

## Delete media from KMC

Last Modified on 11/15/2025 10:35 am IST

This article is designated for administrators.

## **About**

You can easily delete one or more media items you've uploaded to Kaltura Management Console.

If you only want to replace a video while keeping its analytics and metadata, see Replace videos in KMC.

## Delete media

1. Log into your KMC.

The **Entries** page displays by default.

2. Check the checkbox(es) next to the entry(ies) you want to delete.

The **trash can icon** displays at the top of the table.

3. Click the trash can icon.

A confirmation message displays: *Are you sure you want to delete the selected* entries? [entries] Please note: these entries will be permanently deleted from your account.

4. Click Yes to confirm.

You can delete multiple items at once (up to 35 at a time within 10 seconds). If you exceed this limit, you'll see an error message: BaseEntry.Delete API error: "Entries are not deleting."
