

## Edit content in Content Hubs

Last Modified on 04/29/2026 1:25 pm IDT

 This article is designated for all users.

### About

The **edit page** lets you manage all key aspects of your content, including details, appearance, access, scheduling, assets, and permissions.

Settings are organized into tabs in a left-hand navigation, making it easy to move between different areas.

### Who can use this

- Media owners
- Co-editors

- Requires the [Mediaedit](#) feature in the Theming module to be enabled.
- Available actions may vary depending on your permissions.

### Access the edit page

1. From the user menu, select [My Media](#).

The 'My Media' page displays.

2. Click the **three dots** to the right of the desired media and select **Edit**.

## Details

Update the media's basic information, including title, description, tags, and additional metadata required for publishing.

For the full guide, see [Edit media details](#).

## Theme and layout

Preview how the media appears in a player.

For the full guide, see [Configure media theme and layout](#).

## Schedule

Control when the media is available. Depending on the media type and enabled modules, this can include session availability and publishing schedules. Session types include Live, Webcasts, and Kaltura Room sessions.

For the full guide, see [Schedule media to be viewed in Video Portal](#).

## Thumbnail

Manage the media thumbnail by uploading images, selecting frames (for video), setting the default thumbnail, and removing unused thumbnails.

For the full guide, see [Edit media thumbnails](#).

## Privacy

Control who can view the media and review where it is published across applications. Available options depend on your permissions.

For the full guide, see [Set media privacy](#).

## Assets

Manage files associated with the media entry, including replacing the main media file, adding attachments, and controlling download options for viewers.

For the full guides, see:

- [Replace media](#)
- [Manage media attachments](#)
- [Manage media downloads](#)

## Roles and permissions

Manage who has access to the media and what they can do. Add collaborators or moderators, manage speakers (when enabled), update permissions, transfer ownership, or export the users list.

For the full guide, see [Edit roles and permissions](#).

## Accessibility

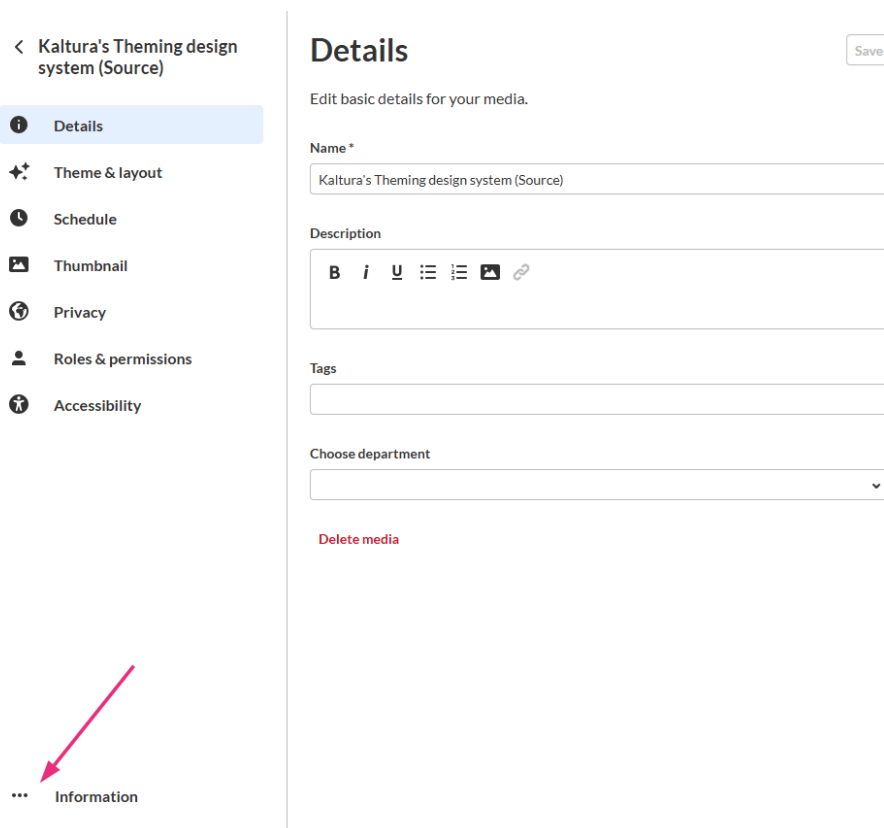

Manage accessibility-related assets for the media, such as captions, audio descriptions, and alternate audio tracks. You can upload or create these assets, manage existing ones, and set default options where applicable.

For all the guides, see the [Captioning & enrichment services](#) category.

## View media information

You can view key details about the media entry at any time using the **Information** panel.

Click **Information** at the bottom of the left navigation panel.

The screenshot displays the Kaltura media management interface. On the left, a navigation sidebar lists various options: Details, Theme & layout, Schedule, Thumbnail, Privacy, Roles & permissions, and Accessibility. At the bottom of this sidebar, an 'Information' option is visible, with a red arrow pointing to it. The main content area is titled 'Details' and includes a 'Save' button. Below the title, there is a section for 'Edit basic details for your media'. This section contains a 'Name' field with the value 'Kaltura's Theming design system (Source)', a 'Description' field with rich text formatting options (bold, italic, underline, list, link, image), a 'Tags' field, and a 'Choose department' dropdown menu. At the bottom of the details section, there is a 'Delete media' link.

The information panel opens.

**Information**

Creator [Ava Austin](#)

Owner [Dani Cooper](#)

Media type **Live**

Schedule time **December 25, 2025**  
**1:20pm EST**

Update date **September 12, 2025**

Create date **June 25, 2025**

⋮ Information

The panel displays details such as:

- **Creator and owner (with links to their profiles)**
- **Media ID**
- **Media type**
- **Update date**
- **Creation date**
- **Last playback date**
- **Publish status**

- The information is available from any tab and does not affect your current view.
- Depending on the media type and configuration, additional details may appear.

Click **Copy all** to copy all displayed information in a readable format. This is useful for sharing media details or troubleshooting.
