About

This article describes how to:

- Invite moderators to your event via email. Note - you may also invite moderators to your event via the All users page.
- Add moderators to the event *without sending them an invitation email.* (Only available if the event organizer chose for attendees to enter the event via a login link. Please see Login link for more information.)
- View a list of moderators for an upcoming event and monitor their progress through the registration process.
- Perform additional actions on moderators per registration status.

When inviting moderators to a single session event, those moderators are automatically assigned to the event as moderators.

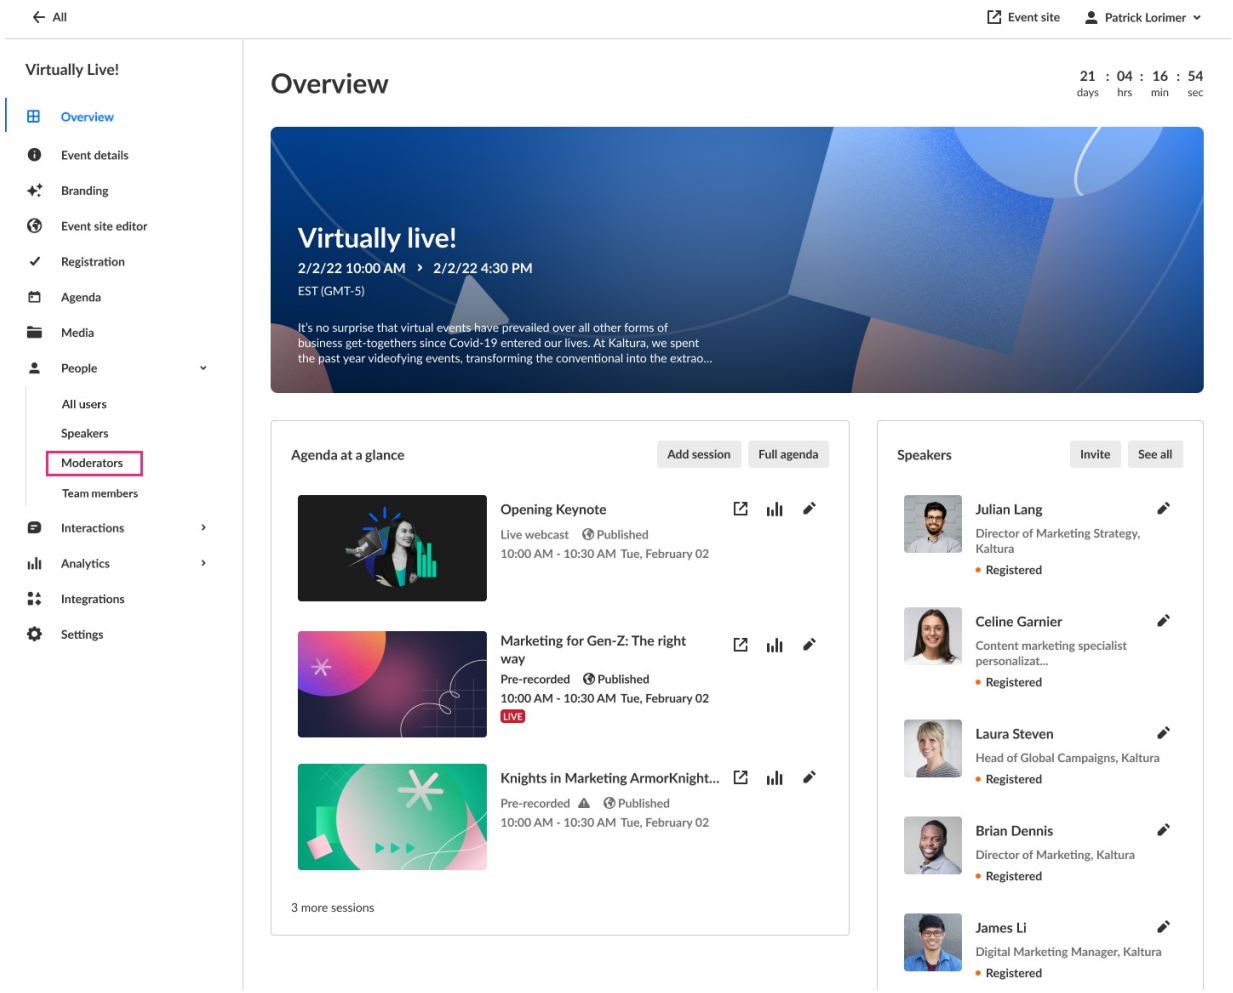

The screens shown here represent a multi-session event. The same actions apply when working with single session, unless otherwise noted.

Some behavior described here applies to a non-default configuration. Customer-specific variations are highlighted where applicable.
