

Admin Announcement - Admin Guide

Last Modified on 09/11/2024 6:50 pm IDT

 This article is designated for administrators.

About

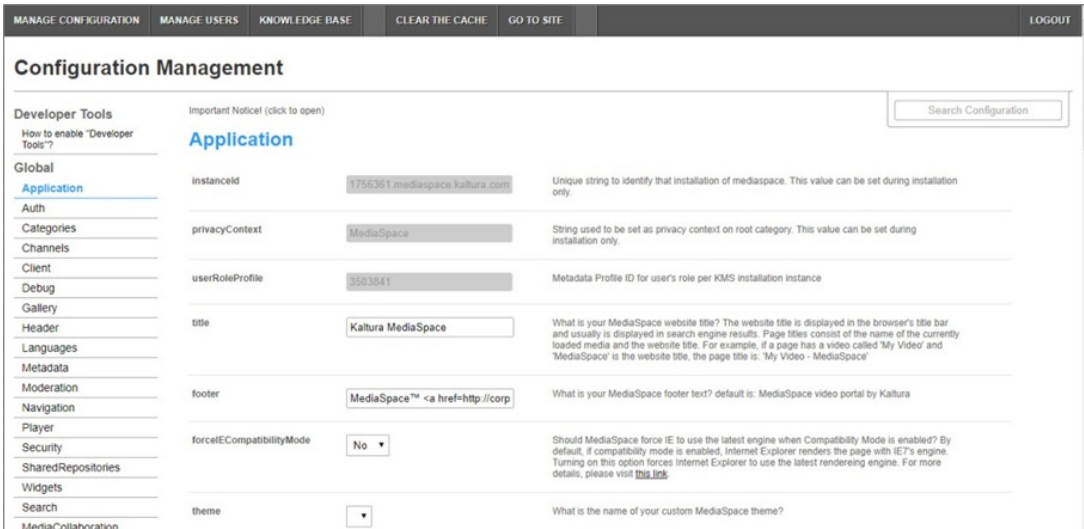

The Adminannouncement module allows administrators to add an announcement alert banner for all end users. The sections herein will guide you through logging into the Configuration Management section of KMS and enabling and configuring the Adminannouncement module.

 This module is for both Theming and non-Theming users.

 For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

Configure

1. Log into the Configuration Management console by going to your KMS URL and adding */admin* at the end.
2. Enter your Kaltura user ID and password.
3. Click **Sign In**. The Configuration Management console displays.

The screenshot shows the Configuration Management console interface. At the top, there are navigation tabs: MANAGE CONFIGURATION, MANAGE USERS, KNOWLEDGE BASE, CLEAR THE CACHE, GO TO SITE, and LOGOUT. The main heading is "Configuration Management". On the left, there is a "Developer Tools" sidebar with a search box and a list of categories: Global, Application (selected), Auth, Categories, Channels, Client, Debug, Gallery, Header, Languages, Metadata, Moderation, Navigation, Player, Security, SharedRepositories, Widgets, Search, and MediaCollaboration. The main content area is titled "Application" and contains several configuration items:

Field	Value	Description
instanceId	1756361.mediaspace.kaltura.com	Unique string to identify that installation of mediaspace. This value can be set during installation only.
privacyContext	MediaSpace	String used to be set as privacy context on root category. This value can be set during installation only.
userRoleProfile	3503841	Metadata Profile ID for user's role per KMS installation instance
title	Kaltura MediaSpace	What is your MediaSpace website title? The website title is displayed in the browser's title bar and usually is displayed in search engine results. Page titles consist of the name of the currently loaded media and the website title. For example, if a page has a video called 'My Video' and 'MediaSpace' is the website title, the page title is: 'My Video - MediaSpace'
footer	MediaSpace™ <a href=http://corp	What is your MediaSpace footer text? default is: MediaSpace video portal by Kaltura
forceIECompatibilityMode	No	Should MediaSpace force IE to use the latest engine when Compatibility Mode is enabled? By default, if compatibility mode is enabled, Internet Explorer renders the page with IE7's engine. Turning on this option forces Internet Explorer to use the latest rendering engine. For more details, please visit this link .
theme		What is the name of your custom MediaSpace theme?

4. In the list of configurable items on the left of your screen, locate and click on Adminannouncement.

 The Adminannouncement item will be crossed out because it is disabled by default.

The Adminannouncement window displays.

The **Module Info** box displays the module name, description (what enabling this module allows users to do), and version number.

5. In the enabled pull-down list, select **Yes** to enable the Adminannouncement module.

Other configurable items following the enabled pull-down list are as follows.

Configuration Name	Options	Description
announcementText	Free text	The text of the announcement. HTML markup is allowed.
announcementColor	Yellow, Red, or Light Green	The color scheme of the announcement.
showForAnonymousUsers	Yes or No	Whether or not this announcement will be shown for anonymous users.

6. Click **Save**. You receive a notice that your configuration for Adminannouncement was saved and the cache was cleared.

Admin Announcement

Once enabled and configured, the Admin Announcement displays to the end user at the top of every page of the KMS as follows.

Theming users:

Non-theming users:
