

Agenda tab - Add and edit Pre-recorded session

Last Modified on 07/06/2025 3:34 pm IDT

 This article is designated for all users.

About

This article describes how to add and edit a Pre-recorded session.

Pre-recorded sessions are pre-recorded videos that are broadcasted as if they were live. They are considered as if they were a live broadcast from the system's point of view (player, analytics, etc.).

Add a Pre-recorded session

There are two ways to add a session to your event:

- On the Event Overview page, in the Agenda at a glance section, click **Add session**.

Agenda at a glance

Create

1. You may add the following information:

- **Header** - Click **Upload thumbnail** and choose the desired file. We recommend using an image size of 1920x1080 px.

- **Title** (required) - Type a title for your session (char limit is 120). **Please note:** Characters "<" and ">" are not supported.
- **Description** - Type a description for your session.
- **Tags** - Apply existing or create new useful, relevant tags for your session to help categorize it within the event. You may then filter your [Agenda page](#) and the [Agenda section of Page builder](#) based on these unique tags.
 - **To apply a tag** - Click in the Add tags field. Start typing the first few letters of a tag and a list of matching tags will populate for you. Click to select the checkbox next to the desired tag.

people's every day, anywhere on the customer journey.

Tags

Connect X Keynote X SEO Solutions ^

+ Create tag "SEO Solutions"

☒ Connect

 ☒ Keynote
 ☐ Sales
 ☐ Strategy Showcase
 ☐ Social Media Insights
 ☐ Tech

Published ▼ This session is available on the event agenda

- **To add a new tag** - Type your new tag in the Add tags field, then click + **Create tag "[tag name]"**.

people's every day, anywhere on the customer journey.

Tags

SEO Solutions ^

+ Create tag "SEO Solutions"

- **To detach a tag from a session**, simply click "X".

Session tags are visible to event attendees.

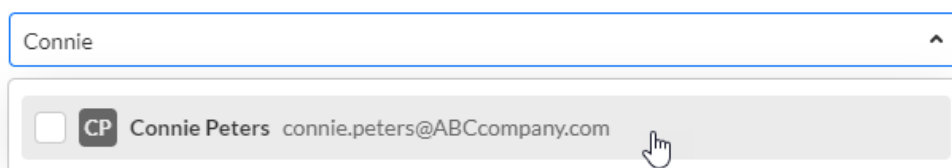

- **Date** (required) - Choose the day your session will start.
 - **Time** (required) - Choose the time your session will start.
 - **Duration** (required) - Choose the duration of your session (in minutes). Max duration is 1440 minutes (24 hours).
2. In the Video source section, click **Upload** and choose the desired media from your computer (we recommend MP4 and MOV file formats), or click **Choose from media** and select from media that has already been uploaded to the event site via the Media page (for more information on uploading media to the event site, see [Manage Media for your Event](#)). Media upload status is displayed in this window once video source has been selected and you may choose to cancel the action while processing. Upload status is also displayed on the Agenda.

Media must be the same duration as the scheduled session time - no longer and no shorter. If the media is longer than the scheduled session time, a warning message displays. In addition, to avoid interruptions, media must complete uploading prior to the broadcast's start time. 30 minutes before broadcast start time, Upload functionality will be disabled and will remain disabled while the session is in progress. If the session is about to start, and you would like to upload media, consider postponing the start time of the broadcast.

3. To add speakers to this session, click in the Speakers field and start typing the name of a user who has been assigned a Speaker role. The name is auto filled. Click to select the user.

Speakers

The screenshot shows a search bar labeled 'Speakers' containing the text 'Connie'. Below the search bar is a dropdown list with one visible result: a small square icon, the initials 'CP', the name 'Connie Peters', and the email address 'connie.peters@ABCcompany.com'. A mouse cursor is pointing at the result.

If no results are found, click **Invite speaker**. This re-directs you to the Speakers page where you can invite speakers to your event.

4. To add moderators (required) to this session, click in Moderators (required) field and start typing the name of a user who has been assigned a Moderator role. The name is auto filled. Click to select the user.

Moderators (required)

Add moderators to monitor and support attendees' questions

☐ **JB** John Baker john.baker@ABCcompany.com

If no results are found, click **Invite moderator**. This re-directs you to the Moderators page where you can invite moderators to your event.

Team members who created the event (AKA "Organizers") are **automatically** assigned as Moderator to both the event they created (at the "Event Level") and the first session that was created as part of the event (at the "Session Level").

5. Moderation links - Click **Go to app** to access the chat moderation app, which allows you and your moderators to organize, manage, and answer Q&A threads; publish polls and Q&As; and answer private chats during the session. Click **Copy app link** to share a link to the moderation app with your moderators.
6. Click to activate Kaltura's AI assistant for this session.

Looking for more information about this feature? Feel free to contact your Kaltura representative.

🌟 AI assistant

Boost audience engagement with actionable AI suggestions based on real-time data.

☐ **Activate**

You are asked to confirm your action.

Your AI session assistant

Take action based on your session data with one click. Get real-time suggestions for interactive content and track audience mood to boost engagement.

Activate assistant

Click **Activate assistant**. You may click the "X" button to cancel the action.

When *activated*

- The **Assistant tab** displays for moderators in the Chat and Collaboration widget. The Assistant tab provides information on attendee numbers, chat mood (results of sentiment analysis), engagement rate (viewers who watch in full screen or with the focus on the tab and sound on), and time to end.
- The **Live stage tab** of the Chat and Collaboration widget displays the same information for moderators.

When *deactivated*

- The **Assistant tab** does not display for moderators in the Chat and Collaboration widget.
- The **Live stage tab** of the Chat and Collaboration widget displays information on attendee numbers, turnout (percentage of those registered who are actually logged into the session), engagement rate (viewers who watch in full screen or with the focus on the tab and sound on), and time to end.

7. Choose visibility of the session.

Private - The session will be available only for team members, not for attendees.

Unlisted - The session will be reachable via direct link only.

Published - The session will be available on the event agenda.

- Once you are finished completing the fields, click **Create**. (The **Create** button is enabled only after you've begun filling in the fields.) The new session is now added to your event. At the scheduled time, your pre-recorded session begins, playing the video you uploaded for your attendees.

Edit a Pre-recorded session

There are two ways to reach session editing capabilities:

- On the Event Overview page, in the Agenda at a glance section, hover over the session you would like to edit, then click the blue pencil (edit) icon.

Marketing for Gen-Z: The right way

Description

B *i* u   

With the rise of virtual events, the divide between business get-togethers and other marketing channels has become blurrier than ever, and a new digital marketing funnel has emerged. But it couldn't have happened without the creativity and smarts of all those marketers who wielded their events into immersive experiences and personal interactions that fit right into people's every day, anywhere on the customer journey.

Manage captions for your session

The ability to order captions must be enabled and configured on your account. If it is not, please get in touch with your Kaltura representative to enquire about adding it. If captions are enabled and configured on your account, you may order them only after creating your session and accessing the Captions tab of the [Edit Session](#) page.

You may order captions on future sessions only. You may not order captions on past sessions or on sessions that have already started.

Order captions

1. Access the [Edit Session](#) page.
2. Click on the **Captions** tab.
3. Under Order captions, click **Order**. The Order captions screen displays.
