

## Navigation bar

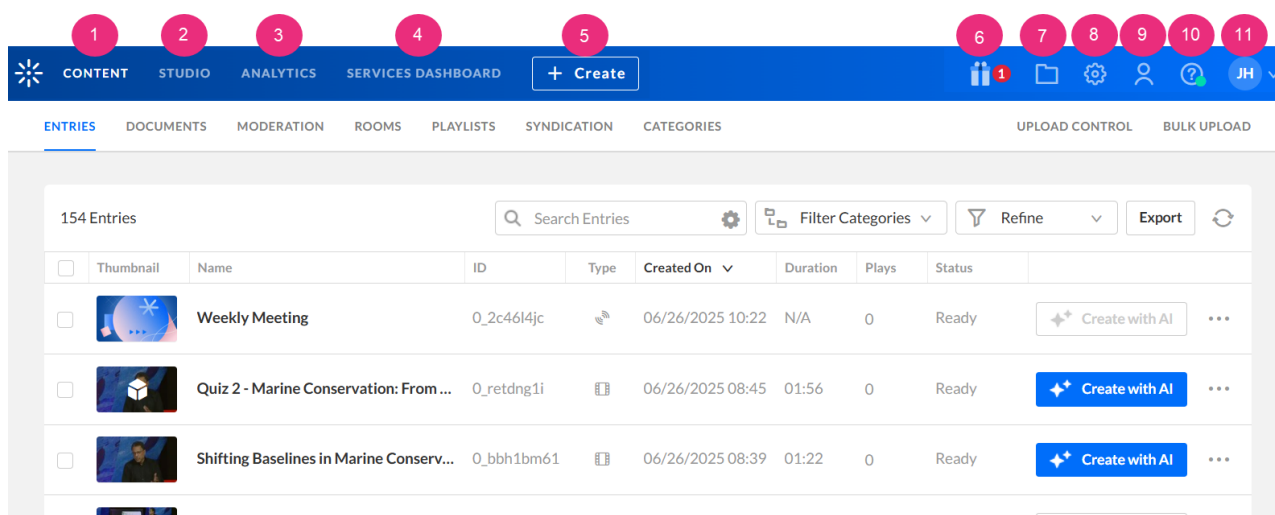

Last Modified on 06/27/2025 3:07 pm IDT

 This article is designated for administrators.

### About

The KMC navigation bar is at the top of the user interface within the KMC platform. The header contains essential navigation elements and options for administrators to access various features and functionalities.

### Navigation bar overview

**Content (1)** The Content tab provides all the tools you need to manage your media library. You can organize your content and metadata, easily search entries, edit, moderate, create playlists, and much more. See our article [Content menu](#) for more information.

**Studio (2)** The Studio tab is where you can create, configure, update, and design media players to embed on any domain. See our article [Introduction to the Player Studio](#) for more information.

**Analytics (3)** The analytics tab provides you with detailed dashboards, showing in-depth, granular data and actionable insights, on audience engagement and video usage. You can use these dashboards to optimize video content and performance and ensure their KPIs are met. See our article [Kaltura Analytics](#) to learn more.

**Services Dashboard (4)** The Services Dashboard is where you can find information related to caption and enrichment services, such as usage reports, current credit status, department billing, and more. See our article [Moderating Service Requests and](#)

[General Statistics](#) for more information.

**+Create (5)** The +Create button is used for uploading new content. See our article [Upload media](#) for more information.

**What's new (6)** This area highlights the latest product updates and important changes. It's where Kaltura shares timely announcements to keep you informed and up to date.

 **Upload Monitor (7)** The upload monitor displays uploads according to the way the entries were uploaded, and monitors the different types of uploads. Learn more in our article [Upload media](#).

 **Settings (8)** The settings tab displays a menu for the following settings:

- [Account](#)
- [Integration](#)
- [Access Control](#)
- [REACH](#) (Contact your Kaltura representative to enable this for you).
- [Transcoding](#)
- [Custom Data](#)
- [My User](#)
- [Account Information](#)
- [Authentication](#)
- [Automation Manager](#)

 **Administration (9)** The following tabs are available in the Administration menu: Users, Roles and Multi-account. See [Administration pages](#) to learn more.

 **Help (10)** The help tab provides links to Kaltura's Knowledge Center and Customer Care. A green dot indicates the site has undergone an update and you can click to see a record of all the changes and latest information. The Changelog is available at all times.

**Personal Preferences (11)** Use to logout, change accounts, and more. See [Log into the KMC](#) for more information.
