 This article is designated for administrators.

About

Using the **Widgets module**, you can set the **Join Now** button to appear on session cards a specified number of minutes before each session starts, helping users know exactly when to join. You can also control the visibility of media **thumbnails** on these session cards, which appear across Theming-based pages like the [Channel page](#), [Profile page](#), and [Agenda page](#).

Configure

1. Go to your Configuration Management console and click the **Widgets** module. You can also navigate directly using a link: `https://{your_video_portal_URL}/admin/config/tab/widgets`.

The Widgets page displays.

The screenshot shows the Configuration Management console with a navigation bar at the top containing links: MANAGE CONFIGURATION, MANAGE USERS, MANAGE GROUPS, KNOWLEDGE BASE, CLEAR THE CACHE, and GO TO SITE. Below the navigation bar is the 'Configuration Management' header. On the left is a sidebar with 'Server Tools' and various configuration categories like Backup Configuration, Player replacement tool, Global, Application, AddNew, Auth, Categories, Channels, and Client. The main content area is titled 'Widgets' and contains two configuration items: 'ThumbnailOnSessionCard' with a 'Visible' dropdown menu and a descriptive note, and 'SessionCardJoinNowIndication' with a text input field containing '15' and a descriptive note. A 'Save' button is located at the bottom left of the configuration area.

2. Configure the following:

ThumbnailOnSessionCard - Choose whether you want the thumbnail on the session card to be visible or hidden.

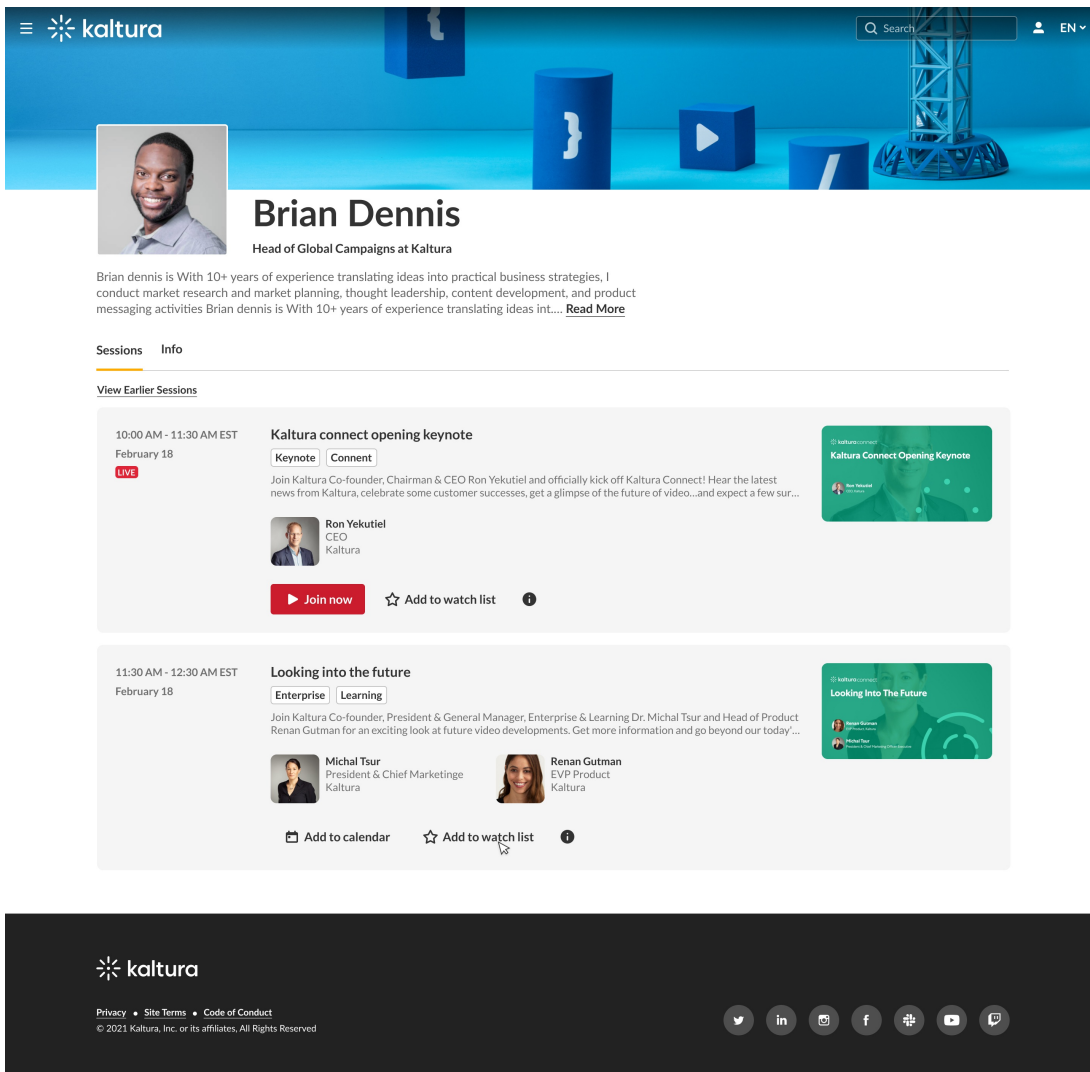

SessionCardJoinNowIndication - Enter the number of minutes before the session

start time for the **Join Now** button to appear. Leave blank to use the default of 15 minutes. For example, if a session starts at 10:45 am and the indication is set for 15 minutes, the **Join Now** button will appear at 10:30 am, prompting users to join.

3. Click **Save**.

User experience

The image below displays a [My Profile page](#) with session cards where media thumbnails are set to visible:

For more information about session cards, visit our article [Session cards](#).
