5. Add a profile image if desired (we recommend 500x500 px), title, company, and bio.
6. Once finished, click **Invite** to send an invitation email, or click the down arrow to the right of the **Invite** button and choose **Invite without an email** to add this person to the webinar *without sending them an invitation email*.

 Once you are ready to send them the invite, you can click the three blue dots to the right of Status and select the 'resend email' option on the Speakers page.

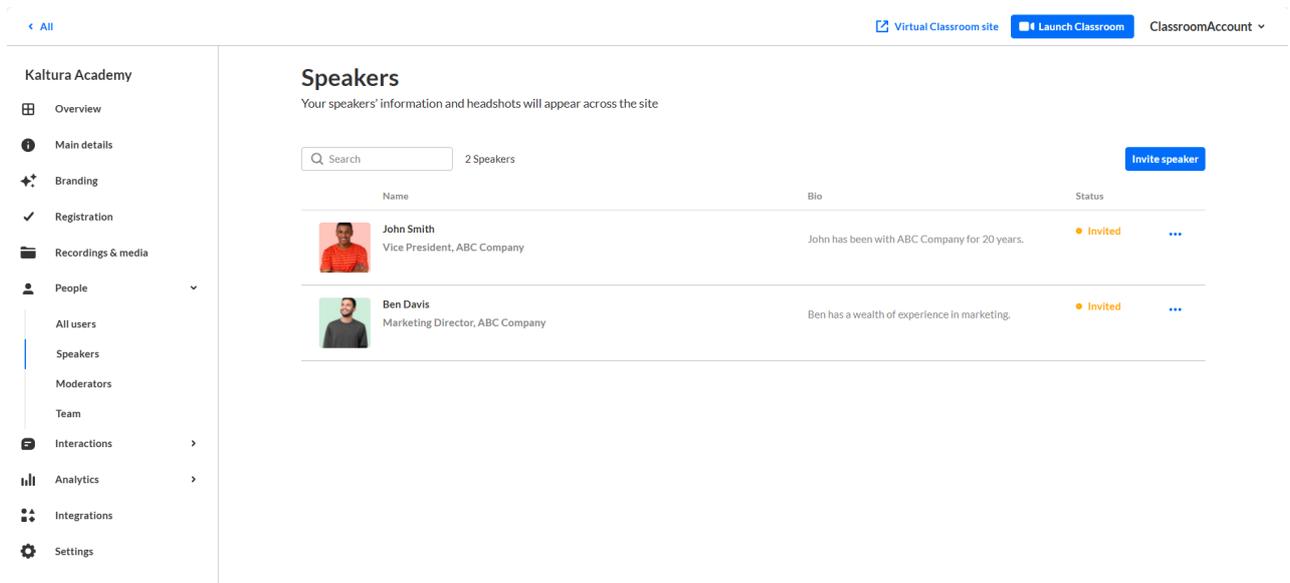

A notification asking you to confirm your action is displayed. Once the role is assigned, you cannot revert this action.

7. Click **Invite** to confirm or click **Cancel** to cancel the action.

If you clicked **Invite**, a notification that the invite was successfully sent is displayed and the invitation you created will be sent to participants to complete the registration. If you clicked the down arrow to the right of the **Invite** button and chose **Invite without an email**, a notification that the invite was successfully sent is displayed and the person is added to the Speakers list as "Registered".
