ChannelTv module

Content updated: 05/31/2024

This article is designated for administrators.

About

This module provides the ability to display the scheduled content of **Main Stage** - an interactive agenda that guides viewers through an event, ensuring nothing is missed. The agenda appears in the side panel, featuring vertical navigation for effortless browsing of all scheduled sessions.

Once the ChannelTV module is enabled, a new checkbox field named "Enable the channel TV for sessions on this channel" will be added to the channel edit page in the Video Portal, allowing channel owners to enable or disable the ChannelTV feature.

Only entries within the context of the Video Portal channel will display in the Main Stage. Entries published in multiple places won't appear in the agenda unless viewed within the specific channel context.

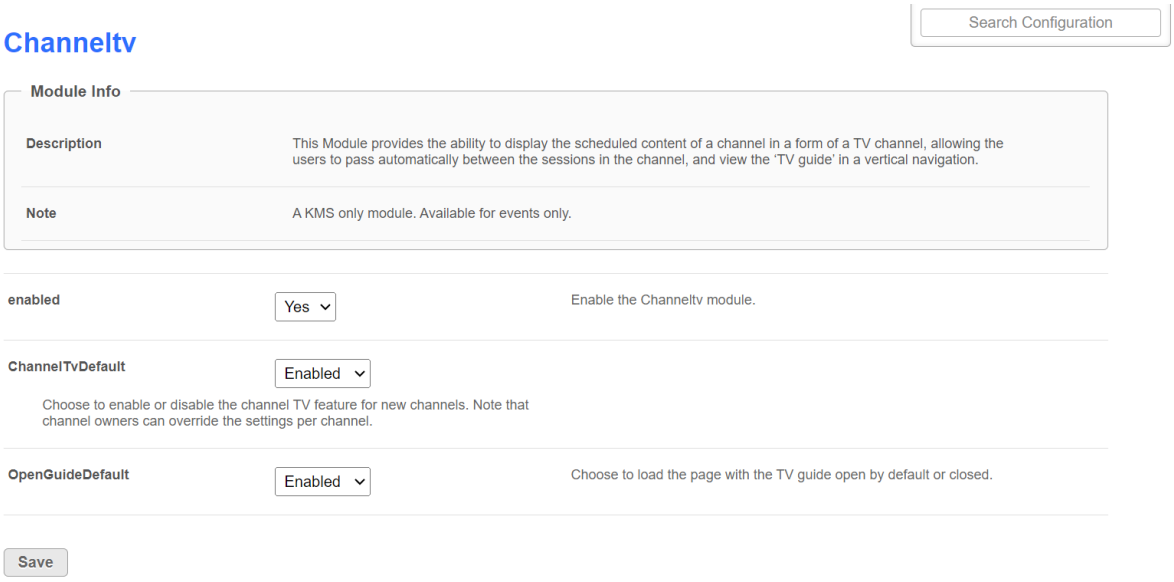

This module is exclusive to Events. The **Eventplatformcore module** must also be enabled for this module to work.

Configure

1. Go to your Configuration Management console, locate the **Channeltv** module in the left panel, then select it. You can also navigate directly using a link: `https://{your_site_URL}/admin/config/tab/channeltv`.

The **ChannelTv** module page displays.

2. Configure the following:

enabled - Set to 'Yes' to enable the module.

ChannelTvDefault - Choose to enable or disable the channel TV feature for new channels. Note that channel owners can override the settings on the channel edit page. The default is 'enabled'.

OpenGuideDefault - Choose to enable or disable loading the page with the C&C widget (with agenda tab) open by default or closed.

Please note there's an **OpenByDefault** toggle in the chatandcollaboration module. If this is set to 'No' but **OpenGuideDefault** is enabled in this module, the C&C widget will still open.

3. Click **Save**.
