

Copy Kaltura Learning videos to your account

Last Modified on 01/26/2025 11:06 pm IST

 This article is designated for administrators.

This article describes how to copy [Kaltura's Learning](#) videos to your Kaltura account. In doing so, you can boost product adoption and enhance user engagement.

1. Access the **Kaltura Learning site**.

2. Click on Kaltura Resources tab in the top navigation bar, then select Copy Learning Videos.

The Copy Course page displays.

To copy all course content to your account please fill in the following information and click on the Submit button (Relevant for SaaS accounts only). Click [here](#) to learn more.

Source Channel ID:
(Required)

Destination partner ID:
(Required)

User ID:
(Required)

Password:
(Required)

Destination Category ID:

[Submit](#)

To manually download the XML and upload it to your Kaltura Management Console account, click on the Download XML button. Click [here](#) to learn how to upload the XML file to your Kaltura Management Console account.

Source Channel ID:
(Required)

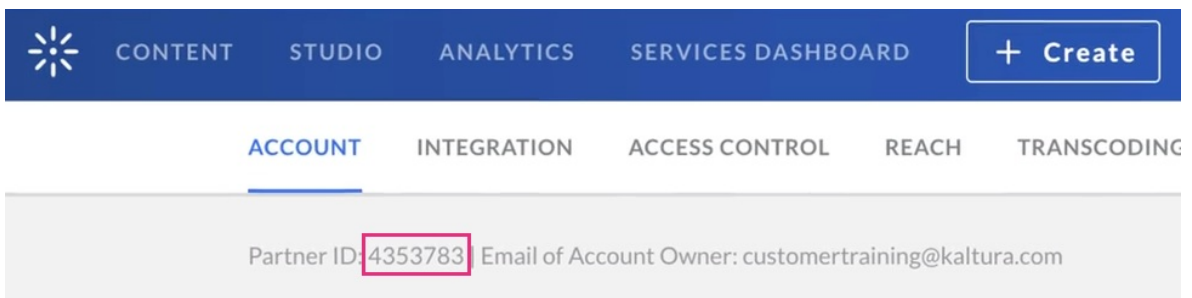

[Download XML](#)

3. Fill in the required information.

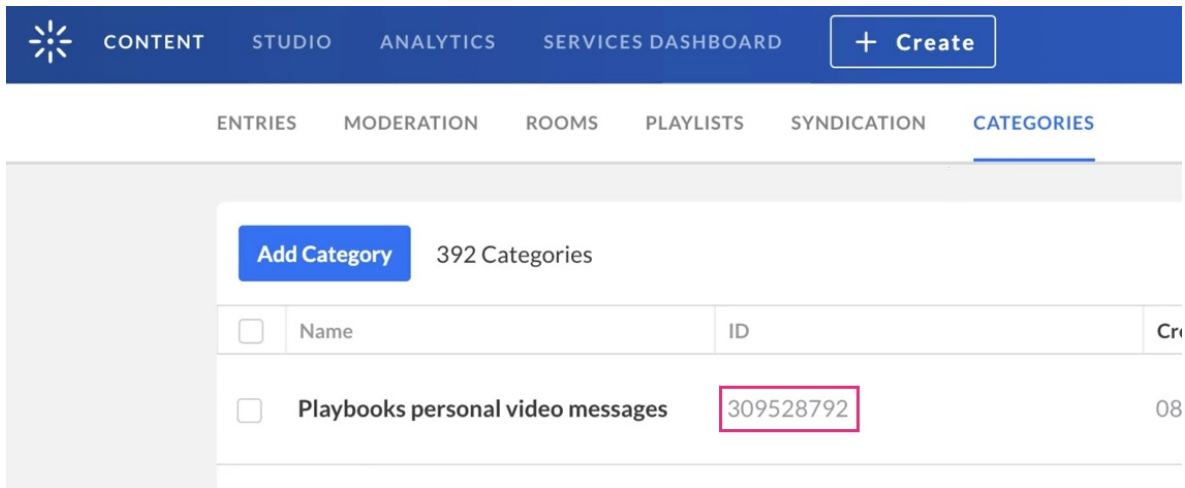

- a. **Source Channel ID** - ID of the Channel from which you want to copy content. The Channel ID number can be found in the URL of the channel. Simply open the desired channel in a new tab to view it.

- b. **Destination partner ID** - Partner ID to which you want to copy the videos. The Partner ID can be found by logging into your Kaltura Management Console (KMC) account. Click on the Settings button  and navigate to the **Account** tab to view it.

- c. **User ID and Password** - These are your Kaltura Management Console credentials.
- d. **Destination Category ID** - ID of the category with which you want to associate the content. The Category ID can be found in the URL of the category or by logging into your KMC account. Click the Content tab > Categories tab. Locate the appropriate category to view it.

<input type="checkbox"/>	Name	ID	Cre
<input type="checkbox"/>	Playbooks personal video messages	309528792	08

4. Click **Submit**.

You receive notification that your request was submitted successfully. You can monitor the upload progress in your KMC under Bulk Upload Log tab.

Another option is to manually download the XML and upload it to the KMC. Enter relevant source channel ID in the Source Channel ID field and click **Download XML**. To learn how to upload the XML file to the KMC, see the following video.
