

Invite moderators to your event

Last Modified on 11/09/2025 3:40 pm IST

28 This article is designated for all users.

About

This article describes how to:

- Invite moderators to your event via email. Note you may also invite moderators to your event via the All users page.
- Add moderators to the event *without sending them an invitation email.* (Only available if the event organizer chose for attendees to enter the event via a login link. Please see Login link for more information.)
- View a list of moderators for an upcoming event and monitor their progress through the registration process.
- Perform additional actions on moderators per registration status.

When inviting moderators to a single session event, those moderators are automatically assigned to the event as moderators.

The screens shown here represent a multi-session event. The same actions apply when working with single session.

Invite moderators to your event

 Navigate to the Moderators page; from the Event page, click the People tab > Moderators.

The Moderators page displays.

2. Click the blue **Invite moderator** button in the upper right corner of the screen. The Invite screen displays.

Invite

- 3. Type the moderator's email address (required), first and last names (required).
- 4. Select the appropriate language to set the language for this person and send them a localized version of the invitation.

Looking for more information about this feature? Feel free to contact your Kaltura representative.

- 5. Choose whether (in addition to having a Moderator role) they will have the additional role of Speaker.
- 6. Click **Upload image** to add an image (optional). Recommended size: 500x500 px
- 7. Add a title, company, and bio (all are optional).
- 8. Once finished, click **Invite** to send an invitation email, or click the down arrow to the right of the **Invite** button and choose **Invite without an email** to add this person to the event *without sending them an invitation email*.

Once you are ready to send them the invite, you can click the three blue dots to the right of Status and select the 'resend email' option on the Moderators page.

A notification asking you to confirm your action is displayed. Once the role is assigned, you cannot revert this action.

9. Click Invite to confirm or click Cancel to cancel the action.
If you clicked Invite, a notification that the invite was successfully sent is displayed and the invitation you created will be sent to participants to complete the registration. If you clicked the down arrow to the right of the Invite button and chose Invite without an email, a notification that the invite was successfully sent is displayed and the person is added to the Moderators list as "Registered".

View a full list of moderators and monitor their progress through the registration process

Once you have sent your invitations, you can use the Moderators page to view the full list of moderators for your upcoming event (including name, bio, and status) and monitor their progress through the registration process.

You can use the search option to locate specific moderators easily.

Perform additional actions on moderators per registration status

You can click the three blue dots to the right of Status to access additional options per registration status.

Registration Status	Options			
Attended	Edit, View analytics, and Remove			
SSO login	Edit, View analytics, and Remove			
Invited	Edit, Re-send the email (invitation), and Remove			
Registered	Edit, Re-send email (registration confirmation), View analytics, and Remove			
Unregistered	N/A			
Blocked	Edit and View Analytics			

If a user has already accessed the Event site, opened the Chat and Collaborate widget, and agreed to the widget's terms of use, one additional option displays for Attended users in addition to those listed above - **Block from chat**. Using this option, you can block the user from sending messages in the Chat and Collaborate widget.

If you chose for your attendees to log into your event via email (AKA Magic Link), one additional option displays for Invited and Registered users in addition to those listed above - **Generate login link**. Using this option, you can copy and send attendees the login link.

Hovering over the registration status in the Moderators page reveals a higher granularity of status which may include the following:

Registration Status	Detailed Status			
Registered	Registered			
Invited	Invited by team member			
Invited	Invited by team member to register			
Registered	Confirmed email			
Registered	Registered no confirmation required			
Attended	Pre-event visit			
Attended	During-event visit			
SSO login	SSO login			
Unregistered	Unregistered			
Blocked	Blocked			

In our example below, the registration status is Attended, but when hovering over the registration status, we can see this participant visited the site before the event started (i.e., Pre-event visit).
