On the Event Overview page, in the Agenda at a glance section, hover over the session you would like to edit, then click the blue pencil (edit) icon.

Agenda at a glance

[Add session](#)

[Full agenda](#)

Spring Sales Event

Live webcast
8:00 AM - 9:00 AM Wed, March 15

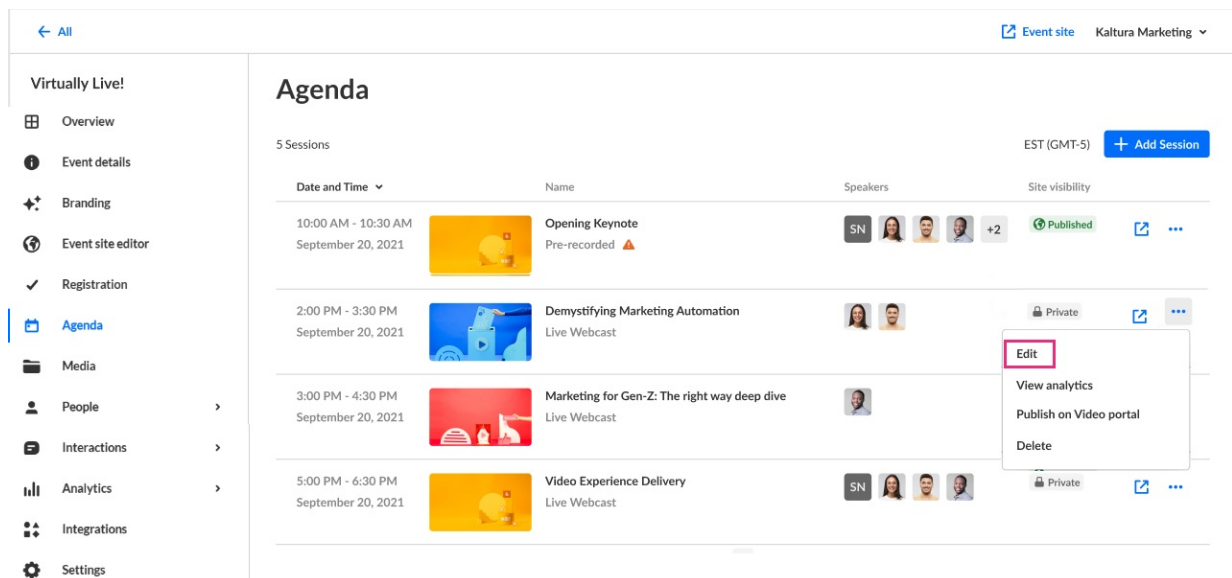

Meet the Team

Interactive session
8:30 AM - 9:00 AM Wed, March 15

- On the Event Agenda page, click the name of the session, or the three blue dots to the right of the session and choose **Edit**.

The screenshot shows the 'Agenda' page with a sidebar on the left containing navigation options like 'Overview', 'Event details', 'Branding', 'Event site editor', 'Registration', 'Agenda', 'Media', 'People', 'Interactions', 'Analytics', 'Integrations', and 'Settings'. The main content area displays a table of sessions:

Date and Time	Name	Speakers	Site visibility
10:00 AM - 10:30 AM September 20, 2021	Opening Keynote Pre-recorded	SN, [3 icons]	Published
2:00 PM - 3:30 PM September 20, 2021	Demystifying Marketing Automation Live Webcast	[2 icons]	Private
3:00 PM - 4:30 PM September 20, 2021	Marketing for Gen-Z: The right way deep dive Live Webcast	[1 icon]	Private
5:00 PM - 6:30 PM September 20, 2021	Video Experience Delivery Live Webcast	SN, [3 icons]	Private

A dropdown menu is open for the 'Demystifying Marketing Automation' session, with the 'Edit' option highlighted in a red box. Other options in the menu include 'View analytics', 'Publish on Video portal', and 'Delete'.

The Edit session page displays with the Basics tab open by default.

Make appropriate edits on the Basics tab.

 The Save changes button displays *only after* you make an edit to the information.

Once you are finished editing the session details, click **Save changes**. The session is now updated with the new information.

Manage recordings

Live sessions include the automated transition from live to VOD (meaning, once the live session is finished, the recording is automatically published to the event site). In some cases, Event organizers may not want a VOD available after the session, or they may want to take down the recording, go through some post-production, and then re-upload the recording.

To unpublish or download a recording:

1. Access the [Edit Session](#) page.
2. Click on the **Basics** tab.
3. Scroll down to the Session recording section.

4. Copy the live stream details.

Live Stream Details

Copy the details below into your broadcast app to stream to this session

RTMP URLs	Hide
RTMP Primary URL 	Copy
RTMP Secondary URL 	Copy
RTMPS URLs	Show
Stream Name: 	Copy

5. Paste the live stream details into your broadcast app/encoder(s) to stream to this session. For an example on how to do so, see [OBS Studio and Kaltura Live Streaming](#).

Manage captions for your session

 The ability to order captions must be enabled and configured on your account. If it is not, please contact your Kaltura representative to enquire about adding it. If captions are enabled and configured on your account, you may order them only after creating your session and accessing the Captions tab of the [Edit Session](#) page.

 You may order live captions on future sessions only. You may not order live captions on sessions that have already started. If you did not order live captions for the session, and you have a recording of the session, you may order and/or upload captions for that recording.

To order live captions for a session

1. Access the [Edit Session](#) page.
2. Click on the **Captions** tab.
3. Click **Order captions**. The Order captions screen displays.

×

i We recommend to extend the live captions scheduling to avoid disconnections before the event ends

[Submit](#)

4. Complete the fields in the Order captions screen.
 - **Service** - Select the type of Live Captioning service.
 - **Machine** - Automated captioning process. (Machine captions must be ordered at least 15 minutes ahead of your session.)
 - **Source Media Language** - Select the spoken language of the live stream (currently only English is supported).
 - **Feature** - Select Live Captions.
 - **Live Captions Start Time** - Select a time interval in case you'd like the captions service to start before the scheduled start time of your event.
 - **Live Captions End Time** - Select a time interval in case you'd like to keep the captions service running if the event runs longer than expected.
5. Click **Submit**.

 Once captions have been ordered, you may view existing caption requests in the [Edit Session](#) page.

To order captions for a session recording

1. Access the [Edit Session](#) page.
2. Click on the **Captions** tab.
3. Click **Order captions**. The Order captions screen displays.

Order captions ×

 Once captions have been ordered, you may view existing caption requests in the [Edit Session](#) page.

To upload captions for a session recording

1. Access the [Edit Session](#) page.
2. Click on the **Captions** tab.
3. Under Upload captions, click **Upload**. The Upload captions screen displays.

Upload captions ×

Captions file We support SRT, DFXP, CAP, SCC and WEBVTT file types

Language

4. Click **Upload** to choose the desired captions file from your computer, select the language, then click **Add caption**. As you add captions, they display on the Captions tab under Upload captions.

 Please note - You may upload only one file per language.

To set as default, edit, download, and delete captions for a session recording

1. Access the [Edit Session](#) page.
2. Click on the **Captions** tab.
3. Click the three blue dots to the right of each caption file for additional functionality.

Upload captions

The attached captions will be displayed in the session.

- Choose **Set as default** to set the caption file as the default.
- Choose **Edit** to edit the caption file.

The Edit Captions page displays. See [Editing Captions](#) for more information.

✕ Edit captions

- Choose **Download** to download the captions file to your machine.
- Choose **Delete** to delete the caption file.

Manage attachments for your session

Provide your audience a greater immersive experience and more value by enriching your session with downloadable content. Manage content like documents, spreadsheets, presentations, audio/video files, and images for your session on the Attachments tab.

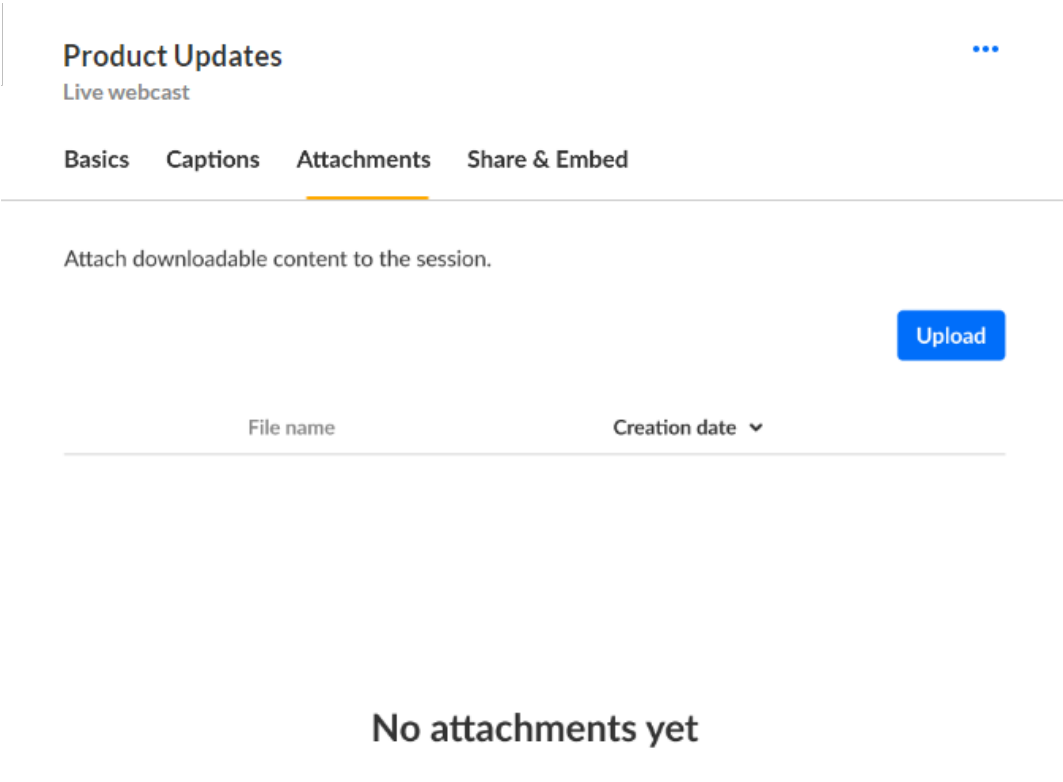

Supported file types consist of the following:

- Media files - *.mts;*.MTS;*.qt;*.QT;*.mov;*.MOV;*.mpeg;*.MPEG; *.avi;*.AVI;*.mp4;*.MP4; *.vob;*.VOB;*.flv; *.FLV; *.f4v; *.F4V; *.asf;*.ASF; *.wmv;*.WMV;*.m4v;*.M4V;*.3gp;*.3GP; *.mkv;*.MKV;*.arf;*.ARF; *.webm;*.WEBM; *.mxf;*.MXF

- Document files - '.doc', '.docx', '.docm', '.dotx', '.dotm', '.xls', '.xlsx', '.xlsm', '.xltx', '.xltm', '.xlsb', '.xlam', '.ppt', '.pptx', '.pptm', '.potx', '.potm', '.ppam', '.ppsm', '.odb', '.odc', '.odf', '.odg', '.odi', '.odm', '.odp', '.ods', '.odt', '.otc', '.otf', '.otg', '.oth', '.oti', '.otp', '.ots', '.ott', '.oxt', '.swf', '.pdf'
- Image files - '.jpg', '.jpeg', '.bmp', '.png', '.gif', '.tif', '.tiff'

Upload attachments to your session

1. Access the [Edit Session](#) page.
2. Click on the **Attachments** tab.

The screenshot shows the 'Attachments' tab of a session editor. At the top, there is a header for 'Product Updates' with a 'Live webcast' subtitle and a three-dot menu icon. Below this are navigation tabs: 'Basics', 'Captions', 'Attachments' (which is selected and highlighted with an orange underline), and 'Share & Embed'. The main content area contains the instruction 'Attach downloadable content to the session.' and a blue 'Upload' button. Below the instruction is a table header with two columns: 'File name' and 'Creation date' with a dropdown arrow. The table is currently empty, and the text 'No attachments yet' is centered below the table header.

3. Click on the **Upload** button and choose desired file(s).
The progress of your upload is displayed.

Share & Embed

When using Kaltura's Live Broadcasting services, you can choose to share (re-stream) your scheduled live event to any RTMP based live broadcasting service. When re-stream is set, Kaltura will take care of replicating your live stream and concurrently stream it to additional live broadcasting services such as social media live streaming.

 You may share (restream) and embed only after creating your session and accessing the Share & Embed tab of the [Edit Session](#) page.

 You may share (restream) and embed future sessions only.

1. Access the [Edit Session](#) page.
2. Click on the Share & embed tab.
