### Invite moderators to your event

1. Navigate to the Moderators page; from the Event page, click the People tab > Moderators.

The screenshot displays the Kaltura event management interface for 'Sales Kick-off 2024'. On the left is a navigation sidebar with options like Overview, Event details, Branding, Event site editor, Registration, Agenda, Media, People, All users, Speakers, Moderators (highlighted with a red box), Event team, Interactions, Analytics, Integrations, and Settings. The main content area shows an 'Overview' section with a blue header, event title, dates (06/10/24 9:00 AM to 06/10/24 12:00 PM), and location (America/New\_York). Below this are two panels: 'Agenda at a glance' showing a session 'Sales Kick-off 2024' (DIY live webcast, Private, 9:00 AM - 10:00 AM Tue, April 16) and 'Speakers' which currently shows 'No speakers yet' with an 'Invite' button.

The Moderators page displays.

## Perform additional actions on moderators per registration status

You can click the three blue dots to the right of Status to access additional options per

registration status.

Registration Status	Options
Attended	Edit, View analytics, and Remove
SSO login	Edit, View analytics, and Remove
Invited	Edit, Re-send the email (invitation), and Remove
Registered	Edit, Re-send email (registration confirmation), View analytics, and Remove

 If a user has already accessed the Event site, opened the Chat and Collaborate widget, and agreed to the widget's terms of use, one additional option displays for Attended users in addition to those listed above - **Block from chat**. Using this option, you can block the user from sending messages in the Chat and Collaborate widget.

 If you chose for your attendees to log into your event via email (AKA Magic Link), one additional option displays for Invited and Registered users in addition to those listed above - **Generate login link**. Using this option, you can copy and send attendees the login link.

Hovering over the registration status in the Moderators page reveals a higher granularity of status which may include the following:

Registration Status	Detailed Status

Invited	Invited by team member to register
Registered	Confirmed email
Registered	Registered no confirmation required

In our example below, the registration status is Attended, but when hovering over the registration status, we can see this participant visited the site before the event started (i.e., Pre-event visit).
