About

In this guide, we'll show you how to remove media from a channel in your legacy Video Portal without deleting it from your account.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

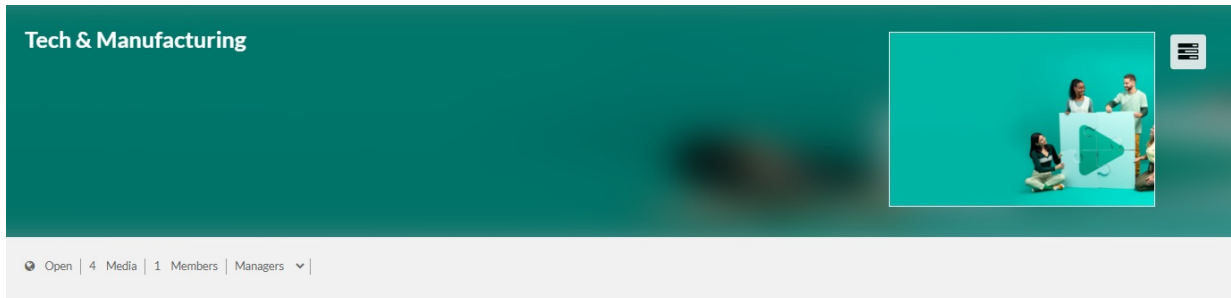

Remove media

1. Select **My Channels** from the user menu.

2. Click on a thumbnail to open the desired channel

The **Channel** page displays.

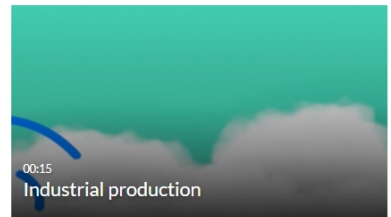

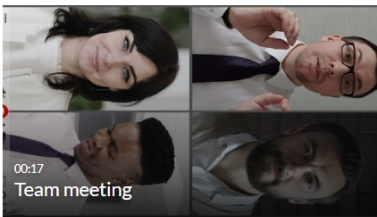

4 Media

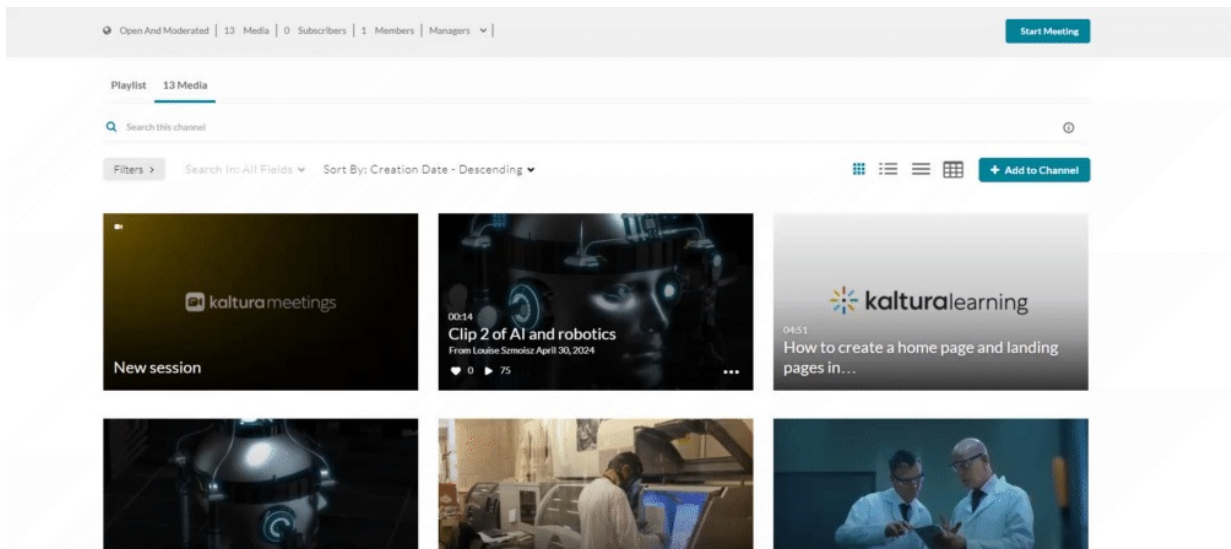

Search this channel

Filters > Search In: All Fields > Sort By: Creation Date - Descending >

+ Add to Channel

3. Click the **three dots** on the lower right side of the media item you want to remove.
4. Click the **remove button** (circle with 'x').

A confirmation message displays.

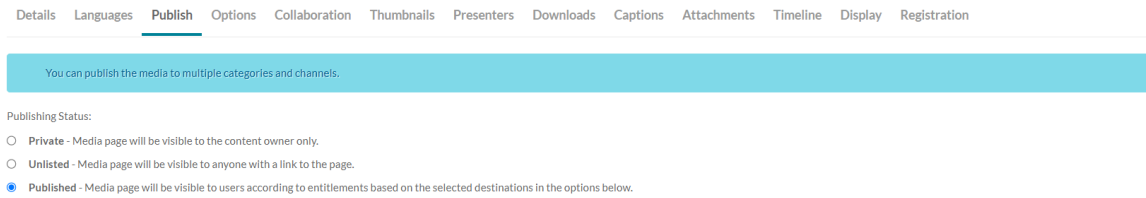

5. Click **Remove** to confirm the deletion.

Removing media from a channel will not delete it from your account. To learn more, see [Delete an entry](#) and [Restore items from the Recycle bin](#).

Unpublish a media item

1. On the media editing page, select the **Publish** tab.
2. Under **Publishing Status**, select **Private**.

This will unpublish the media from all categories/channels and all other applications.

3. Click **Save**.

To keep media published in other categories or channels, leave the published status unchanged and simply uncheck the channel you want to remove it from.
