

Publish media - Theming

Last Modified on 12/15/2024 2:32 pm IST

 This article is designated for all users.

About

All uploaded media is kept private by default (unless your administrator has set it up differently), when you are ready to share it with others, simply publish it to a channel or gallery on your video portal. Check out our easy step-by-step guide below!

 Publish your media only when file conversion is complete, and the media is not waiting for moderation.

 You must be the media owner or co-publisher to publish media. Ask your administrator to give you the required permission.

 The instructions below are for [Theming](#) users. If you don't have Theming enabled, please refer to our article [Publish media](#).

Access the publish menu

Via the media page

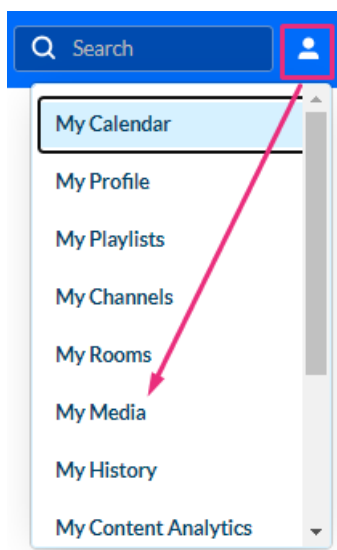

1. Navigate to the desired entry (for example, from your [playlist page](#), [channel](#) or [media page](#)).
2. Click on the media's thumbnail or title.
The media page displays.
3. Once you're on the media page, click the **three dots** under the player and select **Publish status**.

The Publish status menu displays.

Via My Media

1. Select **My Media** from the user menu.

The **My Media** page displays.

Anyone entitled to the published destination can watch

The **Publish status** menu displays three options:

- **Private** - Only I can watch
- **Unlisted** - Anyone with the link can watch
- **Publish** - Users entitled to the published destination/s can watch

If this is your first time publishing the media, the status will be **Private**. If this isn't the first time, the menu will have the option to **Change publish locations**.

 In addition to publishing, you can use this menu to change the status of media items. See [Change status](#) below.

 The **Unlisted** option is unavailable in KAF by design. For information about KAF applications, go to [Publish media in KAF](#).

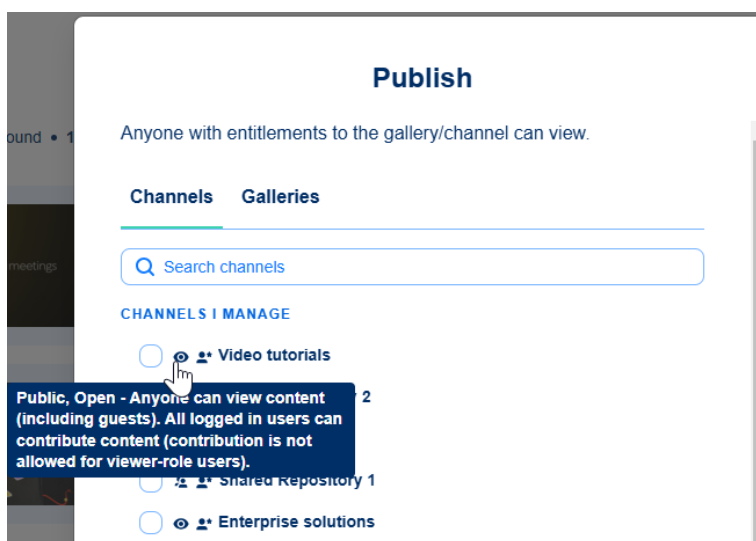

1. Click **Publish** (or **Change publish locations**).

 If the **Publish** option is grayed out, please see [below](#).

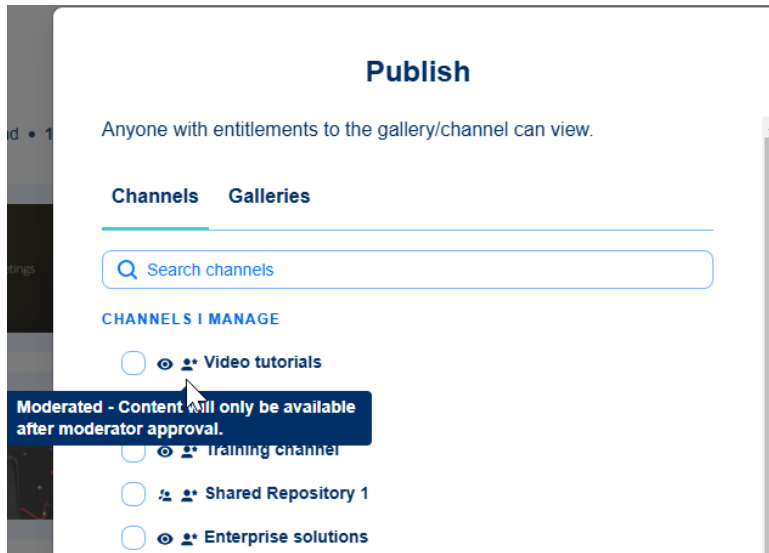

The **Publish** window displays.

- The top section (1) shows any currently selected channels or galleries.
- The lower section (2) displays tabs for **Channels** (and Media galleries in KAF) and **Galleries**. Checking or unchecking a box will add / remove the name from the top section.
- Each channel / gallery has an icon next to it indicating category type (3). Hover to see information.

- Each channel / gallery has a 'privacy' icon next to it (4). Hover to see privacy information.

✔ To learn about privacy settings of channels, visit our article [Understanding channels](#). For privacy settings of galleries, check out [Understanding galleries](#).

2. Click the boxes next to the Channels (Media galleries in KAF) and Galleries (section 2) you want to publish the media to.

✔ You can use the **Search box** to find the desired channel or gallery. Note: Search results display sub-galleries with their parent galleries. If you have permission to publish to a sub-gallery but not the parent gallery, the parent gallery will show a grayed-out checkbox.

After making your selection, the number of Channels (Media galleries in KAF) and Galleries where the media is (or will be published) displays at the bottom left of the window.

Change publishing status

From the [Publish status menu](#), you can change the status of your media.

⚠ If you set an entry to **Private** or **Unlisted**, it will be removed from all categories, even those you don't have access to.

- If the media is set as 'private', and you click **Unlisted**, the following message displays: *Are you sure you want to set this media to unlisted? It will be available to any user with a link.*

Exceptions tab

Exceptions are:

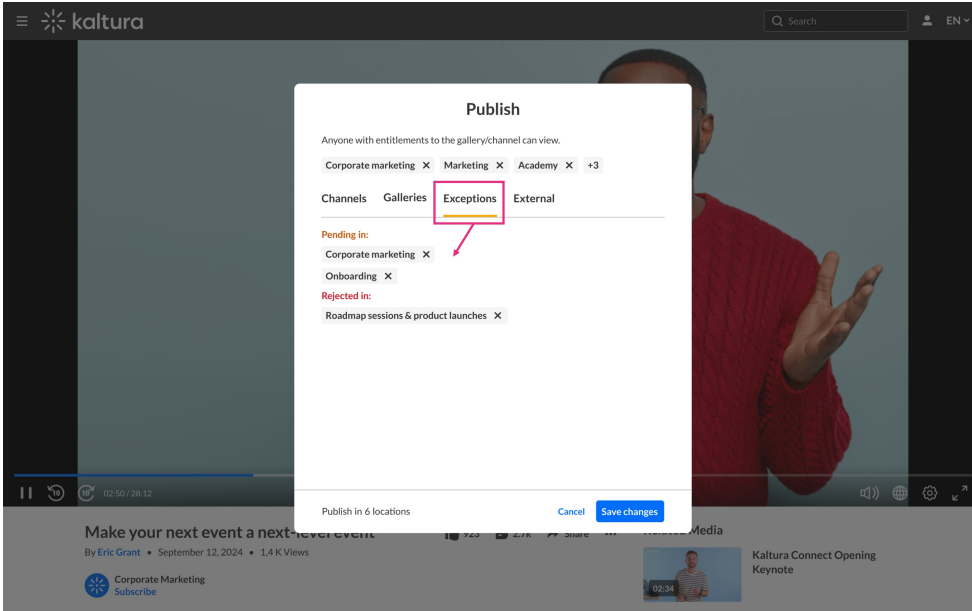

- content that is **rejected** in a category.
- content that is **pending moderation** in a category.

Once such exceptions exist, an alert displays: *Media is pending and rejected in [x] [channels/galleries].* You can click [See list](#) to open the **Exceptions** tab.

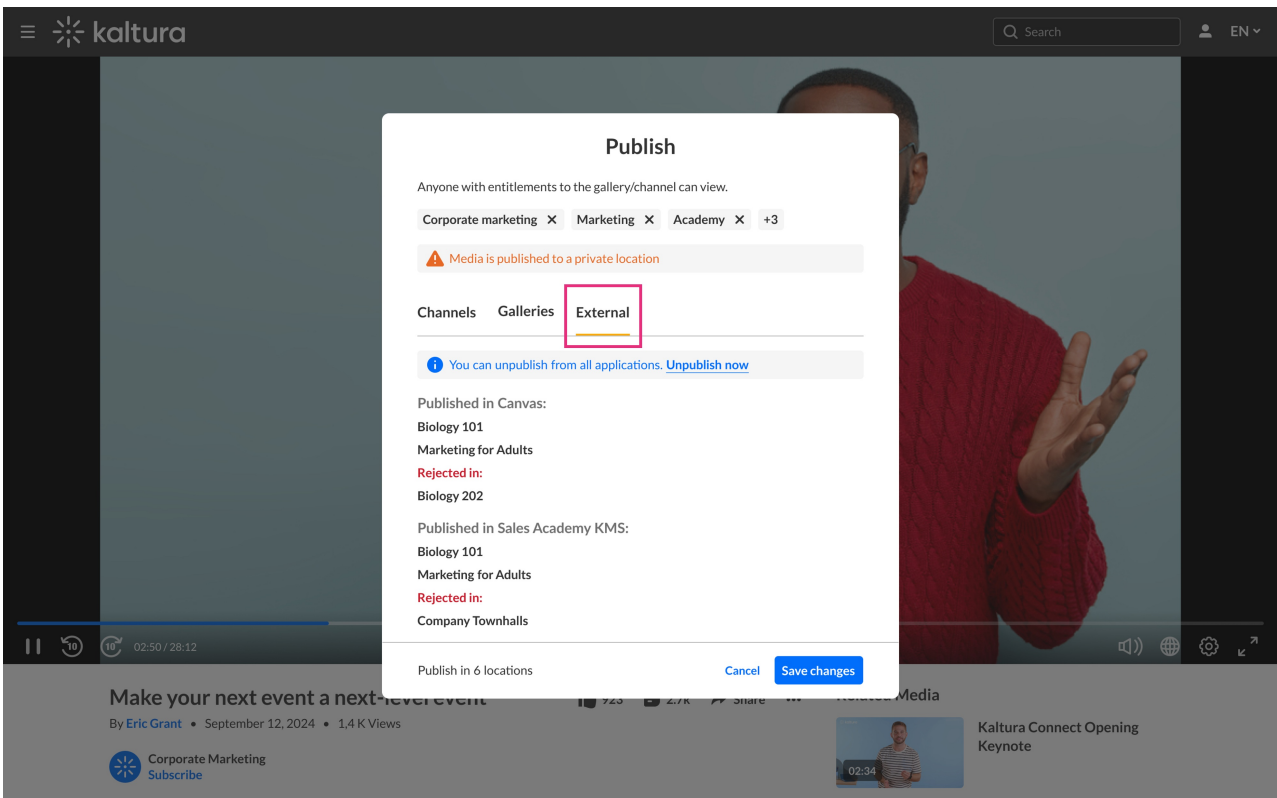

The **Exceptions** tab allows you to:

- see the categories where the media is pending or rejected.
- remove the media from these categories by clicking on the “x”. (Once removed, it will also be removed from the list of categories at the top.)

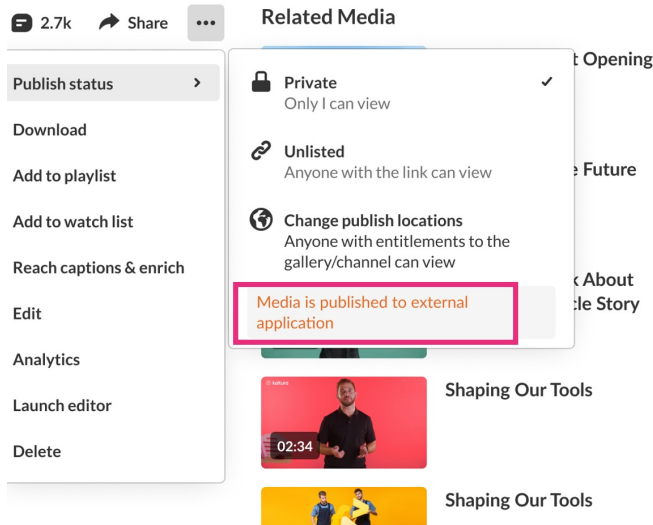

External tab

When media is published or pending in an external application, an alert displays on the

Publish status menu: *Media is published to external application.*

 This alert and tab will only display if **showExternalPublish** has been enabled in the [Categories module](#).

You can click **Change publish locations** to open the Publish window, and then click the **External** tab to see the applications where the media is published, rejected, or pending.
