Error slate

Last Modified on 09/06/2025 3:48 pm IDT

This article is designated for all users.

About

The **Error slate** setting allows you to set an alternative image to be used as a background for player error messages. Simply enter an image URL and that image will be used as the background for all error slates.

Setup

To learn how to set the Error state background on the player, see Visual settings in player.
