Audio player

Last Modified on 09/06/2025 3:28 pm IDT

This article is designated for all users.

About

Kaltura's Audio Player is tailored for audio tracks, while also supporting VOD and Live media entries. For VOD and Live media entry types, the player plays the audio track, omitting the video. Its slim design ensures a small footprint, resembling a miniature version of the normal player.

With essential controls and limited height, it focuses on delivering a seamless audio playback experience. In addition to the controls, it displays only the title, description, and thumbnail of the current entry.

Customize its appearance with Dark or Light mode, or personalize colors using our convenient color picker tool. Need to match your brand perfectly? No problem! Just input your custom color.

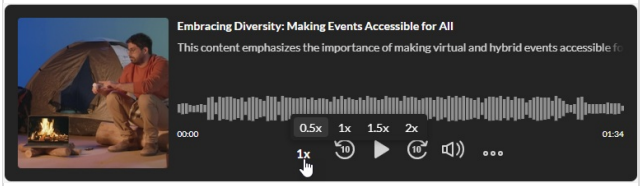

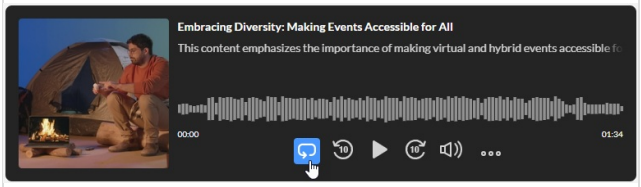

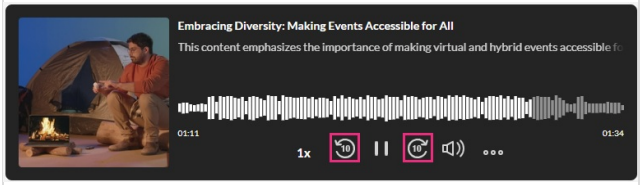

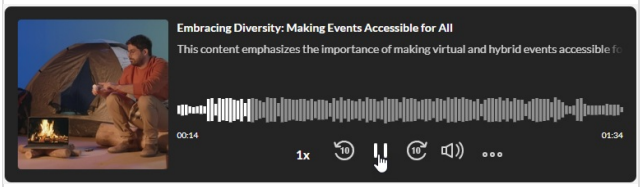

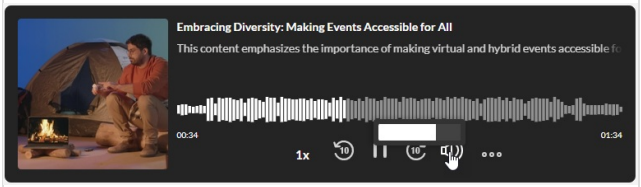

Setup

To create an Audio player, see Create a player.

Features

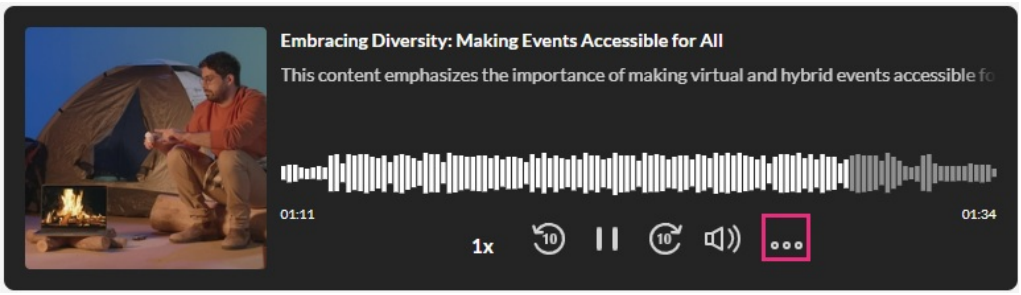

- The title auto-scrolls to the right as needed and the description auto-scrolls on hover.
- If enabled, the Kaltura Audio Player provides visualization of audio level at each point of the entry.
- The Kaltura Audio Player supports playlists and Theming.
- Admin can customize the player's color scheme to match your brand or personal preference.

Feature	Example
Speed control (The Kaltura Audio Player is enabled with either a speed selector or a loop button, but not both.)	
Looping (The Kaltura Audio Player is enabled with either a speed selector or a loop button, but not both.)	
Skipping (backward and forward 10 seconds)	
Pause	
Volume control	

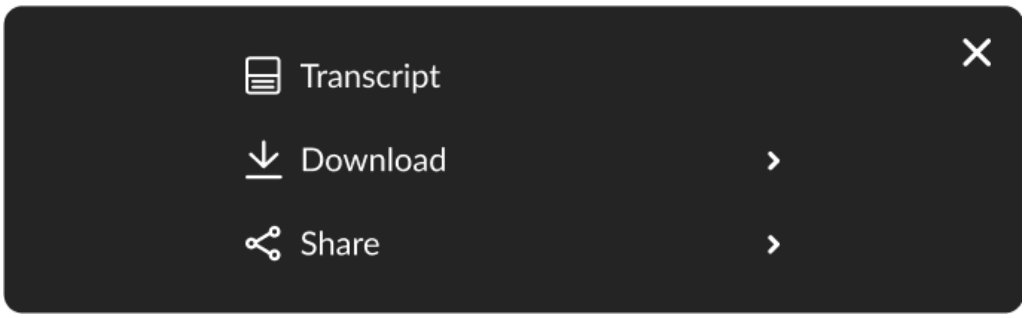

Additional functionality

Click the three-dot button ("More" button) to the right of the volume control.

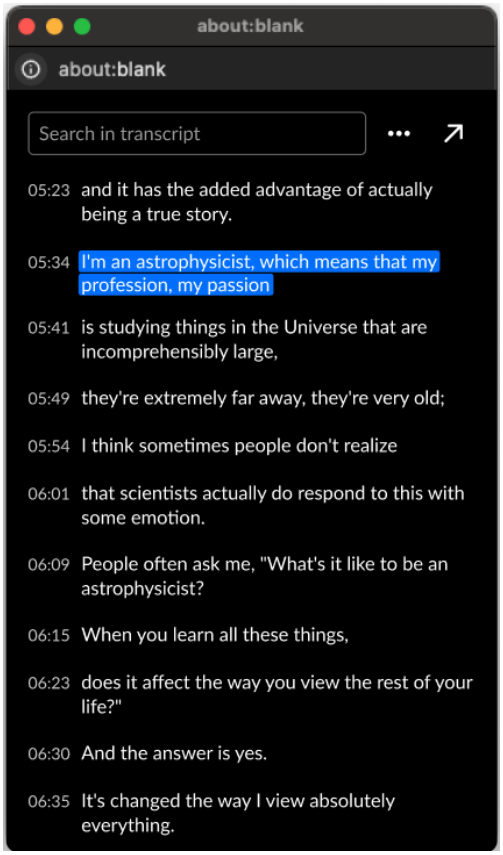

Three additional features display - Transcript, Download, and Share.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Transcript

Click **Transcript.** A floating window containing the media transcript displays. This window is draggable and resizable.

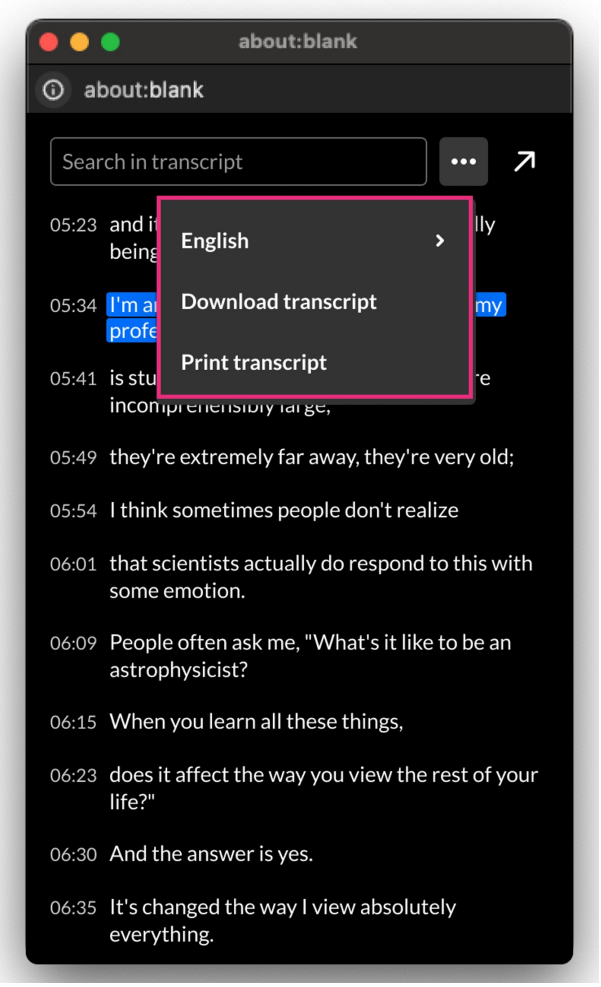

Search in transcript

Search the transcript by typing a keyword in the search field.

Three dots "actions" menu

Click the three dots to reveal additional options - change the transcript language, download or print the transcript.

Change transcript language

Click the language option, then select the desired language from the extended menu. The captions language will automatically update to match. Similarly, changing the captions language will update the transcript language accordingly.

Download or print the transcript

Select **Download transcript** or **Print transcript.**

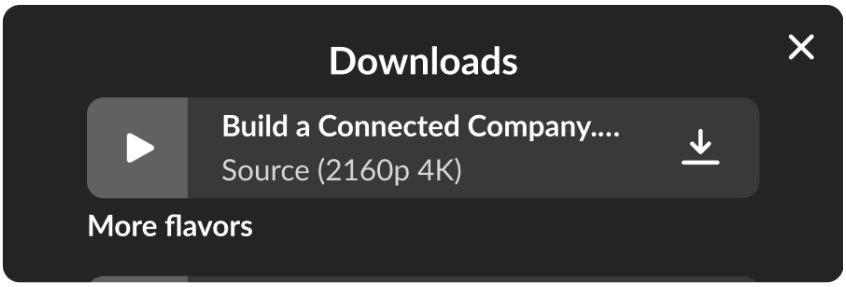

Up arrow "close" button

Click the slanted upwards button to close the window.

Download

Click the arrow to the right of Download. The Download screen displays. The following is an example of an entry with multiple available flavors and caption types, as well as attachments.

Choose a flavor

If multiple flavors are available, click More flavors to expand the list of flavors available to download.

Click the download arrow to the right of the desired flavor.

Download captions

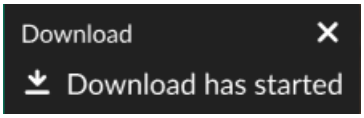

If multiple caption types are available, click More captions to expand the list of captions available to download.

Click the download arrow to the right of the desired caption type.

Download attachments

If files are attached to this video, click the arrow to the right of the attachment you would like to download.

You receive notification that the download has started.

Share

Click the arrow to the right of Share. The Share and embed screen displays.

Select a sharing option and enter the relevant details to share your content.
