 This article is designated for all users.

About

The Team tab allows account owners/admin to add team members, edit team member information, and delete team members.

The Team tab is accessible via the Kaltura Events Home page and is only available to account owners/admin. To learn more about the other tabs on the Kaltura Events Home page, see [Kaltura Events - Account setup](#).

2. Enter email address, first, and last name of the new team member. These are all required fields.
3. Choose the type of team member this person will be.
 - **Admin** - The platform admin; the one who has access to all configurations and events created for this account, adds/removes team members, and manages their user type.
 - **Organizer** - manages specific event(s). The Organizer has full access only to

events they manage and within them can manage and configure all the different capabilities, settings, content, and people. Organizers are also assigned as moderators on their events.

- **Content manager** - manages content of a specific event(s). Responsible for curating, organizing, and managing the content that will be presented during the event. Content managers cannot create events and do not have access to the full user list, analytics, and reports.

For more information, see [Event user roles](#).

4. If you choose Organizer or Content manager, an additional field displays - Assign events.
5. Start entering the event name to search or expand the Assign events pull-down menu to see available events, then click the boxes next to the events you would like this new team member to manage.
