

Add and edit DIY live webcast session

Last Modified on 08/20/2025 9:35 pm IDT

 This article is designated for all users.

About

This article describes how to add and edit a DIY live webcast session.

DIY live webcasts give you the ability to broadcast/webcast a Kaltura live session directly from a Kaltura Studio room. Simply create a DIY live webcast session, then navigate to the Studio room and begin broadcasting.

Once the session is created, the studio is automatically created as well and is hidden from the general attendees. Moderators and speakers may access the studio via a direct private link. This way, they can begin preparing the studio ahead of the broadcast. The agenda, on the other hand, is available to all on the event site.

Add DIY live webcast session

There are two ways to add a session to your event:

- On the Event Overview page, in the Agenda at a glance section, click **Add session**.

1. You may add the following information:

- **Header** - Click **Replace thumbnail** and choose the desired file. We recommend using an image size of 1920x1080 px.
- **Title** (required) - Type a title for your session (char limit is 120). Please note: Characters "<" and ">" are not supported.

- **Description** - Type a description for your session.
- **Tags** - Apply existing or create new useful, relevant tags for your session to help categorize it within the event. You may then filter your [Agenda page](#) and the [Agenda section of Page builder](#) based on these unique tags.
 - **To apply a tag** - Click in the Add tags field. Start typing the first few letters of a tag and a list of matching tags will populate for you. Click to select the checkbox next to the desired tag.

people's every day, anywhere on the customer journey.

Published ▼ This session is available on the event agenda

A - Launch studio - Activate your broadcast studio, add files to your playlist, and start broadcasting directly from a Kaltura room. See [Activate and prepare the studio ahead of the broadcast](#).

B - Copy link - Let the moderators and speakers assigned to the session access the studio and begin preparing ahead of the broadcast. See [Share a direct private link to the Kaltura Studio room with moderators and speakers](#).

C - Visit session page - Access the session directly from the Edit Session page.

D - Copy link - Copy a direct link to the session page for sharing purposes.

5. Click to activate Kaltura's AI assistant for this session.

Looking for more information about this feature? Feel free to contact your Kaltura representative.

AI assistant

Boost audience engagement with actionable AI suggestions based on real-time data.

☐ **Activate**

You are asked to confirm your action.

Your AI session assistant

Take action based on your session data with one click. Get real-time suggestions for interactive content and track audience mood to boost engagement.

Activate assistant

Click **Activate assistant**. You may click the "X" button to cancel the action.

When *activated*

- The [Assistant tab](#) displays for moderators in the Chat and Collaboration widget. The Assistant tab provides information on attendee numbers, chat mood (results of sentiment analysis), engagement rate (viewers who watch in full screen or with the focus on the tab and sound on), and time to end.
- The [Live stage tab](#) of the Chat and Collaboration widget displays the same information for moderators.

When *deactivated*

- The [Assistant tab](#) does not display for moderators in the Chat and Collaboration widget.
- The [Live stage tab](#) of the Chat and Collaboration widget displays information on attendee numbers, turnout (percentage of those registered who are actually logged into the session), engagement rate (viewers who watch in full screen or with the focus on the tab and sound on), and time to end.

6. Choose visibility of the session.

Private - The session will be available only for team members, not for attendees.

Unlisted - The session will be reachable via direct link only.

Published - The session will be available on the event agenda.

The Session recording area is accessible via the [Edit Session](#) page once the live session is finished.

7. Once you are finished completing the fields, click **Create**. (The **Create** button is enabled only after you've begun filling in the fields.) The new session is now added to your event.

Edit DIY live webcast session

There are two ways to reach session editing capabilities:

- On the Event Overview page, in the Agenda at a glance section, hover over the session you would like to edit, then click the blue pencil (edit) icon.

Marketing for Gen-Z: The right way

Description

B *i* U   

With the rise of virtual events, the divide between business get-togethers and other marketing channels has become blurrier than ever, and a new digital marketing funnel has emerged. But it couldn't have happened without the creativity and smarts of all those marketers who wielded their events into immersive experiences and personal interactions that fit right into people's every day, anywhere on the customer journey.

Create with AI

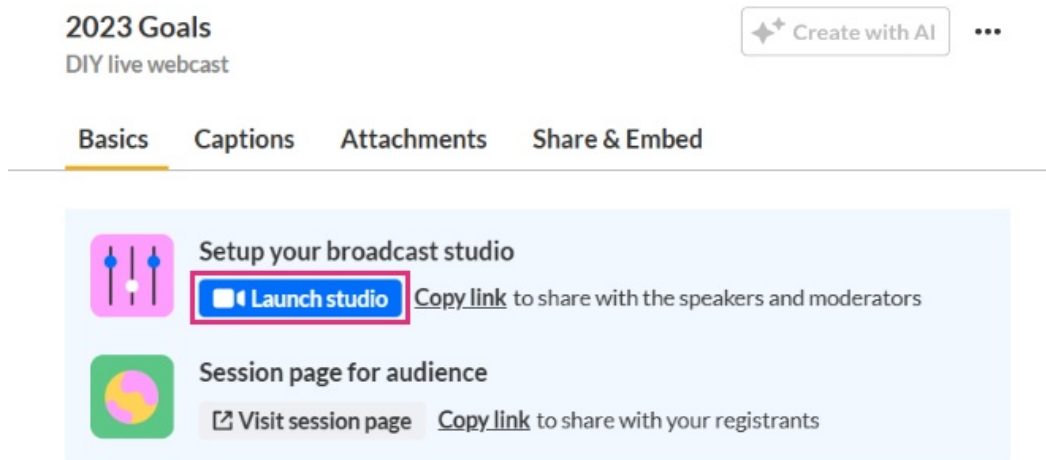

Enrich and repurpose your content into engaging, snackable experiences with Kaltura's AI-powered post-production assistant. Click to access [Content Lab](#) functionality. This button will be active and enabled only on sessions with applicable media uploaded. See [Create highlight clips with AI](#) and [Create a summary and chapters with AI](#) for more information.

Basics tab

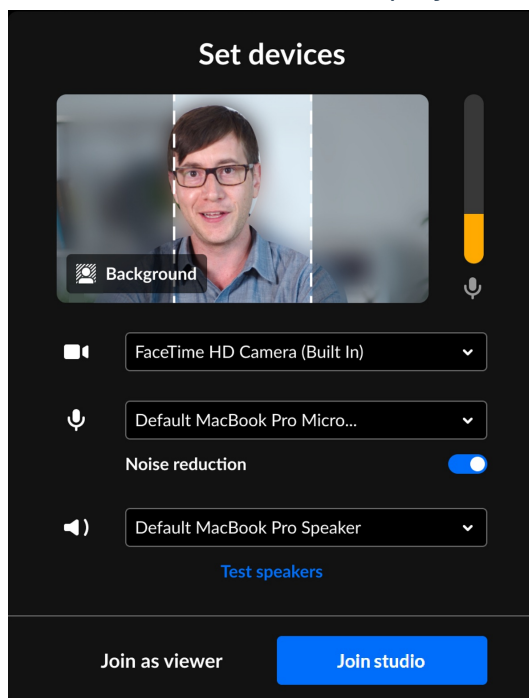

Activate and prepare the studio ahead of the broadcast

You may activate your broadcast studio, add files to your playlist, and start broadcasting directly from a Kaltura room.

1. Access the [Edit Session](#) page.
2. Click on the **Basics** tab.
3. Click the **Launch studio** button.

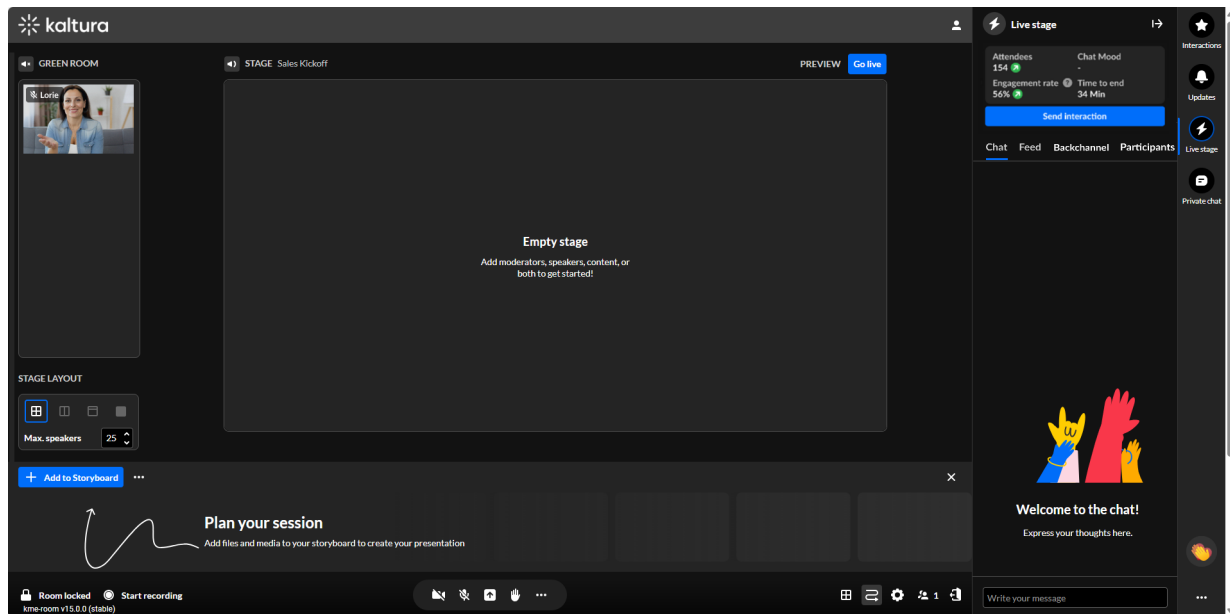

The Set devices screen displays.

See [Entering the Kaltura Studio room - device setup](#).

4. Click the **Join studio** button. The Kaltura Studio room displays.

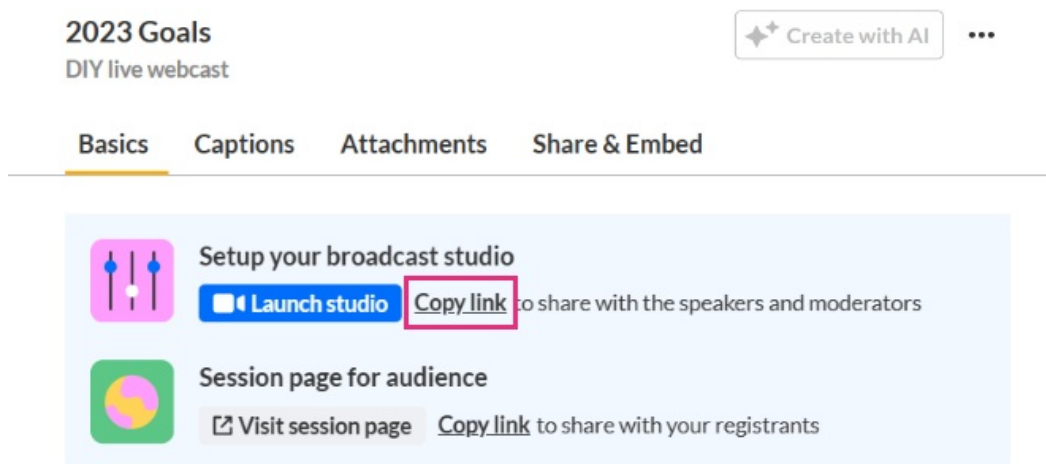

See the [Kaltura Studio room](#) of the Kaltura Knowledge Center for complete information.

Share a direct private link to the studio with moderators and speakers

Let the moderators and speakers assigned to the session access the studio and begin preparing ahead of the broadcast.

1. Access the [Edit Session](#) page.
2. Click on the **Basics** tab.
3. Click **Copy link**.

4. Share this link with moderators and speakers of the session.

Speakers cannot enter the room and begin preparing until the moderator clicks the

Start Meeting button on the session page.

Visit the session page

You may access the session directly from the Edit Session page.

1. Access the [Edit Session](#) page.
2. Click on the **Basics** tab.
3. Click **Visit session page**.

You are redirected to the session page.

Share a direct link to the session page

You may copy a direct link to the session page for sharing purposes.

1. Access the [Edit Session](#) page.
2. Click on the **Basics** tab.
3. Click **Copy link**.

The session is now updated with the new information.

Manage recordings

DIY live sessions include automated transition from live to VOD (meaning, once the live session is finished, the recording is automatically published). Your session recording is displayed in the Session recording section of the Edit Session page > Basics tab.

Session recording

The last recording is published automatically to the session page, but you can remove or replace it with any video.

Duration 1:00:00

[✕ Unpublish](#)

[↓ Download](#)

[📁 Choose from Media](#)

The session recording displays here **only after** the session and stream has been ended for everyone. If you are not seeing a session recording, it means that the session and stream has not yet been ended for everyone.

In some cases, Event organizers may not want a VOD available after the session, or they may want to take down the recording, go through some post-production, and then re-upload the recording.

To unpublish or download a recording:

1. Access the [Edit Session](#) page.
2. Click on the **Basics** tab.
3. Scroll down to the Session recording section.

Session recording

The last recording is published automatically to the session page, but you can remove or replace it with any video.

Duration 1:00:00

 **Unpublish**

 **Download**

 **Choose from Media**

Click **Unpublish** to unpublish the recording. You are prompted to confirm your action. Once the recording is unpublished, it will display on the Media page.

Click **Download** to download the recording. It is downloaded to your local machine.

To upload a new recording:

1. Access the [Edit Session](#) page.
2. Click on the **Basics** tab.
3. Scroll down to the Session recording section.

Session recording

The last recording is published automatically to the session page, but you can remove or replace it with any video.

 **Choose from Media**

4. Click **Choose from Media**. The Media page displays.

5. Click **Select** next to the media you would like to upload to the session. You receive

confirmation that the recording was published to the session page and removed from the Media page.

Captions tab - Manage captions and translation for your session

The ability to order captions and translation must be enabled and configured on your account. If they are not, please contact your Kaltura representative to enquire about adding them. If captions and translation are enabled and configured on your account, you may order them only after creating your session and accessing the Captions tab of the [Edit Session](#) page.

You may order live captions and translation on future sessions only. You may not order live captions or translation on sessions that have already started. If you did not order live captions for the session, and you have a recording of the session, you may order and/or upload captions for that recording.

To order live captions for a session

1. Access the [Edit Session](#) page.
2. Click on the **Captions** tab.
3. Click **Order captions**. The Order captions screen displays.

Multiple languages are supported. Don't see yours? Contact your Kaltura representative to request it.

- **Target translation language** - Select one or more languages from the dropdown. Captions can be ordered in parallel for multiple target languages.

5. Click **Submit**.

Once captions have been ordered, you may view existing caption requests in the [Edit Session](#) page.

Please note that if you reschedule the event, the original order won't update automatically. You will have to cancel it and place a new order.

Status definitions

- **Pending** - The vendor has not yet opened the request
- **Scheduled** - The request has been accepted and is being processed
- **Completed** - The captioning job was completed successfully

Only start streaming when all caption orders show **Scheduled**. If the status is **Pending**, wait and refresh the list manually.

Best practices for live captioning

- Start streaming a few minutes early to ensure full caption coverage.
- Machine captions must be ordered at least 15 minutes before the event.
- You can cancel machine orders any time before the event.
- Captions apply to the primary stream only - backup streams aren't supported.
- Events must be at least 10 minutes long (600 seconds minimum).
- Captions can last up to 8 hours per session

To order captions for a session recording

Title (optional)

This title will be visible to your attendees.

If you leave this field empty, the original file name will be displayed

Description (optional)

This description will be visible to your attendees.

Add description

Save changes

- Type the title and description (optional). The title should be a more descriptive name for this file. The description should provide context on the file's content. Both will be visible to your attendees.
- Click **Save changes**.

Download attachments from your session

1. Access the [Edit Session](#) page.
2. Click on the **Attachments** tab.

Looking for more information about this feature? Feel free to contact your Kaltura representative.

When using Kaltura's Live Broadcasting services, you can choose to share (re-stream) your scheduled live event to any RTMP based live broadcasting service. When re-stream

is set, Kaltura will take care of replicating your live stream and concurrently stream it to additional live broadcasting services such as social media live streaming.

You may share (restream) and embed only after creating your session and accessing the Share & Embed tab of the [Edit Session](#) page.

You may share (restream) and embed future sessions only.

1. Access the [Edit Session](#) page.
2. Click on the Share & embed tab.

Share & Embed

Embed code

Broadcast your session on any site where anyone can watch without registering. Note that all viewers will appear anonymously on the session analytics.

Copy

Social media streams

Share your live webcast on social media channels.

+ Add stream

To embed the player on an external site:

Click **Copy** to copy the embed code, then paste the embed code into your external site.

To share (restream) your live webcast on a social media channel:

1. Click **+ Add stream**. The Add a social stream window displays.

Add a social stream

Social channel (required)

Stream URL (required)

Stream key (required)

Your chosen social channel will provide you with a stream key

[Cancel](#) [Add](#)

2. In the Social channel (required) field, type the name of the social channel (i.e., Facebook, Twitter, etc.).
3. In the Stream URL (required) field, paste in the stream URL provided by the social channel.
4. In the Stream key (required) field, paste in the stream key provided by the social channel.
5. Click **Add**. As you add social channels, they display on the Share & Embed tab under Social media streams.

When sessions are embedded or shared (restreamed) on social media, some viewership data will be lost because viewers accessing events via embed or restream are not required to register for the event and will appear anonymously on the session analytics.

To edit an existing stream:

1. Click the three blue dots to the right of the desired stream. Additional options display.

Social media streams

Share your live webcast on social media channels.

2. Click **Edit**. The Edit social stream window displays where you can make your edits, then click **Save**.

Edit social stream

Social channel (required)

Facebook

Stream URL (required)

Stream key (required)

Your chosen social channel will provide you with a stream key

Cancel

Save

To delete an existing stream:

1. Click the three blue dots to the right of the desired stream. Additional options display.

Social media streams

Share your live webcast on social media channels.

2. Click **Delete**. You are asked to confirm your action.
