About

Uploading media from your desktop to your video portal is quick and easy. Simply follow the steps below to share your videos, audio files, and images.

You can upload single or multiple files at once, edit metadata, and publish them in bulk - all during the upload process.

These instructions apply to the **legacy Video Portal**. If you're using the new Video Portal with Theming, see the [Content Hubs category](#).

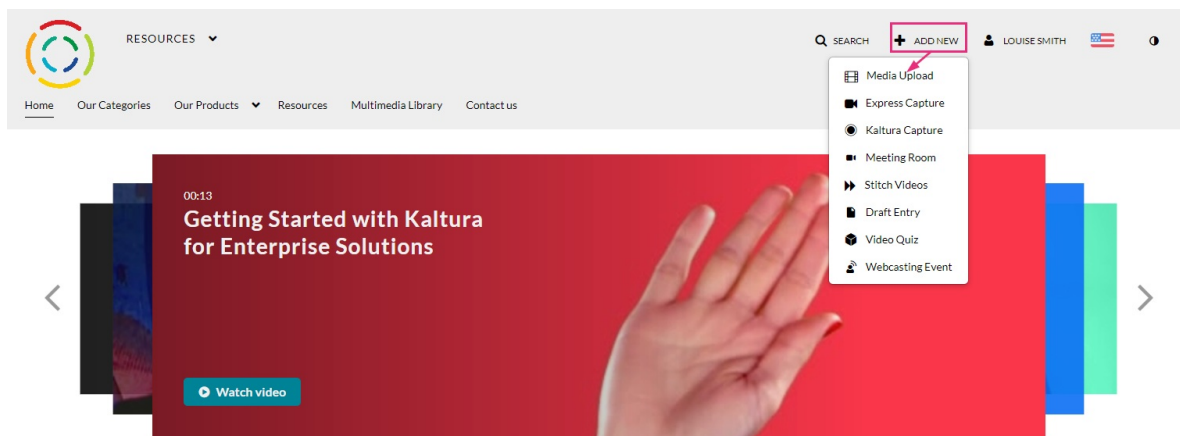

A user with an application role of privateOnlyRole and higher (adminRole, unmoderatedAdminRole) can upload content to Video Portal.

Upload media

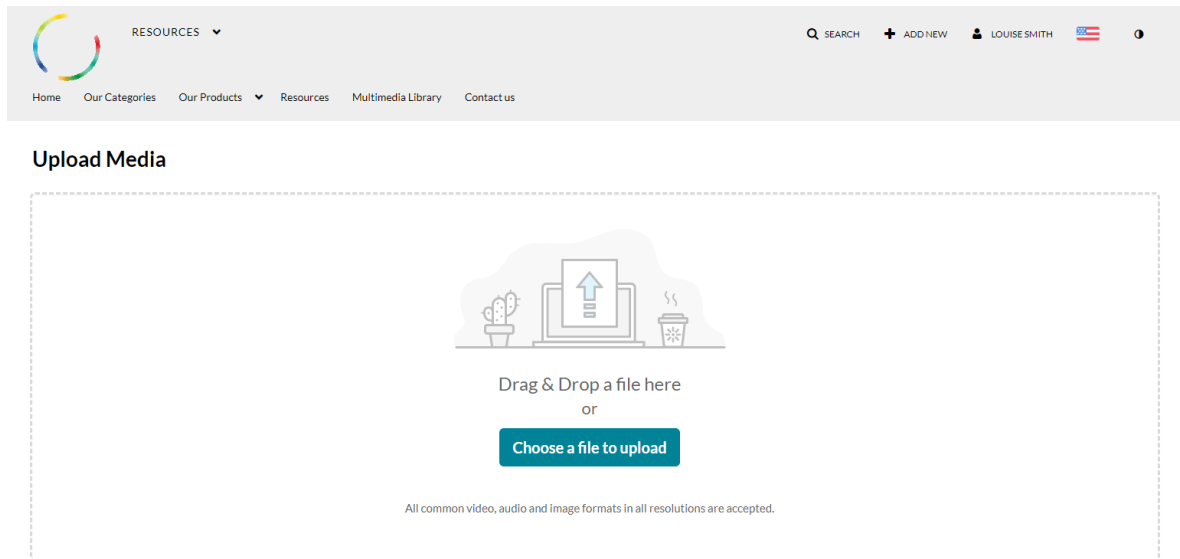

To upload a YouTube video, please see our article [Add a YouTube video](#).

1. At the top right of your video portal, click **Add New** and select **Media Upload** from the drop-down menu.

The Upload Media page displays.

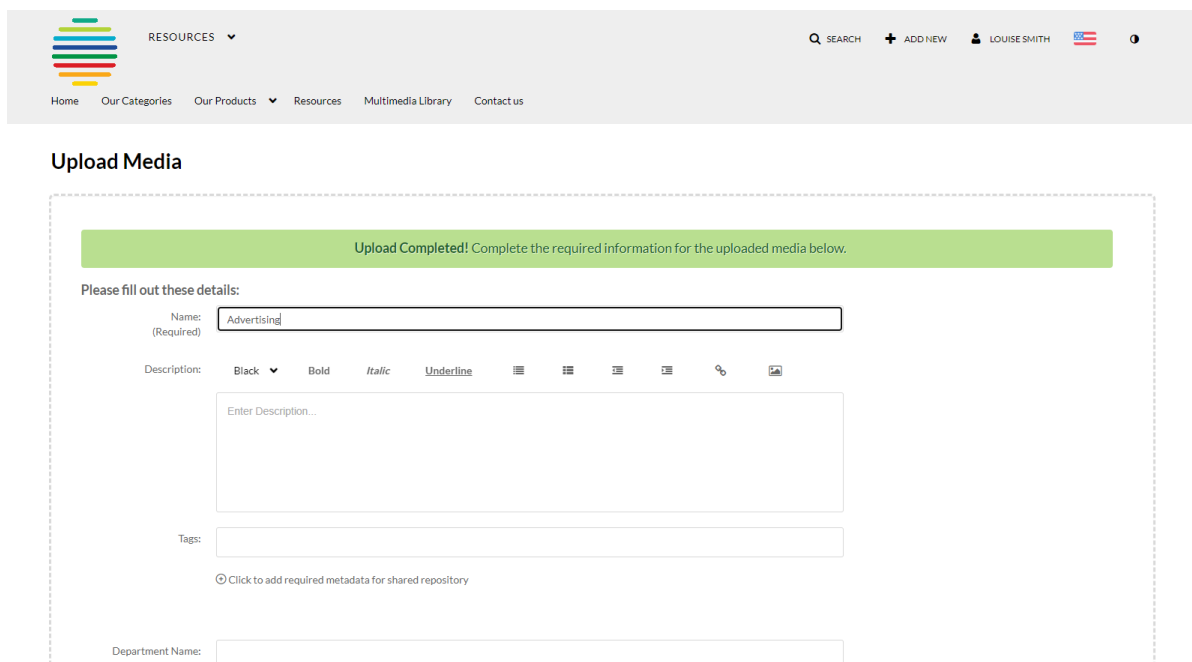

Drag and drop your file.

OR

2. Click **Choose a file to upload** and select a media file from your computer.

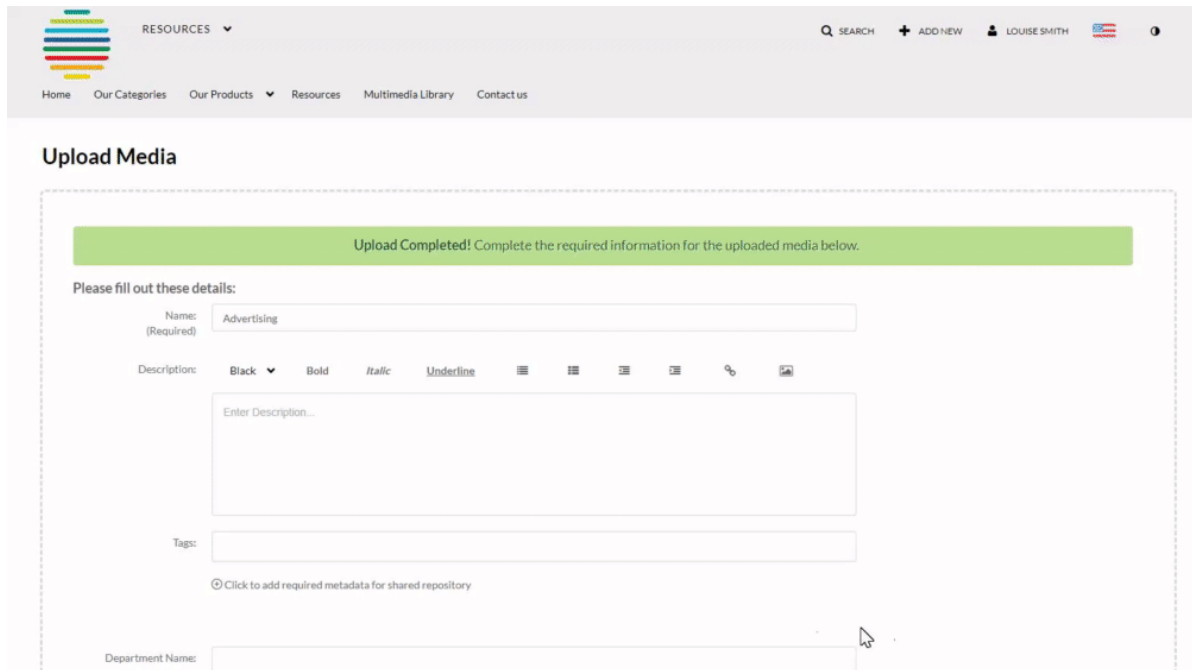

While the file is uploading, you can enter metadata or click **Cancel** to cancel the upload.

Once the file has uploaded, a success message displays: *Upload completed.*

3. Complete the fields as desired, then scroll down and click **Save**.

You can click **Go to Media** to navigate to the media page or click **Go to My Media** to navigate to your [My Media](#) library.

To upload another file, scroll down and click **Choose another file** and repeat the steps above.

After a video or audio is uploaded, it is converted for optimal playback. (Note you cannot preview or publish a video during conversion.)

If an error occurs while uploading, please check your network connection.

Publish your media

You can publish your media directly from the upload page.

1. Click the **Published** option (you must first click **Save**).
