

# Navigate the Rich Media CMS interface

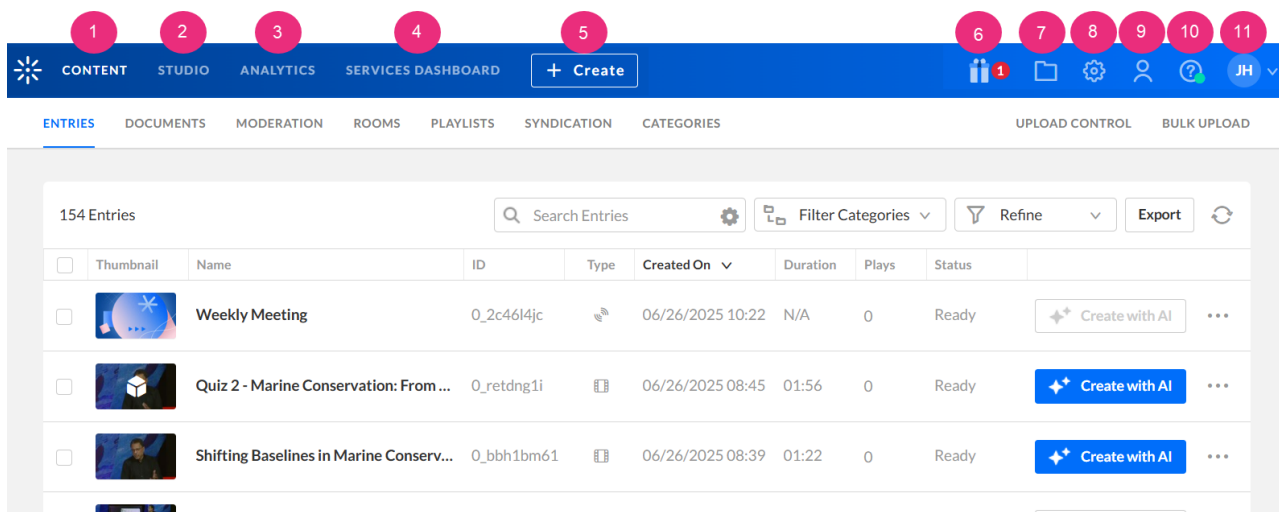

Last Modified on 05/06/2026 8:40 pm IDT

 This article is designated for administrators.

## About

When you log into Rich Media Content Management System (Rich Media CMS), you'll land on the **Content** page. From there, you can use the top navigation bar to move between different areas of your account.

## Navigation bar overview

**Content (1)** Upload and manage your media library. See our article [Content menu](#) for more information.

**Studio (2)** Create and customize media players. See our article [Introduction to the Player Studio](#) for more information.

**Analytics (3)** Explore viewer engagement and performance data. See our article [Kaltura Analytics](#) to learn more.

**Services Dashboard (4)** Track captioning and enrichment usage. See our article [Moderating Service Requests and General Statistics](#) for more information.

**+Create (5)** Upload new media. See our article [Upload media](#) for more information.

**What's new (6)** This area highlights the latest product updates and important changes. It's where Kaltura shares timely announcements to keep you informed and up to date.

📁 **Upload Monitor (7)** The upload monitor displays uploads according to the way the entries were uploaded, and monitors the different types of uploads. Learn more in our article [Upload media](#).

⚙️ **Settings (8)** The settings tab displays a menu for the following settings:

- [Account](#)
- [Integration](#)
- [Access Control](#)
- [REACH](#) (Contact your Kaltura representative to enable this for you).
- [Transcoding](#)
- [Custom Data](#)
- [My User](#)
- [Account Information](#)
- [Authentication](#)
- [Automation Manager](#)

👤 **Administration (9)** The following tabs are available in the Administration menu: Users, Roles and Multi-account. See [Administration pages](#) to learn more.

📖 **Help (10)** Access the Knowledge Center and Changelog.

**Personal Preferences (11)** Use to logout, change accounts, and more. See [Log into the Rich Media CMS](#) for more information.
