Publish media in Content Hubs

Last Modified on 04/11/2026 11:53 am IDT

👥 **This article is designated for all users.**

About

All uploaded media is kept private by default (unless your administrator has set it up differently), when you are ready to share it with others, simply publish it to a channel or gallery in your Content Hubs.

If enabled by your administrator, your institution may also require captions before media can be published. This feature supports compliance with accessibility regulations in the EU and US by ensuring all published media includes captions. Read more below.
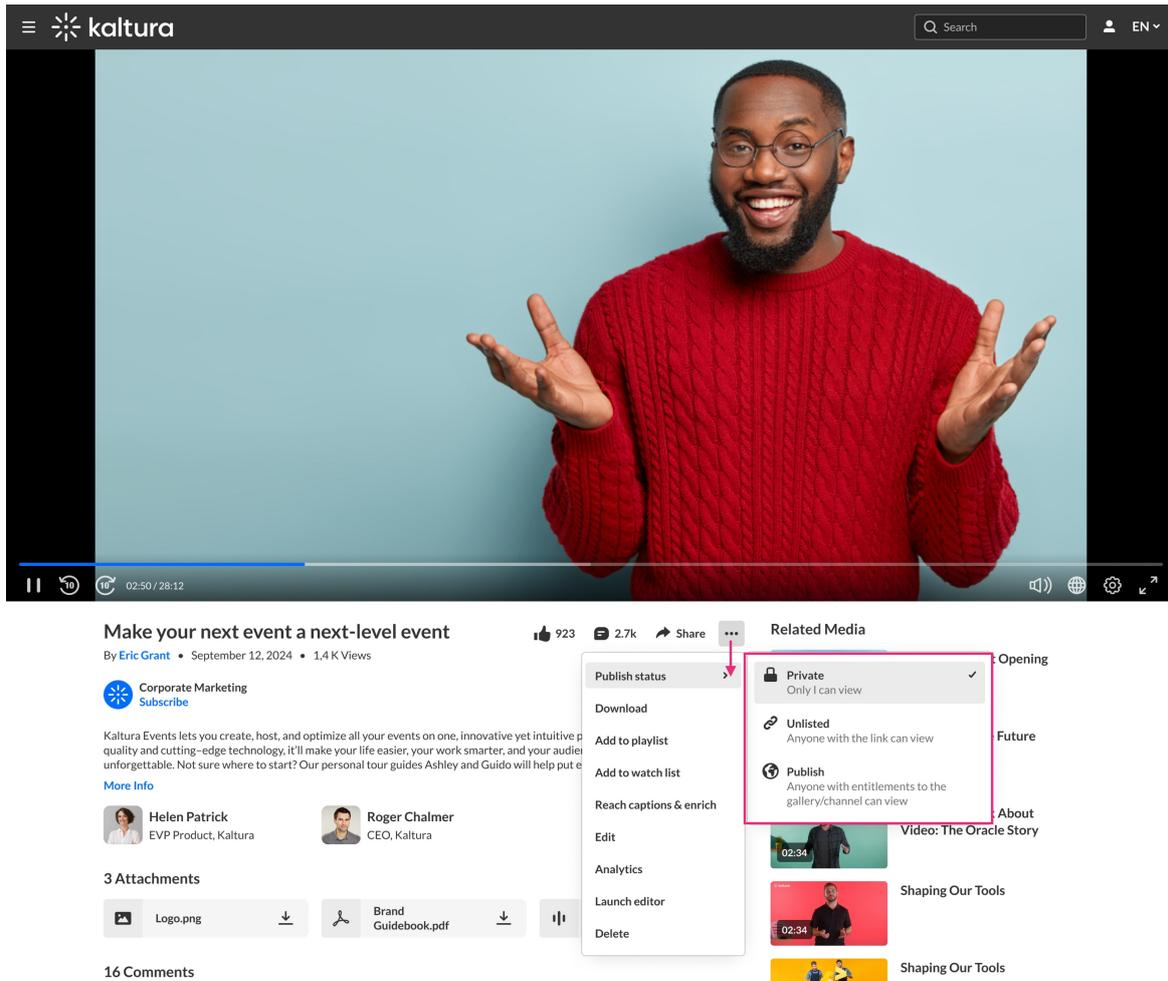

> ℹ️
> - You need to be the media owner or co-publisher to publish media.
> - If you don't see the **Publish** option in your menu, ask your administrator to enable the Publish module.
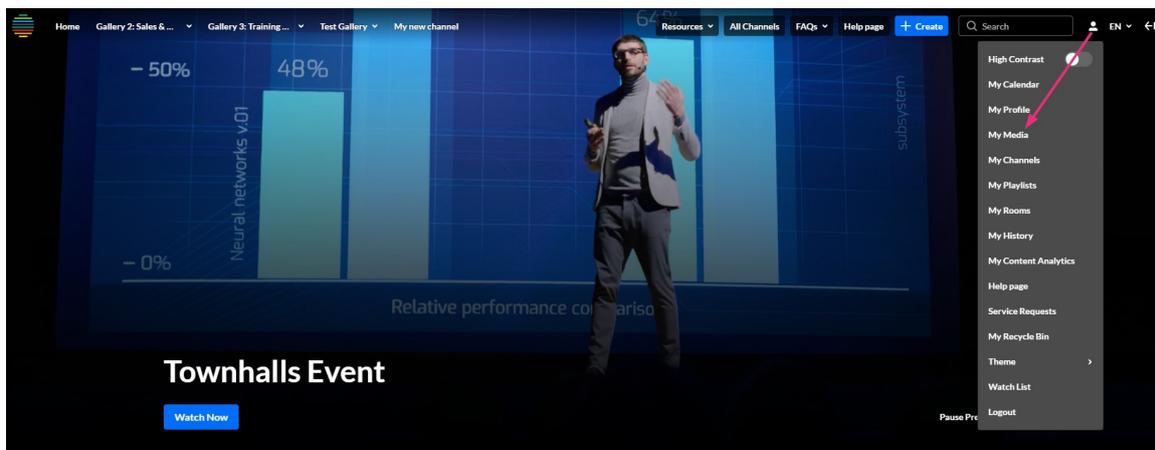

Access the publish menu

Via the media page

1. Navigate to the desired media page.
2. Once you're on the media page, click the **three-dot menu** under the player and select **Publish status**.

The Publish status menu displays.

Via My Media

1. Select My Media from the user menu.

The 'My Media' page displays.

2. Click the **three dots** to the far right of the entry.

3. From the drop-down menu, select **Publish status**.

The 'Publish status' menu displays.

Bulk action

1. To publish more than one item, check the boxes on the upper left of the desired media items.

2. Scroll to the top of the page, and click **Publish**.

> ℹ️ The 'Publish' option only displays after you have selected at least one item.

Publishing options

The 'Publish status' menu displays three options:

- **Private** - Only I can watch
- **Unlisted** - Anyone with the link can watch
- **Publish** - Users entitled to the published destination/s can watch

If this is your first time publishing the media, the status will be **Private**. If this isn't the first time, the menu will have the option to **Change publish locations.**

> ✅ In addition to publishing, you can use this menu to change the status of media items. See Change status below.

> ℹ️ The **Unlisted** option is unavailable in LMS Video by design. For information about LMS Video applications, go to Publish media.

1. Click **Publish** (or **Change publish locations**).

   > ℹ️ If the **Publish** option is grayed out, please see below.

   The **Publish** window displays.
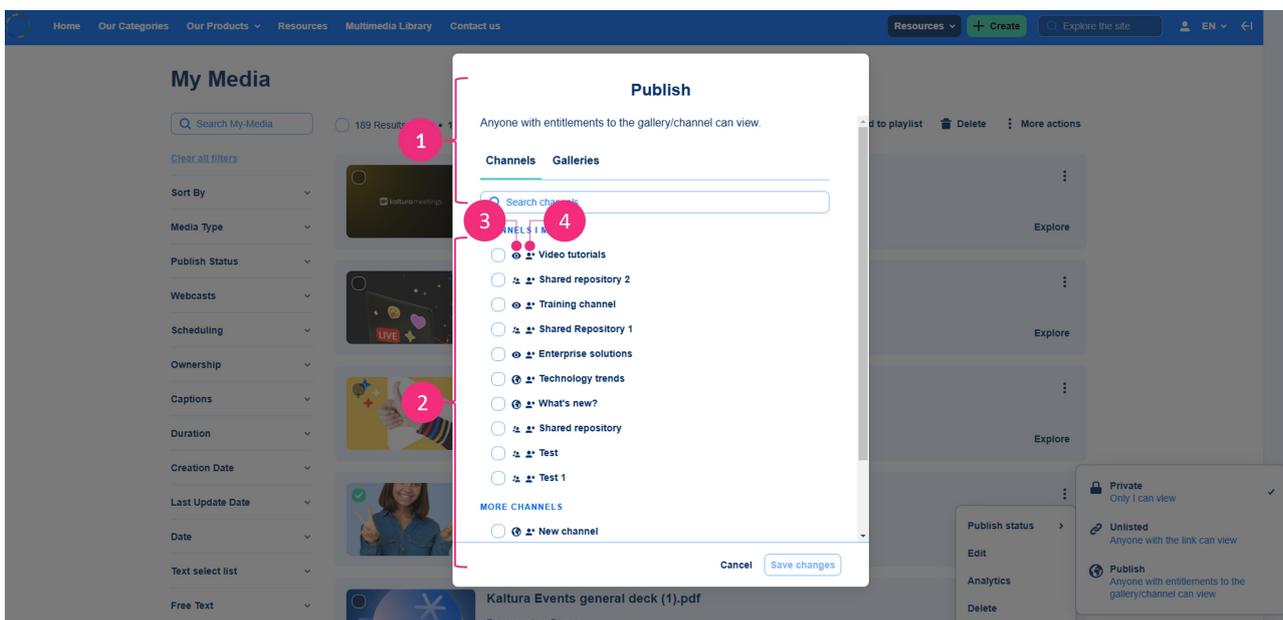

- The top section (**1**) shows any currently selected channels or galleries.
- The lower section (**2**) displays tabs for **Channels** (and Media galleries in your LMS) and **Galleries**.
  Select a checkbox to publish the media to that location. Clear a checkbox to remove the media from that location. As you select or clear checkboxes, the list at the top updates automatically to reflect your changes.
- Each channel / gallery has an icon next to it indicating category type (**3**). Hover to see information.
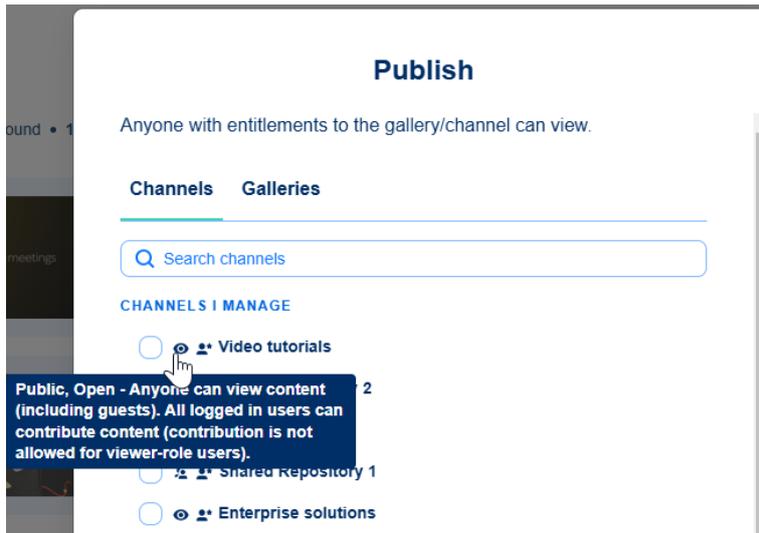

- Each channel / gallery has a 'privacy' icon next to it (**4**). Hover to see privacy information.
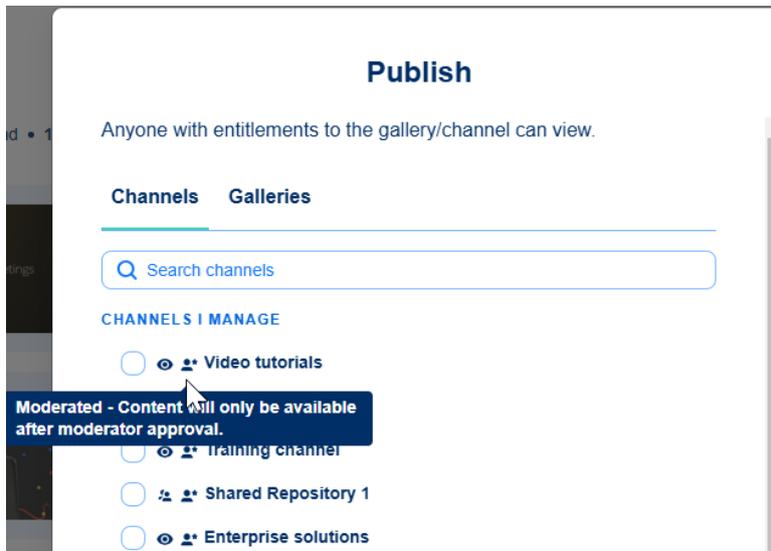

✅ To learn about privacy settings of channels, visit our article Understanding channels. For privacy settings of galleries, check out Understanding galleries.

2. Click the boxes next to the Channels (Media galleries in your LMS) and Galleries (section **2**) you want to publish the media to.

✅ You can use the **Search box** to find the desired channel or gallery. Search results display sub-galleries with their parent galleries. If you have permission to publish to a sub-gallery but not the parent gallery, the parent gallery will show a grayed-out checkbox.

After making your selection, the number of Channels (Media galleries in LMS) and Galleries where the media is (or will be published) displays at the bottom left of the window.

3. Click **Save changes**.

A success message displays: *Media successfully published.*

Change publishing status

From the Publish status menu, you can change the status of your media.
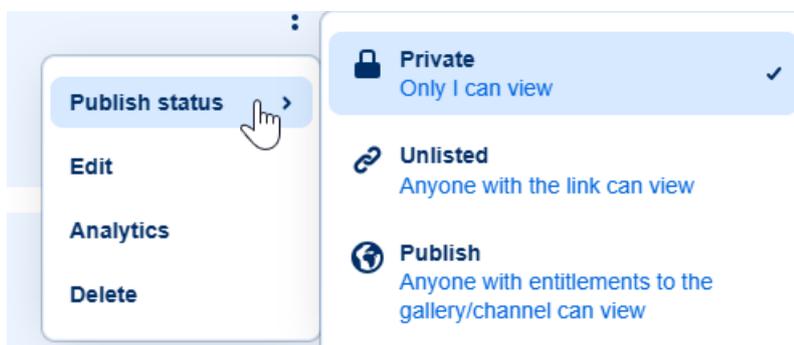

⚠️ If you set an entry to **Private** or **Unlisted**, it will be removed from all categories, even those you don't have access to.

- If the media is set as 'private', and you click **Unlisted**, the following message displays: *Are you sure you want to set this media to unlisted? It will be available to any user with a link.*

Set media as unlisted

Are you sure you want to set this media as unlisted? It will be available to any user with a link.

Cancel   Save

- If the media is 'unlisted' or 'published', and you click **Private**, the following message displays: *Are you sure you want to set this media as private? It will be removed from all published locations in this application.*
The message displays the current channels this media is already published to. These are clickable and open in a new tab.

Set media as private

Are you sure you want to set this media as private? It will be removed from all published locations in this application.

Cancel   Save

- If the media is published to a category that you can view but can't publish to (for example, a restricted channel where you lack manager permissions), you can remove it by clicking the 'x' and then saving.

> ⚠️ After saving, you **won't be able to publish to that category again** and it will disappear from the list of checkboxes since only categories you can publish to are shown.

Publish

Anyone with entitlements to the gallery/channel can view.

Publish in 2 locations   Cancel   **Save changes**

If the media is published to a channel you can't see, you will get the following message:

- *Media is published to a private location*
  This includes all categories you don't have access to, covering all statuses: published, rejected, and pending.

⚠️ Media is published to a private location

Exceptions tab
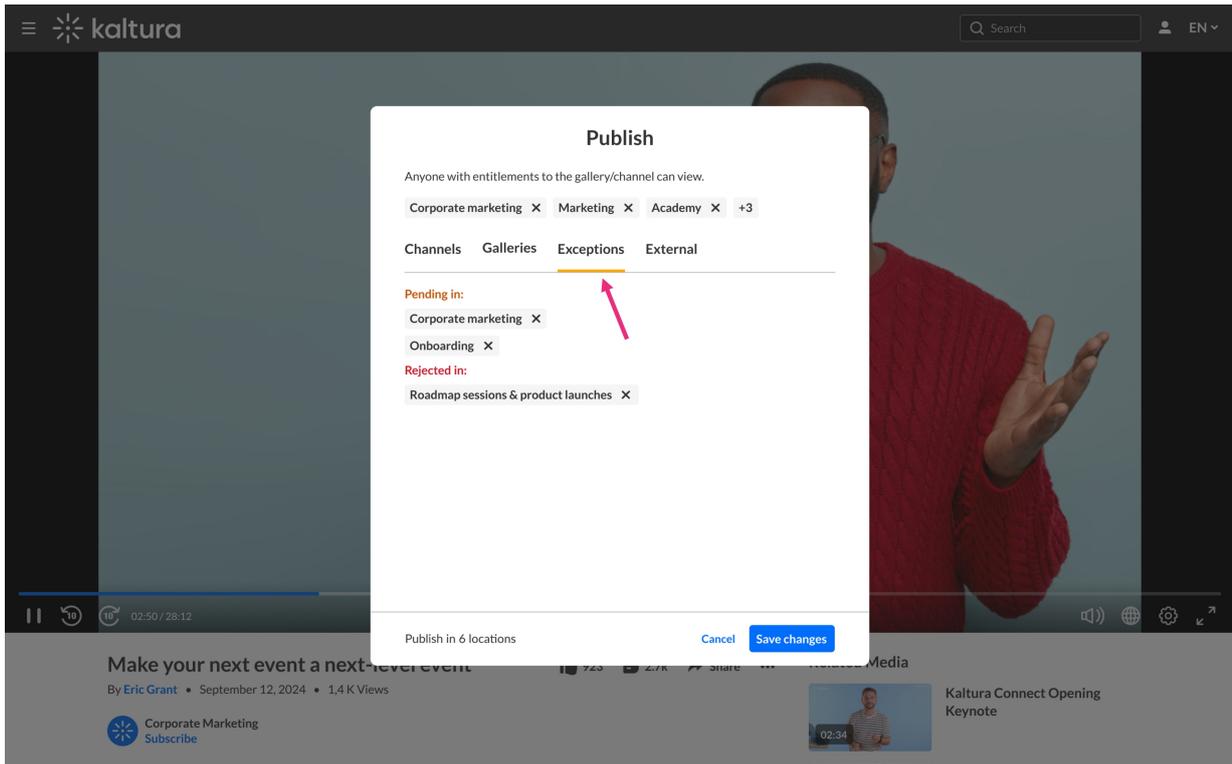

Exceptions are:

- content that is **rejected** in a category.
- content that is **pending moderation** in a category.

Once such exceptions exist, an alert displays: *Media is pending and rejected in [x] [channels/galleries]*. You can click **See list** to open the **Exceptions** tab.
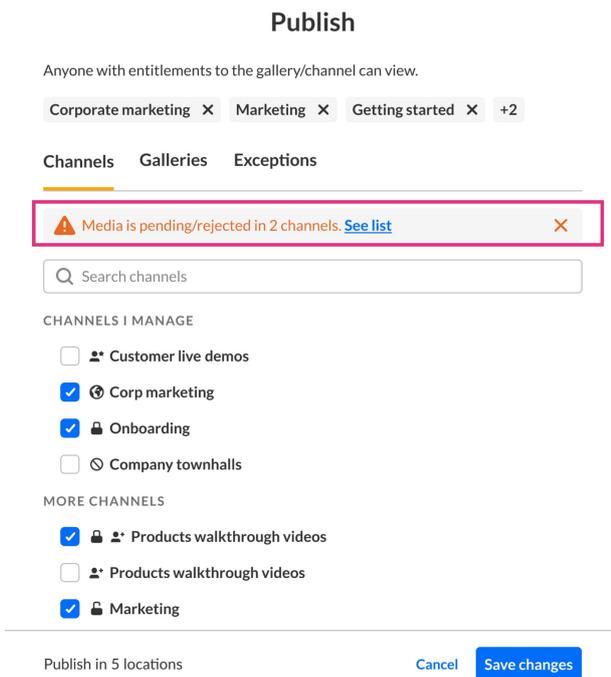

The **Exceptions** tab allows you to:

- see the categories where the media is pending or rejected.
- remove the media from these categories by clicking on the "x". (Once removed, it will also be removed from the list of categories at the top.)
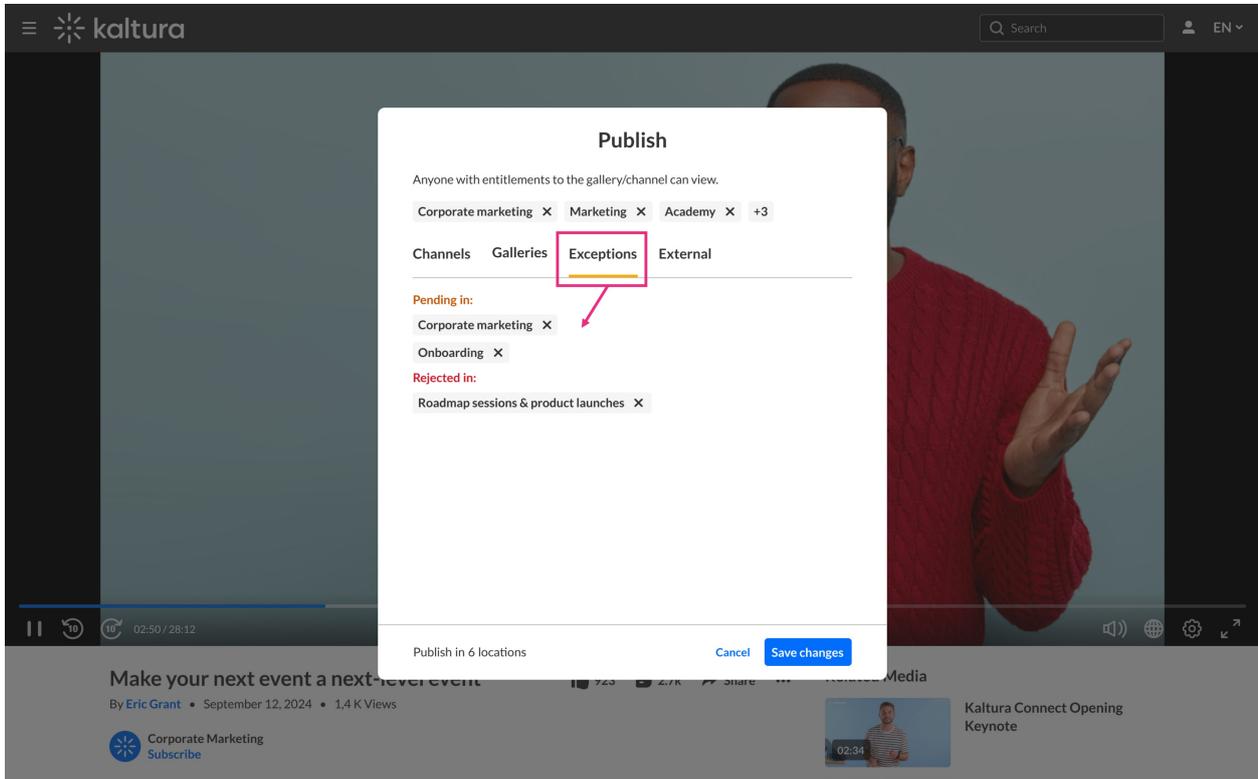

External tab
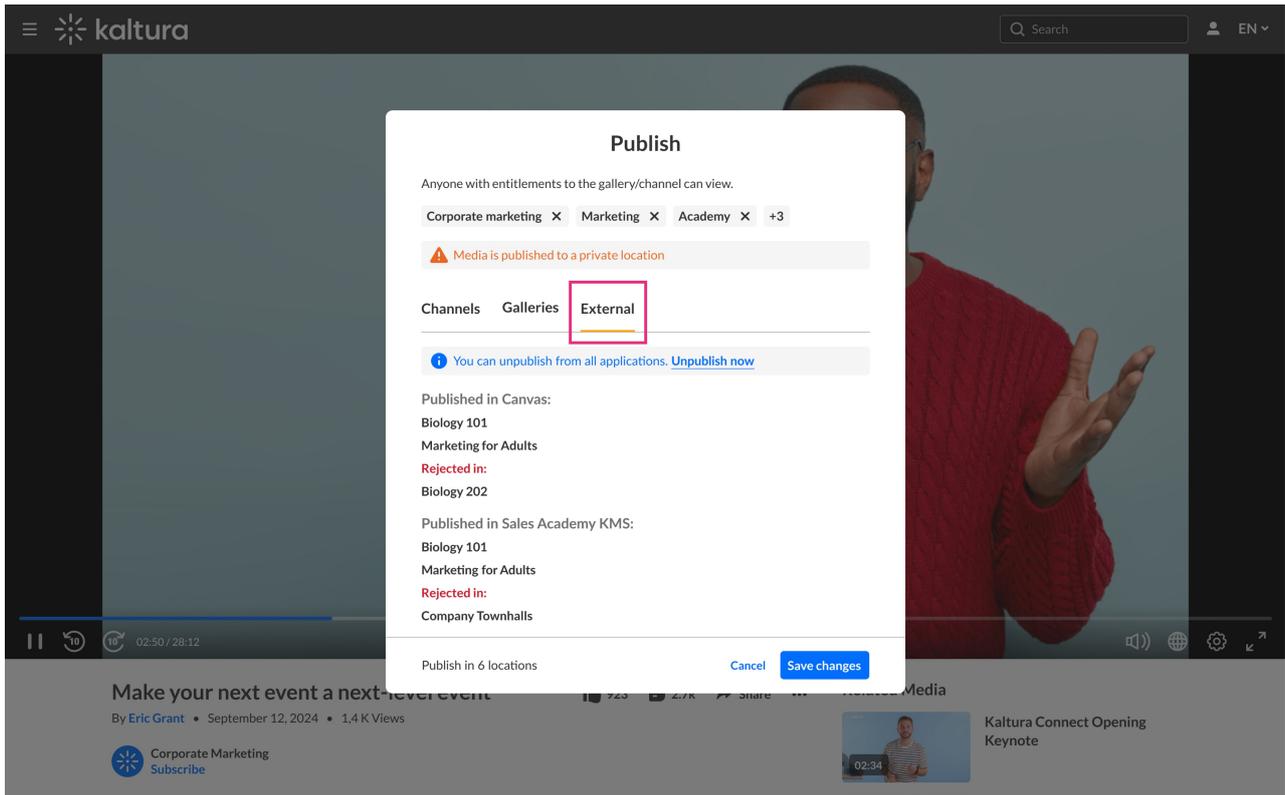

When media is published or pending in an external application, an alert displays on the Publish status menu: *Media is published to external application.*
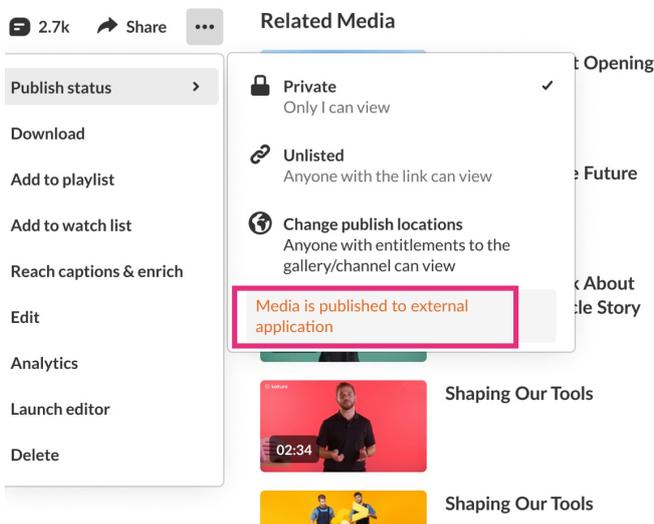

> ℹ This alert and tab will only display if **showExternalPublish** has been enabled in the Categories module.

You can click **Change publish locations** to open the Publish window, and then click the **External** tab to see the applications where the media is published, rejected, or

pending.

Once you click **Unpublish now**, a confirmation message displays: *This action will unpublish the media from all applications. Are you sure you want to continue?*

You can click **Unpublish** to continue and a success message displays: *Unpublished from all applications.*

Publish option grayed out

The **Publish** option on the Publish status menu will be grayed out if 'required' items have not been completed.

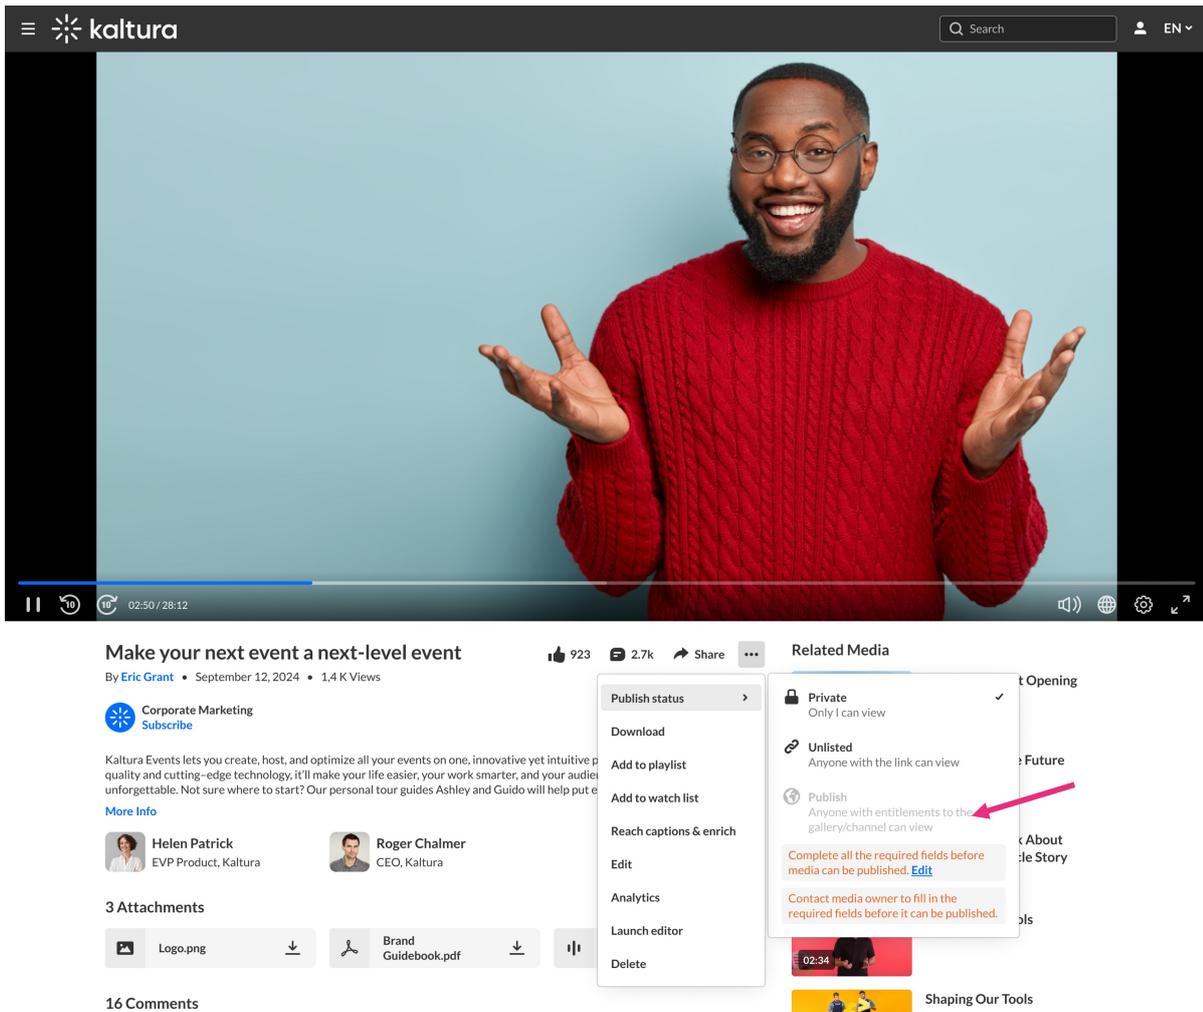

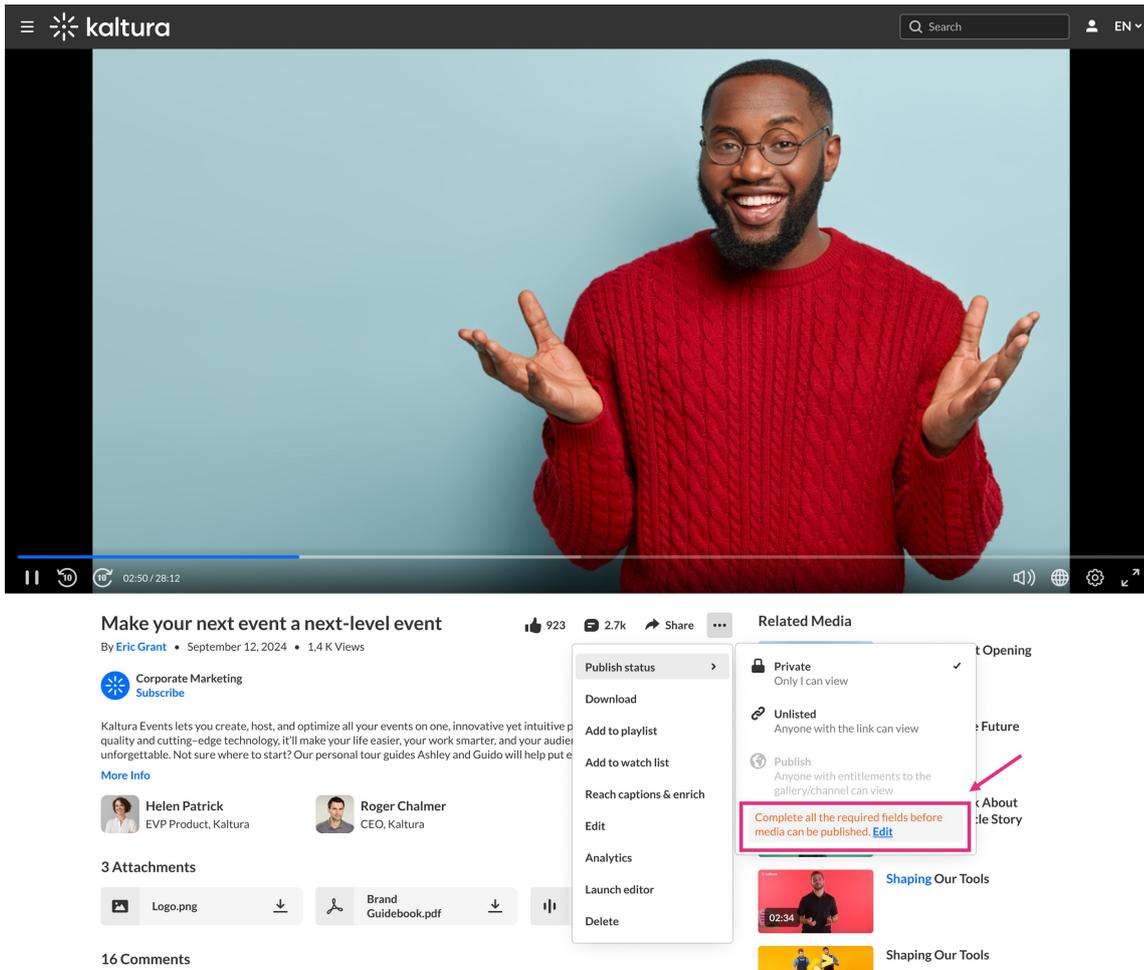

Required items can include:

- Metadata fields like tags and descriptions (configured in the Metadata module).
- Custom metadata fields (configured in the Customdata module).
- Captions (if your administrator has enabled this in the Captions module).

You will see a message based on your permissions as follows:

Complete all the required fields before media can be published - You will see this message if you have edit permissions (owner, co-owner, co-editor). Click **Edit** to navigate to the edit entry page and fill out the necessary fields.

Contact the media owner to fill in required fields before it can be published - You'll see this message if you don't have edit permissions (for example, co-publisher).
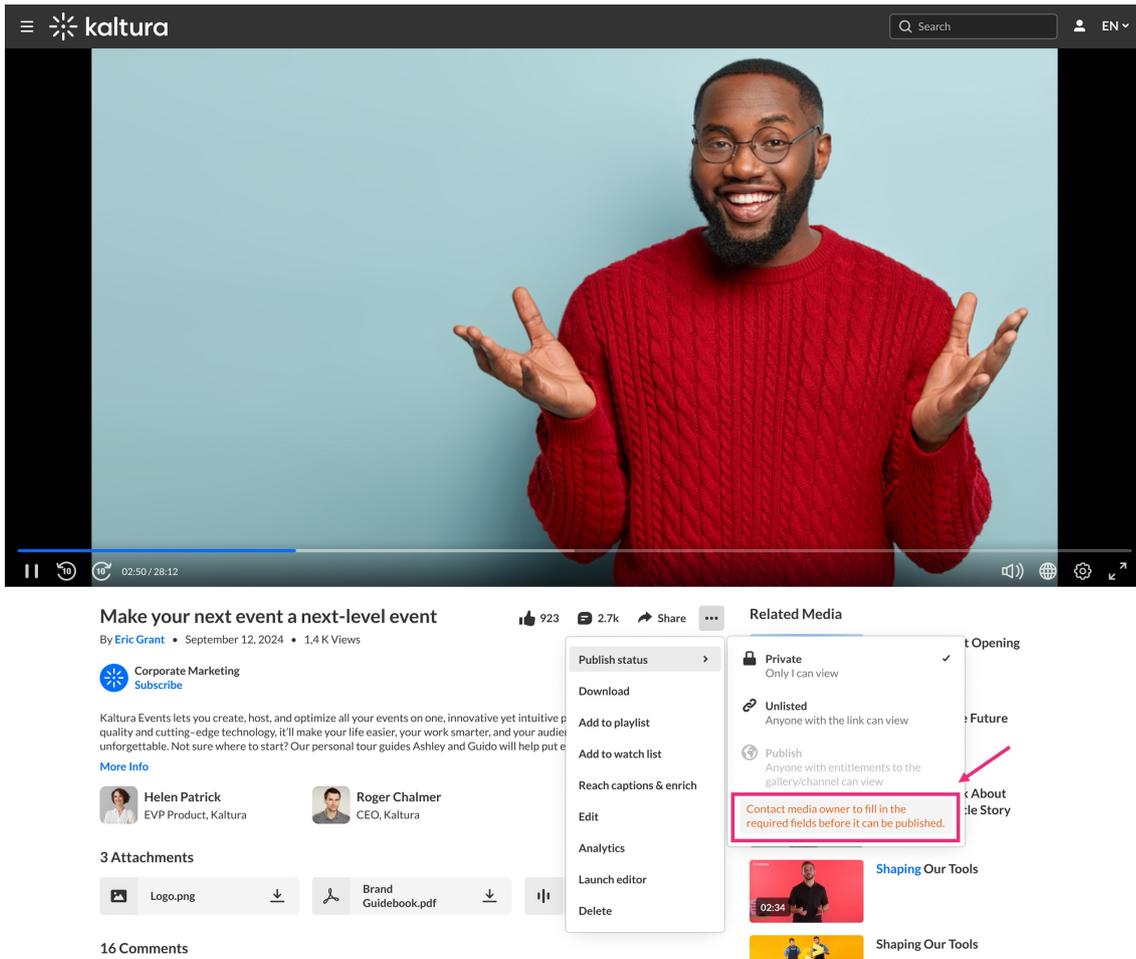

Media cannot be published without captions - You'll see this message if captions are required but missing.

You can order captions from the **three-dot menu** by selecting **Reach captions & enrich**. For step-by-step instructions, see Order captions.
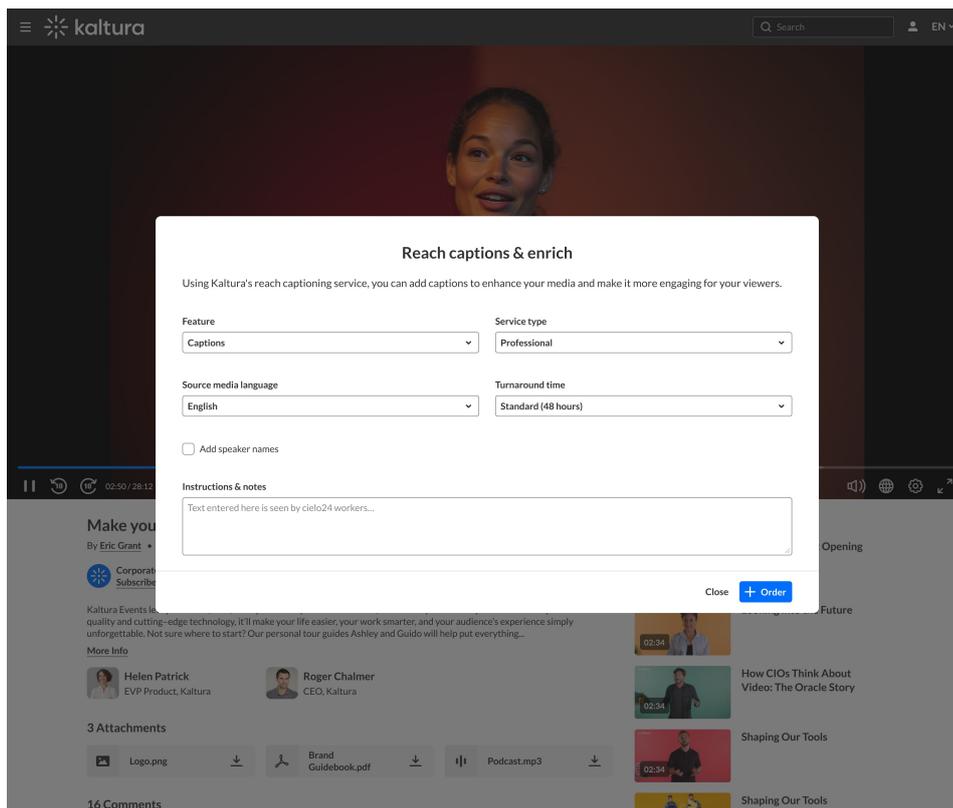

Once captions are ordered, you'll return to the media page and see a message: *Ordering captions in progress. Publishing will be enabled once finished.*

Unpublish media

To unpublish media, you need to change its status to private. See Change publishing status above.
