

## GroupPage module

Last Modified on 04/18/2026 6:52 pm IDT

 This article is designated for administrators.

### About

Once enabled, this module allows you to create a dedicated 'group page' where users from a group are displayed in a tidy grid layout, while promoted users take the spotlight in a carousel.

Each page can display up to 500 users. The groups are created and managed in the 'Manage Groups' section of the Configuration Management console.

This feature requires the [Theming module](#) and [PersonalProfile module](#) to be enabled.

## Configure

1. Go to your Configuration Management page, and click the **GroupPage** module. You can also navigate directly: [https://{your\\_site\\_URL}/admin/config/tab/grouppage](https://{your_site_URL}/admin/config/tab/grouppage).

### Grouppage

**Module Info**

**Description**

Once enabled, this module provides a new type of pages in the application - Group page. In the group page, users from the group will be displayed in a grid and promoted users will be displayed in a carousel. Groups can be created and edited from the **Manage Groups**. Number of users presented on the page is limited to 500.

**Note**

KMS only Module. Depends on the **Theming module** and **personalProfile module**

enabled  No  Enable the Grouppage module.

**groups**

Select a group that will be displayed in a page + Add "groups"

2. Configure the following:

**enabled** - Set to 'Yes' to enable the module.

**groupPage**

**groupId** - Click **Select Groups** and type in the group name that you want display on the group page. If a corresponding user group has been configured, the system will trigger auto-complete.

\* DELETE

**groupid**

Select Groups Select a group that can be displayed in a group page.

---

**title**

Enter a title (plain text) for your group's page. This title will show at the top of page and also on the browser tab title. Leave empty to use the group's name.

---

**description**

**title** - Enter a title for the group page. This title will show at the top of page and also on the browser tab. If left empty, the group's name will be used.

**description** - Add a description to display at the top of the group page.

**showSearchIndicator** - Check this box to display a search bar, and the number of group members along with the word *users*. You can customize the word *users* in the **searchindicator** fields below.

**showSearchIndicator**

show indicator

If showSearchIndicator is checked, complete the following fields:

**searchIndicatorSingle** - Enter text (for example, *Speaker, Presenter*). If left empty, the default word *User* will be displayed.

**searchIndicatorPlural** - Enter text (for example, *Speakers, Presenters*). If left empty, the default word *Users* will be displayed.

Please note you must input **both** the singular and plural forms, otherwise the default 'users' will be displayed.

**pageSlug** - Enter a unique semantic slug for the group page. This will be used in the link to the group page URL (for example, [www.yourvideoportal/{pageSlug}](http://www.yourvideoportal/{pageSlug})). Only lowercase alphanumeric characters are allowed. If left empty, the group ID will be used in the URL.

**permission** - From the drop-down, select the minimum role allowed to access the page:

- Guest override
- anonymousRole
- viewerRole
- privateOnlyRole
- adminRole
- unmoderatedAdminRole
- Specific Users/Groups

Select the minimum role allowed that can access this page. Set as 'anonymousRole' to allow guests to view the page. If your KMS does not support anonymous users, choose 'guest override' to make this page public to all.

Click **+Add 'groupPage'** and repeat the process to create another group page.

## promoteUsers

This allows you to 'promote' users to a carousel above (limited to 20 users).

Click **+Add "promotedUsers"** and then configure the following:

**promotedUsers**

Add users to promote.

\* **DELETE**

**user**

**Select Users** Search for users to promote.

---

**order**

Mandatory field. Enter a number to order the promoted users. Promoted users are ordered from left (lower order value) to right (higher order value) in the carousel.

**+ Add "promotedUsers"**

- **userId** - Click **Select Users** and choose users to promote. If a corresponding user has been configured, the system will trigger auto-complete.
- **order** - Specify the order of promoted users in the carousel. Promoted users are arranged from left (lower value) to right (higher value) within the carousel.

Repeat this process to add more promoted users.

3. Click **Save**.
